June 13, 2017 WebExtensions APIs Triage

- GoodFirstBugs: 17:00 - 17:30 UTC | 10:00am - 10:30 am Pacific
- WebExtensions APIs: 17:30 - 18:00 UTC | 10:30am - 11:00am Pacific

How to Join, Queries, and Relevant links:

- https://wiki.mozilla.org/Add-ons/Contribute/Triage

Attendees:

- Andreas
- Andrew
- Jorge
- Caitlin
- Andy M
- Bob
- Jonathan

- Luca
- Shane
- Matt W
- Greg Cox
- Mark Striemer
- Geoffrey (smile4ever)

This time's discussion/action items:

- **Good First Bugs**
  - People need to remember to add 'needs mentor' to label
  - Need to find GFBs that don't have 'needs mentor' and 'mentor assigned' label
    - i. Someone would need to do that manually
    - ii. Volunteers? :)
  - 'Mentor assigned' label not available across add-ons repos
    - i. There is one case when some engineers set 'good first bug' label without going through assigning a mentor
    - ii. 'Needs mentor' might be redundant
    - iii. It would be a manual task to go through and add the label 'mentor assigned' to all bugs with assigned mentorship
    - iv. Action: Andy to grant Caitlin permissions to add-ons repos, Caitlin to update the labels
    - v. Going forward: we're dropping the 'needs mentor' label and adding a 'mentor assigned' label when mentors are assigned. Then we triage on what bugs do not have a mentor assigned label.
  - Bugs discussed: 972,
  - For contributors looking for more advanced bugs, look through the issue list on GH

- **WebExtensions APIs**
  - [Improved Tracking Protection](#) -- WE Experiment
    - i. Looking for feedback from the team
    - ii. Need review from AdBlock, uBlock devs (may not be able to do so until after 57). If anyone else should review, please add their names below:
      1. Luke Crouch (groovecoder), Francois Marier
  - [Bug 1347738](#) - Cache control functionality
    - i. Feels like user case is covered in bug 1332748
    - ii. This bug is tentatively approved based on what happens in 1332748
    - iii. Shane to update
  - [Bug 1365355](#) - Consider hiding scheme and hash in moz-extension:// scheme URLS
    - i. Approved, P5
    - ii. CN to update the bug
  - [Bug 1318532](#) - Support <iframe mozbrowser> in WebExtensions
    - i. Idea is fine; not sure how to implement
    - ii. Approved, P5
    - iii. Needs interna discussion for how to implement
    - iv. CN to update the bug
  - [Bug 1356309](#) - Chrome compatability - WebExtensions should be able to create "real" mouse events
    - i. See https://bugzilla.mozilla.org/show_bug.cgi?id=1348213
    - ii. Dupe this bug to 1358213
    - iii. Luca to update the bug
  - [Bug 1361327](#) - WebExtensions: new Omnibox API which would allow overriding the Autocomplete Popup
    - i. Some security/privacy concerns; we don't want to alter UI in this particular place.
    - ii. Shane proposed an alternative
    - iii. Need input from the team responsible for this area before making a decision
    - iv. Andy to update this bug

- **Discussion items**
  - Experiment discussion for next week:
    - https://bugzilla.mozilla.org/show_bug.cgi?id=1332447#c30

Last time's discussion/action items:

- **Good First Bugs**

- ○ 5491, 405, 2482
- ○ Stuart to attend future GFB triages

- **WebExtensions APIs**
  - ○ [Bug 1320585](#) - Allow styling individual tabs
    - ■ Approved - P5
    - ■ Andy to comment
  - ○ [Bug 1364019](#) - need a way to know whether a new tab is just a previously closed tab being restored
    - ■ Can probably do this in web navigation right now
    - ■ Approved - P5
    - ■ Shane to update the bug; needinfo Luca
  - ○ [Bug 1342712](#) - Allow browser themes to be scoped to a specific window or active tab (like Vivaldi / VivaldiFox)
    - ■ Approved - P5
    - ■ Matt W to update the bug
  - ○ [Bug 1325758](#) - Ability to specify insertion point for contextMenu item or submenu
    - ■ Going to discuss in IRC
    - ■ Need Kev's input on this; current inclination is to deny.
    - ■ this request will be denied but will be broken out into two separate bugs
    - ■ We are in agreement with comment 6
    - ■ Flying Sheep: we recommend filing a new bug for your proposal
  - ○ [Bug 1325759](#) - Copy image binary content as well as URL
    - ■ Andy to investigate why Chrome deprecated this and then removed
    - ■ Unclear about how to implement this in Firefox
    - ■ Approved - P3
    - ■ Needinfo Andy;
    - ■ Need to work through scenarios of clipboards
  - ○ [Bug 1348589](#) - [commands] Support dynamic commands
    - ■ Do it in conjunction of [1303384](#)
    - ■ Approve - P3

- **WebExtensions Experiments**
  None
