Under construction ...

Prerequisites

- You'll need an [Airtable\[extern\]](#) in order to use this building block
- Creating a new Airtable account is very easy and you can sign up for free

Use cases

- Send out newsletters or documents for each record in your Airtable
- Print business cards or address labels

Authorization

When using Airtable building blocks for the first time you will have to connect Ultradox to your Airtable account.

Check out the [Overview](#) to get detailed instructions how to connect.

Configuration

Click on the **bold** text in the title of the building block to open the configuration dialog.
