SUMMARY

I am an experienced web and mobile developer with over 3 years of expertise in creating scalable, high-quality solutions. I specialize in **TypeScript**, **JavaScript**, **ReactJS**, **NextJS**, **Astro**, **React Native**, **ExpressJS**, **PHP**, **Laravel**, **and SQL**, delivering custom mobile apps and websites tailored to unique project needs. I focus on crafting responsive, maintainable, impactful user experiences, leveraging front-end agility and back-end efficiency.

EXPERIENCE

Tomps by Telkom Indonesia – Hybrid, Indonesia

React Native Developer (January 2023 – March 2025) *Junior Developer 1-1*

- Built and maintained high-scale Android and iOS applications using React Native,
 TypeScript, Firebase, Redux, and Jest.
- Integrated **Firebase for real-time push notifications**, delivering instant updates and enhancing user engagement with timely alerts.
- Upgraded a legacy React Native project to the latest version, ensuring compatibility with both iOS and Android.
- Developed reusable components to accelerate the development of new projects.
- Implemented encryption and decryption for personal data protection in compliance with Indonesian national law (UU PDP).
- Actively participated in daily standups, project breakdowns, estimations, and retrospectives.
- Developed and maintained **Tomps Building (formerly Hunianaja)**, **Tomps Project General**, and **Tomps Asset General** with the latest tech.

Tribe ENT, Telkom Indonesia – Remote, Indonesia

React Native Developer (February 2022 – December 2023)

Basic Developer 4

- Upgraded a legacy React Native project to the latest version, ensuring compatibility with both iOS and Android.
- Actively participated in daily standups, project breakdowns, timeline estimations, design handovers, and retrospectives.
- Refactored, enhanced, and optimized payment and billing features for improved performance.
- Built and maintained scalable Android and iOS apps using React Native, TypeScript, Jest, Firebase, and Redux.
- Developed and maintained **Tomps Building (formerly Hunianaja)** and **Tomps Project General**.

Tribe ENT, Telkom Indonesia - Remote, Indonesia

React Native Developer (August 2021 – January 2022) *Project-Based*

- Developed the Incidema app for Perhutani and the Hunianaja app with full iOS and Android compatibility.
- Developed new functionality to enhance an existing mobile application.
- Built and maintained highly scalable Android and iOS apps using React Native, JavaScript, Firebase, and Redux.

• Actively participated in daily standups, project breakdowns, timeline estimations, design handovers, and retrospectives.

PT Pan Brothers Tbk - Boyolali, Indonesia

Full-stack Laravel Developer (January 2020 - January 2021)

- Developed a comprehensive **Human Resource Information System (HRIS)** and internal systems, automating HR tasks and improving operational efficiency using **Laravel, jQuery, MySQL, and Bootstrap**
- Increased the performance to calculate working hours from 10-20 minutes to 1-5 minutes
- Created a robust employee attendance and payroll management app to track employee attendance, working hours, and overtime.
- Collaborated on code improvements and implemented new features to support evolving business requirements.

PT Kreasi Kode Indonesia - Yogyakarta, Indonesia

React Native Mobile Developer (2019)

- Developed custom mobile applications with **React Native**, integrating business logic and design specifications from the UI/UX team.
- Successfully delivered the "Master Event" and ticketing app for The ICIFPRH 2019, meeting functional and aesthetic standards and ensuring a high-quality user experience.
