

COLORADO

Governor Jared Polis

EASTERN PLAINS AND SAN LUIS VALLEY

- “It’s not every day you hear about health care costs going down, but thanks to our bipartisan work in Colorado, folks who buy their own insurance are going to see a 20 percent average reduction in premiums this coming year. This will save families on the **Eastern Plains and in the San Luis Valley a yearly average of \$7,476,**” said Governor Jared Polis. “This is just one part of our bold agenda to reduce sky-high health care costs. The days of being ripped off on health care are finally ending in Colorado.”
