

SAHHEED RAJPAL DAV PUBLIC SCHOOL, DAYANAND VIHAR, DELHI

SRDAV/2025-26/25

Dated: October 28, 2025

Dear Parents,

With the **change in weather and the onset of the mosquito breeding season**, there has been an increase in cases of mosquito-borne diseases such as **Dengue, Chikungunya, and Malaria**. In order to safeguard the health and well-being of students, we request your cooperation in following the preventive measures below:

1. **Dress Code:** Please ensure that your ward wears **full-sleeved shirts** to school .
2. **Personal Protection:** Apply a **child-safe mosquito repellent lotion or patch** before your child leaves for school.
3. **Home Precautions:** Regularly check your surroundings and **eliminate any stagnant water** to prevent mosquito breeding.

The school has also undertaken preventive measures such as **regular fumigation, maintaining cleanliness, and ensuring proper drainage** in and around the campus.

We seek your support in keeping children safe and healthy during this weather transition.

Your continued cooperation in this regard is appreciated.

Regards

Vinita Kapoor
Principal
