

Montessori Early Childhood Learning Train 2

Please contact msadiqaadil@gmail.com for issues or queries.

This app transforms the Montessori method of learning into fun activities. The various activities help child learn letters, numbers, shapes, colours and sizes.

Learning has never been so easy, engaging and fun.

Please keep volume on to use the app in better way.

The various activities in the app are

- 1). Match the corresponding shapes. This helps child in recognising various shapes.
- 2). Arrange the days . It helps the child in understanding days sequence.
- 3). Arrange the months. It helps the child in learning the months name and sequence.
- 4). Child learns the upper case letters in a fun way.
- 5). Child learns the lower case letters. Child recognises the letters and their sequence.
- 6). This activity helps child in learning and recognising the numbers.
- 7). Here child learns the difference in sizes of various objects.
- 8). This activity helps child in learning the shades and intensity of the colours.
- 9). This activity would help child in recognising various colours.

HAPPY LEARNING!!
