

Getting a GM Badge and Creating Your Events

1. Create account on Pitboss

<https://pitboss.app/signin?mode=signup>

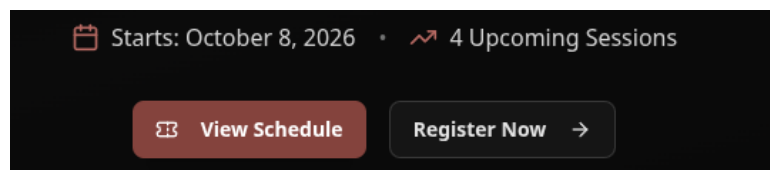

Use a google account. Peginc.com account works as it uses google auth.

(For the security minded this only gives a site access to your name, email, avatar nothing else in your account beyond that, Google confirms you are you on their own server then says yay or nay to the site)

2. Go to the Event page for Deadlands 30th.
