Background

Childhood

Jack Oliver Xander lived a relatively normal childhood in the town of [REDACTED], United States. He was interested in the military and its history¹. Once he turned fourteen his interest

was increased and he wanted to join the military once he became eighteen. He was also interested in dinosaurs but as he became older he started to become less and less interested.

Time In The Military

Jack Xander joined the US military, specifically the army, in 2015. On a routine patrol through southern Greece he, and his patrol, came into contact with multiple “heretics” of the ██████████. After this encounter he was the only one left alive and was later found by the Foundation.

Relevant Foundation Information

GENSEC

Cadet

Jack Xander was first hired as a General Security Cadet. He quickly became used to the environment. He learned all of the codes and rules of the facility. This time wasn't very eventful and Code 5's and Code 2's rarely happen.

Guard

Jack ‘Cool’ Xander had been promoted to the position of guard on XX/XX/20XX. His job got all but easier. He had to escort more tests and deal with more problems. During his first week as a guard he had to deal with a Code 2. This was his third Code 2 in his time in GENSEC. The Code 2 was all but fine and he ended up killing four D-Class personnel.

Officer

After six years of time as a Guard he was promoted to Officer. He did very well as an Officer even containing two SCP's. Those SCP's were SCP-035 and SCP-076. Due to containing multiple SCP's and was scouted out for the Epsilon-11 Site-65 Regiment.

MTF E-11 “Nine-Tailed Fox”

The Breach

Jack ‘Cool’ was recruited into Mobile Task Force Epsilon-11 “Nine-Tailed Fox” on XX/XX/20XX. His job and mission had changed dramatically. He was now the first responder to breaches and had now been introduced to new SCP objects he has never seen before. The most notable one being SCP-008. On XX/XX/20XX a catastrophic breach occurred and multiple SCP objects including SCP-008 breached containment. The breach was luckily contained by Mobile Task

Force Epsilon-11 but he had never in his life experienced such a loss of life. He was forced on psychological leave for a month.

Capture

After his psychological leave he continued his normal duties until XX/XX/XXXX when [REDACTED] [REDACTED] was deployed to Site-65. The mission was to raid the United Nations Global Occult Coalition Pinewood Forward Operating Base. During the raid he was captured. He refused to tell the GOC anything about his mission and went through brutal torture. He barely survived and was sent back to Site-65. He was missing his hands and had severe organ damage. He was rushed to the medical bay and was saved but not without serious change. He had SCP-2295 replace his organs and had artificial hands. He learned to live with it but he didn't forget.
