Minutes

The site council started with a final budget update. The council received the full report along with the linked spreadsheet, which focuses mostly on the most essential budget items.

The site council also got to preview the website page dedicated to the site council with all updated agendas and minutes. It is missing agenda and minutes for this meeting, which will be updated with translated agenda and minutes.

Next we shifted our attention to the Vision and Mission statements. After several rounds, we were able to settle on two statements that the representative group was happy with. As a recap, the process started with staff input. Then we considered STUCO written statements to add to this process. Next, we went through multiple iterations to arrive at a Vision and Mission statement that we were pleased with. We arrived at a Mission Statement that we all liked at the previous meeting. Today's meeting was mostly focused on finalizing the Vision Statement. The two statements are displayed above.

Next we said goodbyes to members who will not be returning next year. We thank them for their invaluable contributions and time. The site council is responsible for the direction of our campus, and these individuals positively impacted the current school year and beyond. Thank you!

This took us to the conclusion. Looking forward to 2025-2026 site council:)
