Literacy - the Original Code: Cracking The K-8 Curriculum:

What if the secret to mastering Computer Science (CS) wasn't hidden in a screen or behind fancy terminology—but was already living inside your favorite classroom read-aloud?

Join us for this hands-on, interactive session where we bridge the gap between K-8 and Computer Science. This isn't "one more thing" on your plate, instead, it's a key to increasing student engagement, sharpening computational thinking, and helping students connect classroom reading through a literacy lens. We'll share some ready-to-use activities for your K-8 classroom, a lesson to your next CS conference, and the tools to easily weave these two worlds together.

Registration: \$25.

Participants will receive a tech gift basket worth over \$100 for their classroom.

Additionally, a \$100 travel reimbursement will be provided for the first 50 registrants.

8:30 a.m. - 2:30 p.m.
Wednesday, June 10, 2026

Room #1
 2214 East 4th Street, Suite B

2026 Illinois Science Summit:
 Exploring the Science of Life, Innovation & the Universe

Day Two: OSF Jump Simulation

Day 2 of the Illinois Science Summit immerses educators in hands-on STEM and STEAM learning experiences designed to translate directly into classroom practice. Participants will rotate through interactive sessions including a Microscope Makers Spa, a microscope makers spa, and a 3D printer. The day concludes with a hands-on STEAM activity and a classroom simulation. Followed by a facilitated Q&A and a collaborative discussion focused on implementing innovative science learning strategies in schools across Illinois.

Wednesday, June 10, 2026
OSF Jump Simulation
 Peoria Riverfront Museum
 9:30 a.m. - 4:00 p.m.

Available suggestions provided starting at 9 a.m. 7:00 a.m. Lunch, subject to availability. Learning materials provided. FREE for Illinois teachers or government educators. Registration includes a Q&A opportunity.

2026 ILLINOIS SCIENCE SUMMIT:
 EXPLORING THE SCIENCE OF LIFE, INNOVATION & THE UNIVERSE

Day 3: Peoria Planetarium & Caterpillar Visitors Center Experience

Join us for an interactive day exploring science and engineering in hands-on learning experiences at the Peoria Riverfront Museum Planetarium and the Caterpillar Visitors Center.

- Morning at the planetarium: Focus on NOAA Earth and Space Science, integrating innovative astronomy for inquiry-based learning and scientific modeling.
- Afternoon at Caterpillar: Explore NSG's Engineering Design through hands-on learning engineering challenges, innovation, and real-world applications.

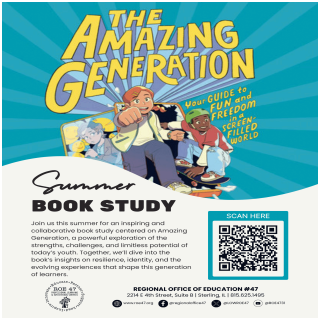

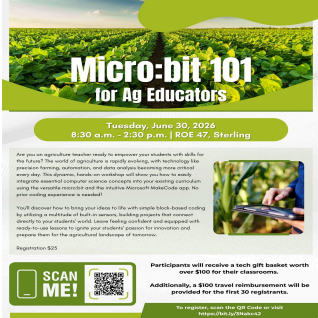

Participants receive lunch, professional development hours, and a classroom ready materials. Register for this session to attend the full three-day Illinois Science Summit June 9-11 for more STEM learning opportunities.
