

So you would like to join us on the IRC channel? Sure you do! Here's how you can connect if you've never used an IRC client before:

1. Go here: <http://cbe001.chat.mibbit.com/>
2. Scroll down the menu next to 'Connect:' and select Geekshed [webirc]
3. Type your name/online handle/what you'd like to be seen as in the box titled 'Nick'
4. Type '#TCB' in the channel box to select our chatroom
5. Click connect!

For those of you who would like to use a client for this, go here and download a free version of HexChat: <http://hexchat.github.io/>. It's a little trickier to set up, but it will open in its own program window, not a web browser. It is a far more stable interface than Mibbit, and allows more options.
