MAC 240 Enrollment - Instructor Permission

Hi! Thanks for your interest in MAC 240!

MAC 240: Intro to Media Practices has a MAC gateway prerequisite (MAC 143, 145, 146 completed or currently in process).

MAC majors with a Media Production Focus must complete the course before SP JR year.

You MUST fill out the form below **before the end of advising week (by 5 PM on the last day of Advising Week)** and you should do it for each semester you are trying to enroll in the class (in other words, the list is cleared each semester).

The instructor will then send out an email indicating whether or not you have secured a seat.

If you have secured a seat, you do not need to register during your first registration window - your seat is guaranteed and you can use your first window to register for other classes and then register for 240 in your second window. You must register by 5 PM on the last day of registration week, however, or your instructor permission will expire and the instructor will work down any waitlist.

Add your name to the consideration list here
by 5pm on the last day of advising week:
