Rolling Slots Casino Review

This Canadian online casino's title is unmistakably reminiscent of the Rolling Stones, a well-known rock band. That's because the Rolling Slots Casino founders were influenced by rock music. As a result, you'll notice a lot of rock'n'roll references when enjoying casino games on the website. In 2021, Rolling Slots launched a new casino platform.

Ramtinar Techconsult Limited owns the Rolling Slots online casino. The company is based in Cyprus and holds a Curacao gambling license. Also, GBL Solutions N.V., the company's parent, provides all gambling services.

The webpage will awaken your inner rock star and prepare you for an action-packed gaming adventure. Despite being a newcomer to the gambling world, Rolling Slots has invested in a large casino lobby to keep its customers occupied.

The welcome bonus is shared across the first three deposits a customer makes. Once those are exhausted, there are regular promotional deals for returning players. Get set to claim cashback and weekly bonuses to play slots and other games.

Other benefits available at Rolling Slots Casino include weekly reload bonuses and cashback for existing players. The loyalty club and its benefits, on the other hand, will make your experience even more enjoyable.

The casino has a 5-tiered loyalty program. Players begin on a black vinyl record level and work their way up to platinum. Each new level brings with it new challenges and rewards.

As you move through the stages, you'll be rewarded with exclusive promos, free spins, and a birthday present. You can be accepted to unique tournaments and even the VIP club, which includes exclusive incentives and a VIP manager.

You must gather loyalty points in order to progress through the loyalty levels. You will earn loyalty points every time you play for real money on the slots. For every CA\$1,500 in wagers, 1 point is awarded. The conversion rate decreases as the level rises.

User Testimonial

"Rolling Slot is a fresh online casino that was recently added to Askgamblers, and I noticed them when I was looking through the Askgamblers New casinos list. Their name seemed quite fun; also, I noticed that they have Netent, Microgaming, Play'n Go, and other popular game providers, so I was interested in checking them out.

The first impression I had of their casino lobby was quite positive- the design looked fresh, and the colors were vibrant, so I decided to sign up. The registration was quick and effortless, and I was ready to go. Then I went to their promotion page and noticed that they have a 200% welcome bonus, and I was impressed."
