

# **Strategic Management for International Development Cooperation**

## **Course Overview**

The primary goal of this course is to provide students with a comprehensive understanding of strategic planning and management for the field of international development cooperation. To this end, the course covers core elements of strategic management such as strategic thinking and planning, a gap analysis, effective action plans, decision making process, and leadership. The course begins by examining current issues of international development, e.g. SDGs, ESG, and Digital Governance with real case studies, which helps the students equip with both theoretic and practical managerial capabilities.
