

Howdy!

Thank you for expressing interest in my small business! I greatly appreciate your support. Make sure to follow all my socials for updates and discounts.

Below is ALL the information for you to build your own custom!

Things to note (please READ):

- **I do NOT provide the “staple piece” (main graphic for custom). You have to mail it to me OR send me a link to buy it – you will have to pay for the staple piece in its entirety along with the rest of my rates if I buy it. I recommend looking on *ebay* for cheaper prices.**
 - If you have me order a staple piece you will have to pay for it immediately. You will pay for the entire custom once I finish it and get your final approval.
- I charge \$8 per item for shipping. 1 Custom = \$8 shipping.
- I will have your custom done within 2-8 weeks of receiving the material (I usually get it done within a few days, but I am a full time college student with other jobs and I am very busy).

If you have any questions or are ready to place your order then DM me on any social media or email me at katelynd.hc2024@gmail.com.

*** Patchworks: choose at least 3-5 different fabrics whether that be 3 plain colors, 1 flannel and 4 plain colors, or 2 Coogi and 2 plain colors. (You can always choose more if you'd like but no less than 3).

*** Coogi: Coogi and Coogi-like material is VERY expensive to source. One sweater costs much more than the \$50 I charge to incorporate it. If you purchase Coogi for a custom you can expect to have 2 large pieces and 1-2 small pieces incorporated into your custom. If you would like more you will have to pay extra.

*** I do NOT provide the main tapestry for this upcycle. Additional components (ex: hood/pocket) will be the same price as the patchwork upcycle.	

*** If you have a vision for an upcycle I can make a VERY rough sketch on a digital design app. However, I am not great with this app and it takes time. I am happy to make multiple mockups for you. Please have an idea or vision before I start designing.

Payment Policy: I accept Venmo and Cashapp.

If you don't like your upcycle – which should not be a problem :) – you do not have to pay. However, I will keep whatever you sent me and sell it on my website. I will have you approve my final finished custom, pay, then I will ship it back to you.

Refund Policy: My small business does NOT offer refunds. I always ensure my products are of the utmost quality and work very hard to make something you will enjoy. However, if you ever tear or damage your custom I DO offer free repairs! You only have to pay for the shipping.
