

I apologize for the lack of organization here, I am not that well versed in Google Docs

1.) Sixtysevenriddim (<https://soundcloud.com/sixtysevenriddim>) referring to when he leaked the spazzout stems on r/xTrill, which ended up being mistaken for my doing

2.) CrySomeMore's callout post in the Riddim Dubstep Society

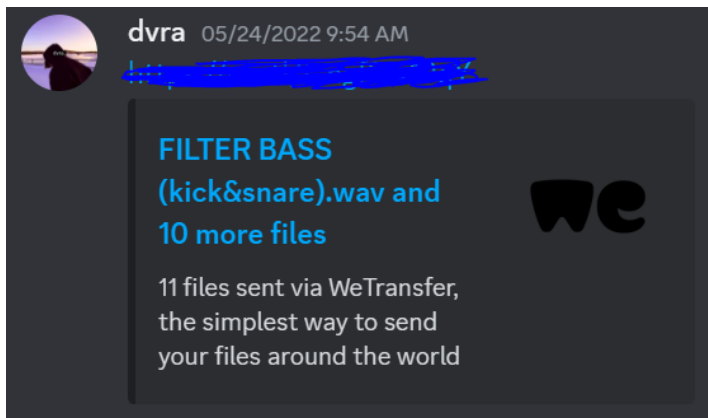

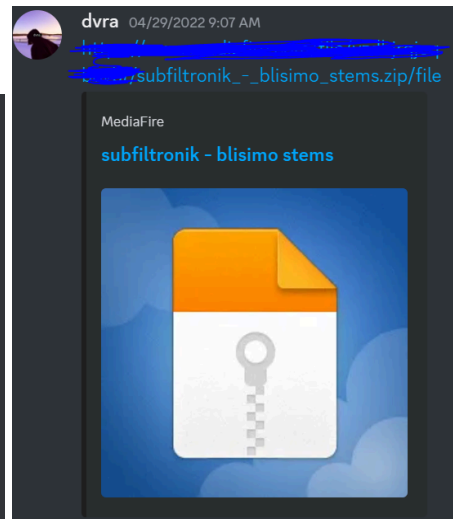

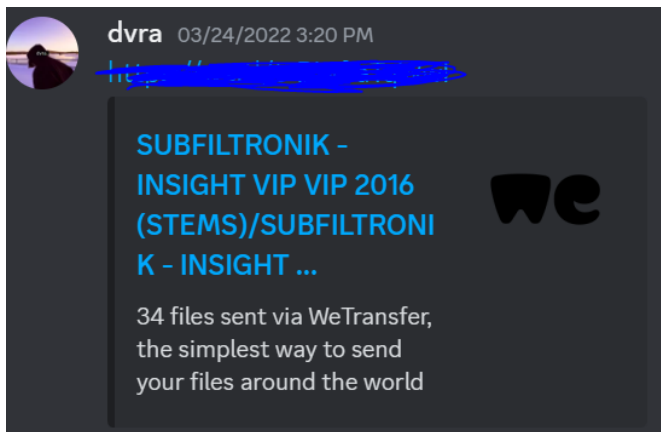

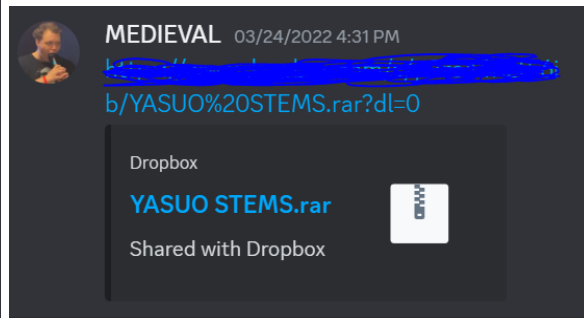

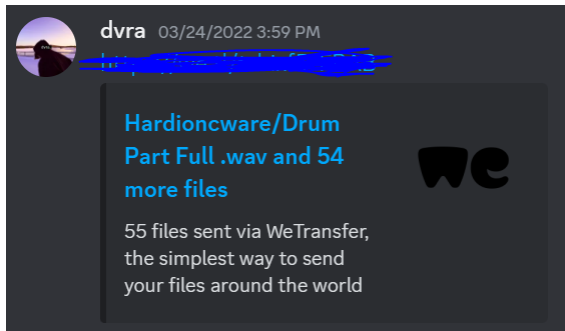

The image is a screenshot of a Discord message from a user named Shane Cry. The message is a numbered list of nine items, each describing a different incident or behavior related to music production and distribution. The list includes mentions of other users like Izaya Midroll and Corey Torres, and references to specific dates and platforms like Funnybone discord.

Shane Cry · 3h · 🌐

1. [Izaya Midroll](#) DM'ing me after someone told him I was sus'd about him selling remixes of other people's tunes without permission from OG artists. Also, selling 'bootlegs' without paying the original artists is worse than buying stems and doing it imo.
2. Badphaze never heard of dude.
3. KOH [Corey Torres](#) asking for passout stems & midroll basically saying bet. (1/12/2022)
4. continuation of #2, Midroll posting passout stems (& spazzout stems, who knows what else) in the [#stem](#)-archives in funnybone public discord for 'stem sharin'
5. (3/21/22) showing that at least passout and spazzout stems were posted for free DL in the Funnybone discord for up to a couple of months.
6. Offering to trade for Headbuss stems or R28D which I have confirmed later that he eventually bought through Benz but still.
7. Offering Hellraiser specials for sale, not long after hellraiser stems get leaked...
8. Bragging about selling bloxout remix & profits.
9. Original plate pack that was taken down with remixes & not paying royalties.

3.) Stems being traded with me from when we thought it was okay to do so.

4.) Mad Dubz and Nexu5 thinking that their unreleased were leaked in the FB discord

Nekky @nexu555 · Dec 4, 2022

this guy also downloaded 85 plates of mine. He confessed he got them from the FUNNYBONE discord. Have it on good authority that they share a lot of plates in there... taking a much harder look at who gets my link now

I think FunnyBone are being targeted just because of what happened last time, not defending the group in the slightest but people will do just about anything to drag names through the mud for extra clout points

MORT  **POW BOOTLEG OUT NOW**   
@mortdubz

this reads like some salty troll just trying to place blame on them, assumingly bc thats an easy target after the drama that happened last month

i mean actually why would someone just reveal their source voluntarily without even being asked, esp if they're profitting off it?

5.) Shrq and others vouching for Funnybone, not leaking tunes

 @BeanieGod Look this is misinformation because I have not seen plate trading in here and if we do then us the mods take action

 shrek dubs 12/05/2022 7:09 AM

also yeah was willing to get a little into that its not the first time im seeing stuff about this server and probably not the last

 @shrek dubs also yeah was willing to get a little into that its not the first time im seeing stuff about this server and probably not the last

 Hacki 12/05/2022 7:30 AM

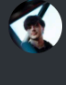

It's just fckd that people can claim whatever they want and we have no real way to disprove it as false.

You are VIP here you can see the VIP channels and hung around in VC many times. There are no plates here posted at all except when an artist posts them themselves.

 shrek dubs 12/05/2022 7:30 AM

literally nothing that aint 3 years old at least

 @Hacki It's just fckd that people can claim whatever they want and we have no real way to disprove it as false. You are VIP here you can see the VIP channels and hung around in VC many

 shrek dubs 12/05/2022 7:30 AM

dude

obviously if some dude was trading in here he wouldnt do it WITHIN the server lmao

 shrek dubs 12/05/2022 7:31 AM

but the fact this servers name keeps being brought up is still a little sketch

 jackspeachy 12/05/2022 7:31 AM

right?

 shrek dubs 12/05/2022 7:32 AM

tbf in the vip section i shared literally all of my most recent shit and its not on any lists or leaks so as far as im concerned yall are okay

 Hacki 12/05/2022 7:32 AM

All building on that stupid call-out thread in the riddim Facebook group

Still the same drama and some people just ride the meme

 shrek dubs 12/05/2022 7:32 AM

but a few kids from here or pl8cord could be just trading on the side

 jackspeachy 12/05/2022 7:32 AM

^

 shrek dubs 12/05/2022 7:32 AM

and go like "yeah we part of fb"

 Hacki 12/05/2022 7:37 AM
But nexu5 thinks it's real and publicly tells folks we leak shit

 shrek dubs 12/05/2022 7:37 AM

 Hacki 12/05/2022 7:39 AM
I can't remember any such situation

 jackspeachy 12/05/2022 7:40 AM
if anyone takes 5 minutes to search leak in the search bar you can see many instances of hacki saying dont share leaked shit

 takecontrol_ 12/05/2022 7:41 AM
i literally searched and I didn't see anything about Nexu5 either 🦠
Besides people asking how much he charges for speshes

 Hacki 12/05/2022 7:34 AM
Like we would really like to proof it too nexu5 too that nothing of his got shared here
We just don't know how

 jackspeachy 12/05/2022 7:34 AM

 shrek dubs 12/05/2022 7:34 AM

 jackspeachy 12/05/2022 7:34 AM

 @jackspeachy i mean you genuinely cant

 shrek dubs 12/05/2022 7:34 AM

 Hacki 12/05/2022 7:35 AM
No idea. My guess is because he also named crysomemore is that he is just memeing based around the Facebook post a few months ago

 jackspeachy 12/05/2022 7:35 AM
but then thats up to him to decide if he even wants to beleive it

 shrek dubs 12/05/2022 7:35 AM
