| Rationale | Many teachers worry about their students using the Internet because it can be unsafe for young students. This lesson will help them understand how students can stay safe while being online. It will also enable them to teach their students about being safe online. | Many parents worry about their child using the Internet, especially when they are not home, because it can be an unsafe environment. This lesson will help them understand how their child can stay safe while being online. | Students need to understand that just because they are using the Internet at home or school it doesn't mean that they are safe. Students need to be able to distinguish the difference between a safe website and an unsafe website. They need to be able to know when to ask for help from a trusted adult. |
