Alumawood Patio Covers Built for Temecula Living

Alumawood patio covers offer the timeless appearance of wood with the advanced durability of aluminum—perfect for Temecula’s warm climate. They Build Aluminum Inc. specializes in designing and installing Alumawood patio covers that add both shade and style to any outdoor space. Whether you’re aiming to create a peaceful backyard retreat or a functional space for entertaining, these covers provide an ideal balance between form and function. With minimal maintenance and resistance to warping, rotting, or fading, Alumawood is a long-term solution for

true indoor/outdoor living.

Why Alumawood is the Smart Choice for Patio Covers

Alumawood is more than just a beautiful material. It's engineered to withstand the elements. Designed with a woodgrain-embossed finish, it mimics real wood down to the detail—without the downsides. This material resists termites, cracking, and peeling. It's low-maintenance and holds up exceptionally well to Temecula's sun and occasional rain. With a baked-on paint finish and available in a wide range of colors and textures, it's the ultimate in performance and aesthetic appeal. Clients looking for long-term solutions with minimal upkeep choose Alumawood again and again.

Custom Patio Cover Designs for Every Style

Temecula homeowners take pride in outdoor living, and They Build Aluminum Inc. brings custom solutions to match every taste. From solid roof covers that offer complete shade to open lattice designs that allow filtered light, each patio cover is crafted to suit the space. Want both? Combination covers offer a mix of sun and shade—perfect for those who enjoy variety throughout the day. Decorative pergolas, integrated lighting, and outdoor curtains can also be incorporated into the design to create a seamless outdoor living experience.

Built for Durability, Designed for Comfort

The combination of high-quality aluminum construction and expert craftsmanship ensures every patio cover installed by They Build Aluminum Inc. offers exceptional strength and comfort. These covers are engineered to meet California building codes and can withstand extreme weather conditions. Rain or shine, your backyard is protected. Whether it's an elite patio installation or a custom-built commercial patio cover, durability remains at the heart of every project.

Pro Installation That Delivers Long-Term Value

Experience matters. With over 25 years of expertise in aluminum construction, They Build Aluminum Inc. ensures every job is done right the first time. Their team handles everything—from consultation and design to permit assistance and installation. Permit prices vary by region, but They Build Aluminum Inc. ensures Temecula homeowners stay informed and

compliant. Their goal? Provide a seamless, worry-free construction experience that enhances both property value and outdoor enjoyment.

Variety of Styles and Finishes

Choose from a wide range of Alumawood styles and finishes. Solid covers block out the sun completely, providing full shade and rain protection. Lattice covers, on the other hand, create beautiful patterns of light and shadow—ideal for plant-lovers or sun-soakers. Combo styles are increasingly popular in modern patio construction. Colors range from white and sandstone to deeper tones like mocha and Spanish brown, allowing every patio to blend with the existing home aesthetic. Whether you're building a backyard retreat or a commercial shade solution, customization is key.

The Perfect Fit for Every Outdoor Space

No two patios are the same—and that's why every design from They Build Aluminum Inc. is custom-built. From compact side yards to sprawling outdoor living spaces, the team tailors every structure to the environment. Sloped yards, uneven terrain, or unique architectural designs? No problem. Their team is experienced in overcoming space challenges to deliver a beautiful and functional result.

Options Beyond Covers – Outdoor Living Elements

Take your backyard to the next level. Beyond shade structures, They Build Aluminum Inc. can integrate outdoor living elements like big screen mounts, retractable awnings, ceiling fans, and lighting systems. These additions transform your outdoor space into a true living room under the sun. Planning for seasonal use? Add outdoor curtains or louvered roofs for adjustable coverage. Whether you're relaxing, working, or entertaining, the space becomes a natural extension of your Temecula home.

Ideal for Residential and Commercial Clients

From private residences to restaurants and office courtyards, They Build Aluminum Inc. serves both residential and commercial clients. Their commercial patio cover solutions are ideal for creating shaded gathering areas, waiting zones, or employee lounges. High-quality aluminum patio construction ensures the space remains durable and attractive for years to come, even

with heavy use.

Easy Maintenance and Long-Term Satisfaction

One of Alumawood's biggest advantages? Minimal maintenance. Unlike wood, there's no sanding, painting, or staining required. Simply wash it down occasionally with water to maintain its look. The finish resists chalking and fading even after years of exposure to the sun. Customers in Temecula appreciate the low-maintenance nature and the peace of mind that comes with a long-lasting investment.

Get a Free Estimate Today

Interested in a new aluminum patio cover? They Build Aluminum Inc. offers free estimates and onsite consultations in Temecula and the surrounding Southern California areas. Their team helps homeowners understand material options, color choices, styles, and budget considerations. Whether you're starting from scratch or replacing an old wood cover, the team will work with you to design a patio cover that adds value and beauty to your outdoor space.

Permit Guidance for Temecula Patio Covers

Before starting construction, proper permitting is crucial. Permit prices in Temecula vary depending on the size and complexity of the project. They Build Aluminum Inc. is well-versed in local codes and can assist with permit applications, documentation, and city approvals. This proactive approach ensures your installation goes smoothly and complies with all municipal requirements.

The Duralum Advantage

They Build Aluminum Inc. uses trusted materials from leading manufacturers like Duralum. These products are known for their strength, color retention, and lifetime value. With options in embossed wood textures and baked enamel coatings, Duralum products add a premium feel to every patio cover. Clients seeking a dependable, long-term solution often request Duralum by name.

Built with Precision, Backed by Experience

Every patio cover project is backed by decades of construction knowledge. From the engineering specs to the finishing touches, They Build Aluminum Inc. delivers precision craftsmanship with every build. Homeowners trust their team to not only improve their outdoor space but to do it with care, integrity, and respect for timelines and budgets.

Transform Your Outdoor Living Today

A custom Alumawood patio cover from They Build Aluminum Inc. is more than a shade solution—it's a lifestyle upgrade. With hundreds of successful installations in Temecula and across Southern California, the company continues to raise the standard for outdoor living construction. Whether you're seeking more shade, more style, or a complete backyard transformation, this is your next-level patio solution.
