Draft SCPHN timetable: subject to change

Key: **Student leave** School holidays (based on Oxfordshire)

UNI = You are scheduled to be on campus if we can facilitate this, if unable, we will continue to meet with you online and a bended approach will be taken

PS = Private study day

OL = This time is allocated for online learning, but **you need not allocate this day of the week**

SL = Synchronous learning – you will be scheduled to have some non-face to face contact online with your cohort

Draft SCPHN Timetable Jan 2022– 2023									Assessment due date summative only There will be further formative work before these deadlines
	Semester Week	week Beginning	Mon	Tues	Wed	Thurs	Fri	**Each week from week 2 onwards you are able to take a private study day. This can be moved around the week with negotiation with your practice assessor/ practice supervisor** Practice Hours You must complete a minimum 112.5 practice days in total. Inclusive of 15 days alternative practice (5) and public health days (10). 62.5 of these should be completed before you move into the final consolidation block **It is your responsibility** to ensure practice hours are monitored and completed and signed by your practice assessor/ practice supervisor **Annual Leave** The majority of your Annual leave is set for you in the year as set out in the timetable. **In addition you have 5 annual leave days not scheduled which you negotiate** (in advance and in a timely way) with your CPA to take when suits you. These must be taken on days that are not University or assessment days

		26.12.22	Annual leave						

January		02.01.23	**Consolidation** (5 days per week) with the exception of BH monday (2nd Jan)	
		09.01.23		

Additional information:
Students are expected to gain 10 public health days (PH – to be completed by consolidation please) and 5 *alternative placement days - these are counted in the 112.5 minimum practice days required. **School Nurses**, you may move this week if this is not a good week for arranging a placement.

It is expected that you will work more hours in placement than the required minimum. Your Alternative placement week can move to one of your annual leave weeks in August if this is agreed with your CPA or to another week in September if this were more appropriate (school nurses for example). You will not be able to bank your annual leave please take this as scheduled.

****Study days during consolidation** are to be used for the e-portfolio work and you will work 5 days in practice once the portfolio is submitted.

Changing Placements: It is expected that you have two placements in your year of study. This is to comply with the NMC (2019) SSSA requirements to have two assessors in your programme. **When you change your placement will be arranged by your CPA's and communicated to you at the start of the course.**

In this year of study (January to January) we have built in 4 weeks in the programme where you can either remain in your first placement after your annual leave in August a complete outstanding work in the caseload.

Or

Use the 4 weeks to settle into your consolidated placement.
