Late Work

1. The operational definition of late work is when a student has been provided adequate time and instruction to complete an assignment, and has not completed it by the due date. This includes all assignments and long-term projects. If a student does not turn in an assignment by the due date, then the student will have five school days to turn in the assignment late, and twenty-five points will be deducted.
 - a. If work is more than five school days late, it will result in a zero.
 - b. Late work will not be eligible for corrections.
