

Faculty Activity Reporting (FAR) Guide

PROFESSIONAL DEVELOPMENT

The **Professional Development** section is a record of additional training or continuing education undertaken by a faculty member, including workshops and conferences attended.

Continuing education provided by a faculty member should be entered in the **Non-Credit Teaching** or **Presentations** sections, as appropriate.

Professional development activities are not required for all schools' annual reviews, so this section may be optional for some schools. Please check your school's annual review guidelines for requirements.

Start Date is a required field because only professional development activities that fall within the reporting period will appear in the Annual Review.
