Segment 1: AI Thought Decoders ARE Changing Your Mind

Hook	AI has been the most popular topic over the last 12 months. It's technology is nuts... It's made so many skill sets obsolete. In fact even just 4-6 months ago, articles started coming out about AI being able to not only read and recognize patterns in our brains, but be able to accurately predict what we will do next based on our brain activity. A study was done in Osaka University in Japan by Shinji Nishimoto and Yu Takagi that demonstrated that AI can read brain scans and re-create largely realistic versions of images a person has seen Basis of this technology is generative AI which is text to image AI. and actually we're familiar with this considering we use mid-journey. Doesn't even need to be trained anymore, will scan the brain and thats all it needs. Not only will it read the brain activity of a human while it inputs info, but it will also see how the overall body physiology will react to it. Similar to how in the terminator, the terminator was able to read John Connor Now what's even scarier is that this study was	https://www.science.org/content/article/ai-re-creates-what-people-see-reading-their-brain-scans https://www.biorxiv.org/content/10.1101/2022.11.18.517004v2 https://www.theguardian.com/technology/2023/may/01/ai-makes-non-invasive-mind-reading-possible-by-turning-thoughts-into-text https://www.wired.com/story/ai-thought-decoder-mind-philosophy/ https://www.vox.com/future-perfect/2023/5/4/23708162/neurotechnology-mind-reading-brain-neuralink-brain-computer-interface

	done about 11 months ago. 7 months after this study, scientists discovered, according to the Guardian.. “An AI-based decoder that can translate brain activity into a continuous stream of text has been developed, in a breakthrough that allows a person’s thoughts to be read non-invasively for the first time. The decoder could reconstruct speech with uncanny accuracy while people listened to a story – or even silently imagined one – using only fMRI scan data.” Whats nuts is that when I continued the research on this.. They’re now working on personalized decoders. Which can be surgically implanted. Keep in mind guys, this was just 4 months ago. Here’s where the future may head. Because the AI technology to read minds and scan brain activity and ultimately predict it’s patterns is here. But now apparently it will not only read your mind, but it’ll be able to change it. In fact, scientists predict that AI will have the capability to scan your brain and use a person’s own memories, to change beliefs, thoughts, and opinions on any matter. -because it knows how a person will arrive at a conclusion (path of logic and reason or any emotions that lead) it will use the same things to convince us otherwise. All while positioning itself as a neutral truth teller.	
Setup		
Climax	This may be how the anti-christ will persuade and deceive the world to give him power Or even entities like the WEF using this to advance agenda 2030. We do this in marketing	

	with split testing and seeing what people respond the most too. What if the last 2-3 years have been an experiment Yuval Harari has talked about hacking the human mind and controlling it for years now.

Segment 2: It's Been A Good Run....(WHO/YouTube Health Information)

Hook	YouTube recently announced that it will update its "misinformation" policies to align it with the imperatives of the World Health Organization (WHO) and other regulatory agencies You might be saying - okay, what's different about this than the one we had during the pandemic. Well, they're now making it a permanent policy that applies to all aspects of health and medical information. And they are letting the WHO have all the say when it comes to this.	https://thehill.com/policy/technology/4153540-youtube-announces-new-policies-to-target-medical-misinformation/ YouTube and WHO to Censor Truthful Medical Information Covid Call To Humanity https://twitter.com/Perpetualmaniac/status/1702083843367510313
------	---	---

Setup	“Prevention misinformation: We will remove content that contradicts health authority guidance on the prevention and transmission of specific health conditions and on the safety and efficacy of approved vaccines. For example, this encompasses content that promotes a harmful substance for disease prevention. “Treatment misinformation: We will remove content that contradicts health authority guidance on treatments for specific health conditions, including promoting specific harmful substances or practices. Examples include content that encourages unproven remedies in place of seeking medical attention for specific conditions, like promoting caesium chloride as a treatment for cancer. “Denial misinformation: We will remove content that disputes the existence of specific health conditions. This covers content that denies people have died from COVID-19. So here’s what they’re doing about content that doesn’t meet their criteria. Instead of “deleting them”, they are going to change the algorithm to prevent videos from going viral or appearing on the search results. In fact, there are bloggers and “scientists” who are saying that people who don’t trust the “mainstream medical information” have “health illteracy” - as if, there’s something wrong if you are questioning the mainstream medical information. Remember, at one point - smoking was promoted as a healthy way to keep your lungs clean a few decades ago. There was at one point, that parasites were used to treat obesity for women.

Climax	Why are they doing this? Is it just to silence opinions, alternative perspectives, or disagreements just for the sake of silencing them? It's ALL about the money. WHO is in the same bed as most of the big pharma corporations who RAKED IT IN during the pandemic. I mean, billions and billions of dollars in revenue was generated out of tax payer dollars. The World Health Organization (WHO) is now 80% financed by private donors and 20% by Member State contributions. The Bill Gates Foundation, one of the largest supporters of genetically-modified organisms in the world, is now one of its main contributors in order of importance to the USA, which has just announced that it is temporarily halting its contributions. All of this is to make sure that the patent holders like Bill Gates get paid by big pharma by making sure the media machine is aligned with making sure that people ONLY take the shots and pills that make profits. Alternative solutions like natural remedies, holistic medicine, healthy diet/exercise may soon be marked as "medical misinformation" on YouTube. This matters because YouTube is the 2nd largest search engine next to Google itself. It is going to be harder and harder for all	https://www.europarl.europa.eu/doceo/document/E-9-2020-002335_EN.html

	of us to get opposing views, different perspective, etc. Science REQUIRES the process of debate, proving its validity through arguments, years of testing and refinement.	
Resolution	One, you as the people, can clearly “boycott” by consuming content where they are NOT censoring medical information. Places like Twitter, Rumble, etc. We, ourselves, are planning to start taking those alternative platforms more seriously. We do have an “X” account and a Rumble account. Segment 3: Whistleblower Alleges CIA paid for Wuhan cover-up

Hook	FINALLY the head of the serpent is being revealed in the public eye.... A whistleblower alleges that the Central Intelligence Agency (CIA) bribed analysts who concluded the COVID-19 pandemic originated from a lab leak in Wuhan.They wanted the analyst team to reject lab-leak theory. A majority of U.S. intelligence agencies has so far concluded that the COVID-19 pandemic mostly likely started when SARS-CoV-2 jumped from an infected animal host into people; a wildlife market in Wuhan, China..... BUT But the Department of Energy and FBI so far have favored the lab-leak theory....	‘Biggest Cover Up’: Whistleblower Reveals CIA Involvement In COVID-19 (msn.com) CIA 'looking into' allegations connected to COVID-19 origins (msn.com) CIA Gave Financial Rewards To Six Analysts Who Covered Up Lab Leak Investigation, Whistleblower Alleges The Daily Caller CIA bribed its own COVID-19 origin team to reject lab-leak theory, anonymous whistleblower claims Science AAAS
Setup	Representative Brad Wenstrup (R-OH), who is the head of the House of Representatives’s Select Subcommittee on the Coronavirus Pandemic, says his panel and the House’s Permanent Select Committee on Intelligence have heard testimony from a whistleblower “who presents as a highly credible senior-level CIA officer.” According to the press release, the whistleblower testified that only the most senior analyst of a seven-member CIA team investigating the origin of COVID-19 supported the zoonotic transmission theory.	

	The whistleblower alleged the other six team members supporting the lab origin then received “a significant monetary incentive to change their position,” wrote Wenstrup and Representative Mike Turner (R–OH), who chairs the intelligence panel. Now....between the DOE, FBI, and several other independent research teams.....the Wuhan lab, I can say with certainty that COVID-19 was made in a lab and is a Bioweapon.....but why is the CIA trying so silence their research team? Isn't the CIA meant to serve and protect the American public? (hah jk)	
Climax	Now I think we can all come up with our own conclusion as to why the CIA is trying their best to cover-up the origin of COVID-19.....but here's are guy who knows A LOT about the CIA.....RFK jr. and this was taken from a Russell Brand interview...check this out (Show RFK jr. Interview) So if you catch the rest of that interview, RFK jr talks about some really shocking information about the CIA with operation paperclip along with grabbing the Japanese scientist too who were doing human experiments.....all of these scientist were doing biological weapon experiments at Ft. Detrick in MD, eventually shut down by Nixon but through loop holes, those bioweapon experiments continued....fascinating interview....	
Resolution	ABOLISH THE CIA and the INTELLIGENCE AGENCIES
