ABSTRACT

The abstract summarizes the study in one paragraph of not more than 250 words in English and Indonesia (Indonesian abstract is not applied for non-Indonesian authors). The abstract should describe briefly and concisely the problem, the objective, the methods, significant data, principal findings, and conclusions. Only standard terms, scientific nomenclature and accepted abbreviations should be used. Use 11 pt Arial font for body of the text with one spacing between lines, and 6 pt spacing for the next heading.

Keywords: use 11 pt, lower case, italic, Arial, write alphabetically in maximum 5 words in English and bahasa Indonesia.

INTRODUCTION

The subtitle use 12 pt, bold, Times New Roman font type and Uppercase. With before 30 pt and after 18pt spacing. Center position.

Sub Subtitle

The subtitle use 12 pt, bold, Times New Roman font type and capital each word .
With before 30 pt and after 18pt spacing. Center position.

The body text use 12 pt, Times New Roman font type for body of the text with double spacing between lines, 12 pt spacing between paragraph and 18 pt spacing for the next heading.

The introduction should put the work into regional or international perspective, briefly review the literature, and clearly state the objectives and the importance of the research.

MATERIALS AND METHODS

Materials and methods or approach/methodology should provide a brief description for already published methods supporting by references. New methods should be described in detail to allow other workers to repeat or apply the procedures.

RESULTS AND DISCUSSION

Results and discussion could be presented either in one section (preferably) or separated section. Figures and tables should be used in the results section wherever possible. The discussion should explore the significance of the results of the research, but not repeat them. Discussion should be related to the objective, method and main findings.

CONCLUSIONS

Conclusions should be drawn with regard to the title, objectives, discussion of the findings and supported by the data. Suggestion could be given if necessary

ACKNOWLEDGMENTS

It should be provided regarding the financial support, material and instrument accessibility, technical assistance, English corrections, writing assistance, and personal communications.

CONCLUSIONS

Conclusions should be drawn with regard to the title, objectives, discussion of the findings and supported by the data. Suggestion could be given if necessary.

ACKNOWLEDGEMENT

It should be provided regarding the financial support, material and instrument accessibility, technical assistance, English corrections, writing assistance, and personal communications.

REFERENCES

References should be made to previous works in the text with the University Worcester-Harvard Style. Reference should use reference management tool, Mendeley. Citation models are as follow: single reference (Anda 2012), more than one references should be written in the order of date; for example, (Partohardjono and Adiningsih 1991; Widjaja-Adhi 1995; Muljadi 1997). If there are more than two authors then the surname should be followed by et al. Remember that et al. is NEVER used in the list of references, although it is acceptable as a reference in the text. Please provide all authors and all editors for citation in the references section.

Unpublished references should be avoided. References should be listed in the alphabetical order. Each list reference should be cited in the text, and each citation should be listed in the references section. The following are examples of basic references format:

STYLE AND FORMATTING

This template already set the **style and formatting** for the paper, so you can use those styles by typing the style name on the **styles** box as shown in the figure below:

The styles used in this manuscript are:

1. **Title**, for paper's title
2. **Author**, for author's name

3. **Address**, for author's address
4. **Abstract**, for abstract
5. **Sub Title**, for section title
6. **Sub Title 1**, for Sub Section title
7. **Sub Title 2**, for next Sub Section title
8. **Text**, for body text
9. **Equation and Enumeration**
10. **Figure**, for figure caption
11. **Table**, for table caption
12. **Reference**, for references

MATHEMATICAL FORMULATION

Equation should be type with indent 1.27 pt, and numbered consecutively starting with (1) set flush right.

To set the style, type Equation in the style box. But this style only set the tab stop position. To put the equation on the right place just press tab button one time. And to type the equation number, press tab button once again from the right side of the equation.

$$x^2 + y^2 = z^2 \quad (1)$$

SUB TITLE

Just type Sub Title for sub title.

Sub-section Title

Just type Sub Title 1 for section title.

sub-section title

Just type Sub Title 2 for sub-section title.

FIGURES AND TABLES

All figures and tables should be centered and numbered consecutively.

Figure 1 Type Figure in style box. The caption should be typed in lower case. Choose center if the caption fit on one line.

Figure 2

Figure 3

Table 1 **Summary of physical parameters.**

No	Segments	Length (km)	Elevation (meter)
1	A-B	25	30
2	B-C	75.15	10
3	C-D	44.75	50
4	D-E	72.5	10
5	E-F	21.25	10

LENGTH

Maximum length of article is 20 pages including all pictures, tables, nomenclature, references, etc.
