

Crazy56U: *Why is the title speaking in tongues*

SC276: The good thing about the new schedule: we now have a release on MAR10! It's Not-National Mario Day today (on top of other things we don't have to worry about), so it's natural for at least the first of these we do something about it.

However, it's not the "anything goes" slot quite yet, so Ring managed to find some pony crossovers. As you can tell by one of the names being an *acronym*, we got us some fucking doozies.

CaptainPipsqueak: Is *that* what that letter salad is supposed to be?

Ringmaster: Yep, and this isn't even the author's longest title. From the author of, and I'm not even kidding here this is actually a real fic, "Me, my five school friends, my three friends from my neighborhood, my friend from my grandma's neighborhood, The Pony Mane 6, The Cutie Mark Crusaders, Diamond Tiara, and Silver Spoon stuck in 'Mario Kart 8' 1", without further ado, it's "My Little Ponies and Me Season 1 Book 1: Mario Kart Wii is Magic Part 1" by Mina the Echidna.

Crazy56U: *I think I felt my soul die.*

CaptainPipsqueak: Liar. We all know you don't have one; that was probably heartburn.

Mono: Five bucks saying it'll only get good by season 5.

CaptainPipsqueak: Crazy might be dead by then.

Crazy56U: Sucker's bet.

SC276: Put on your sentient hats and dive-jump in, folks. Just remember, *Mario Party 8* did it first.

BittplexMutt: Letsa go!

Chapter 1: Going to CHS and a Video Game Place

Crazy56U: Specifically, GameStop. You thought *Reggie* was going to save it? *Think again.*

Mono: This is already shaping up to be something riveting, I can tell.

BittplexMutt: I've never heard of Video Game Place; are the prices good?

CaptainPipsqueak: Prices are fair at Video Game Place.

My POV

CaptainPipsqueak: Oh good. One of *those*.

SC276: Prisoner of War. Like a POW, except vampire.

BittplexMutt: Person of Vengeance, got it.

I was taking a stroll around Ponyville while the others are just whispering to each other.

Crazy56U: Mainly to the effect of "When are we going to kill the new girl" and "Be honest, you more or less blew off last week, didn't you".

BittplexMutt: "Whisper, whisper..."

They knew I was none other than the new member of the Mane 7, Mina Reddel.

Crazy56U: Idina Menzel, got it.

CaptainPipsqueak: 'Minor Redneck'. Understood.

SC276: I'mma go with "Reddy Player One" because fuck this already.

I became part of it as well as Starlight Glimmer. Then, we became the Mane 9

Crazy56U: Since, as we all know, Spike isn't part of the group.

SC276: we're just going in raw, aren't we

Crazy56U: *You were the one to help set the document up, stop being surprised.*

CaptainPipsqueak: Raw nothing. Sandpaper.

BittplexMutt: And then it became the Mane 10.

and started going on adventures more often.

Crazy56U: Like that magical trip to rehab, in order to pick up Rainbow Dash following "the ecstasy incident".

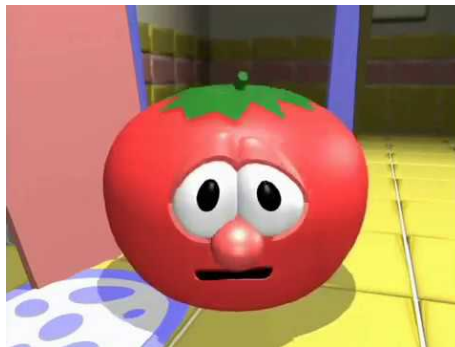

CaptainPipsqueak: So *that's* why her hair is rainbow shaded. I always thought it was just a style thing.

Mono: "Usually I just stayed at home and smoked pot."

BittplexMutt: "Like doing chores for Twilight."

I was a red unicorn mare, orange mane and tail, and sky blue eyes along with a sky blue aura.

Crazy56U: ...so, you look like this?

Mono: So the other one is played by Larry?

SC276: Dude, Bob's aura is *clearly* chartreuse.

BittplexMutt: Apparently she has auras.

I also had a cutie mark. It was a microphone to describe my special talent: singing.

Crazy56U: She got it following that one night of karaoke, when she drunkenly screeched the lyrics to "Freebird".

SC276: [Reddy Player One] "*~IT'S FUN TO STAY AT THE F-U-C-K~*"

Crazy56U: And then a Ninja Turtle randomly appeared.

CaptainPipsqueak: It could be that your special talent is audio mixing. Did you ever consider that?

BittplexMutt: Or autotune? Autotune's still a thing, right?

CaptainPipsqueak: Autotune is a tool used by people who can't sing and want to make this obvious without hurting anyone.

I was about to head back to my house when my cutie mark started glowing.

Crazy56U: (quick WebMD search)whelp, it's time to start shopping for caskets, hon.

CaptainPipsqueak: "My ass then burst into flames..."

"Oh my goodness. My cutie mark is glowing for the first time. Then,

Crazy56U: "-I forgot to close the quotation.

SC276: Oh great, now she's *never* going to stop talking.

BittplexMutt: "-I got teleported to Mars."

a small version of my cutie mark came out of my real cutie mark

Crazy56U: This fuck up of a sentence implies you have two different cutie marks, and I swear to God, if this story turns out to be *Three of Me: Mario Edition...*

Mono: It's-a us, Mario's!

Crazy56U: *Mono, this isn't helping.*

CaptainPipsqueak: *Don't kid yourself. Nothing will help.*

and it was heading towards Twilight's castle, also known as the Friendship Rainbow Kingdom.

Crazy56U: ...so, like, I take it in this timeline, Twilight became a dictator and enslaved all of Ponyville? Because why would a *castle* be a *kingdom*?

Mono: No no no, her *castle* is her own kingdom. She freaked the fuck out one day and declared it to be autonomous.

SC276: [Twilight Sparkle] "The currency is friendship dollars!"

CaptainPipsqueak: I prefer 'The Crystal Middle Finger'. That required some explaining, since none of the characters *have* fingers. You'd think they could use Spike as an example, but he spends so much time dead nobody could find him.

Crazy56U: That's nice, it has been and always will be "Crystal Death Place", so you are wrong.

CaptainPipsqueak: Oh come on, man. Look, you even have the thumb and the curled up fingers:

No one's POV

Crazy56U: We interrupt *Frozen as Portrayed by VeggieTales* to bring you *Tree of Harmony 2: Ragnarok*.

CaptainPipsqueak: No one's watching; it's time to make a run for it!

BittplexMutt: The audience has disappeared.

While Mina was running towards the Friendship Rainbow Kingdom,

Crazy56U: Author, stop pretending "Crystal Death Place" is named anything *other* than "Crystal Death Place".

SC276: Friendship Rainbow Kingdom Friendship Rainbow Kingdom, Friendship Rainbow Kingdom. Friendship Rainbow Kingdom? Friendship Rainbow Kingdom!

CaptainPipsqueak: *CRYSTAL. MIDDLE. FINGER.*

Crazy56U: (pushes Pip to the floor) *Welcome to the real world, Old Man.*

CaptainPipsqueak: *Dude. LOOK AT IT.*

Crazy56U: EXACTLY! A PLACE OF DEATH, MADE OF CRYSTAL! *IT'S A CRYSTAL DEATH PLACE!*

CaptainPipsqueak: Deadly Middle Finger?

BittplexMutt: "-she traveled back in time."

she didn't notice Starlight Glimmer running to the kingdom as well.

BittplexMutt: Even though anyone could see her from a mile away.

Before Starlight and Mina was able to go up the stairs,

Crazy56U: They were stopped by a frog halfway down.

SC276: They tripped over the tense change.

we ran right into each other.

Crazy56U: Three deaths total, and we barely started the fic. Good hustle.

Mono: Soooo... no one is a character now?

Crazy56U: *Mono, choose words better.*

Crazy56U: *How fucking ass-backwards do you have to be at writing to make the act of closing a door feel like theoretical science?*

SC276: I've been working the numbers, and I think you'll be pleasantly surprised.
(holds up a piece of paper with the word "FUCK" written all over it in tiny letters)

CaptainPipsqueak: Hmm... Did you remember to carry the 9? *holds up a piece of paper with the word "SHIT" written all over it in tiny letters*

they heard a familiar voice from behind us saying, "Took you long enough."
They turned around and saw

Crazy56U: "-Death himself."

BittplexMutt: "-a ghost."

Twilight Sparkle with a bored face.

SC276: [Twilight Sparkle] "Alright, Mary Sue #5672, your turn for my attention."

Crazy56U: [Twilight Sparkle] "*If I have to be in this shitheap, so do you two, I would appreciate it if you showed up on time.*"

BittplexMutt: Already Twilight looks so done with this.

"What took you so long? I was getting worried!

Crazy56U: Twilight says, discreetly kicking an empty jar off to the side.

CaptainPipsqueak: 'Worried'. 'Sober'. Really it's all the same.

BittplexMutt: We just started getting worried anyway.

And to the looks of it,

BittplexMutt: "I'm already dreading it."

we are going to the school that I went to as a human known as Canterlot High School so we can get to the actual place with their Cutie Map," she explained.

Mono: "Already getting blue in the face from that run-on sentence.

Crazy56U: *Since when the fuck does Canterlot High have a Map?*

CaptainPipsqueak: Don't you remember that big poster in the Principal's office?

BittplexMutt: Because maps I guess.

"Sorry about that, Twilight. We ran right into each other before going up the stairs of your kingdom and then we started talking about both of us being summoned and where we might be going, but mainly wondering if we were going to another dimension," Mina explained.

Crazy56U: *FOR FUCK'S SAKE, BREATHE*

BittplexMutt: [Twilight] "I had no idea what you just said."

"It's okay. And don't worry if you think that you are going to get lost.

Crazy56U: [Twilight Sparkle] "That just means it's God's way of telling you to never come back."

CaptainPipsqueak: That or you really *are* a born explorer.

BittplexMutt: "Just remember to look for moss."

CaptainPipsqueak: And watch out for snakes!

I am being called there too.

SC276: [Twilight Sparkle] "So I'm going to be lost with you."

BittplexMutt: "Leave this to the professional."

And I got a message in my book that I write to Sunset Shimmer

Crazy56U: You know, in case you never saw anything Equestria Girls-related ever, hence why you are reading this fan fic.

BittplexMutt: Implying anyone would willingly read it.

with and she said that she is being summoned there, but not her friends.

Mono: "-for some reason."

Crazy56U: Because.

CaptainPipsqueak: Actually, she doesn't have any friends. She just hangs around them so it looks like she belongs.

BittplexMutt: Ah yes, the friends that have no names.

CaptainPipsqueak: Well, a short time ago they were *horses* with no names, so...

So it is me, you, Starlight Glimmer, and Sunset Shimmer,

SC276: So, basically, a human and three variations of the same character.

Crazy56U: *Fuckin' Echo Fighters...*

BittplexMutt: Plus a dog named Boo.

well, Spike is coming with us too

Crazy56U: Because it was either being in the fanfic, or being locked in the basement.

SC276: And Twilight recently imported a Chain Chomp, so the basement was out.

BittplexMutt: Because we need to have some sidekick comedy.

CaptainPipsqueak: "...because we need something to keep the monster occupied with killing, should we come across one."

so he won't be alone. And the three of us will turn human while Spike turns into a dog," Twilight explained to her.

SC276: [Twilight Sparkle] "Yes, this is just to squash the hopes the mirror turns the Sue into an amoeba."

Crazy56U: [Twilight Sparkle] "(wraps arm around Idina Menzel) I kid you not, What's Your Face, he turned into a dog. He's called Spike the Puppy. Funniest shit I've ever seen."

CaptainPipsqueak: On the bright side, he can hump peoples' legs without getting in trouble.

BittplexMutt: You know, like in the show.

CaptainPipsqueak: Yeah, but *without* getting into trouble.

Starlight Glimmer's POV

Crazy56U: [Starlight Glimmer] "(thinking) Wait, he turns into a *what*"

"Well, what are we waiting for? Let's go get our stuff ready and go to Canterlot High already!" Mina said excitedly.

Crazy56U: [Twilight Sparkle] "*I don't have to listen to you.*"

"I already got our stuff ready for the trip.

Crazy56U: And then Starlight proceeded to shove a toothbrush down Idina's throat.

And according to my book that Twilight gave me, Sunset wrote about needing human driving suits.

Mono: Ah, yes, because people usually wear a suit while driving.

Crazy56U: Well, Mono, how *else* do you expect people to drive? *Naked*?

SC276: Technology to improve streaking had to be accomplished eventually...

CaptainPipsqueak: At least they don't burst into flames any more. That was just *embarrassing*.

So, Rarity made us driving suits.

BittplexMutt: It's not like she had a choice anyway.

I got a light purple driving suit with a sea green streak and on my left side,

Mono: *Oh God, no one told me that there would be Home Depot in this...*

Crazy56U: *What about two-colored tight-fitting pants, you bitch?*

Twilight got a orchid purple suit with an indigo streak, a royal purple streak, and a magenta pink streak on her left side,

Crazy56U: *I came here for Mario, not a Macy's catalogue, you fucker.*

CaptainPipsqueak: It's Macyrio, the clothing designer. The brothers never really talk about him.

Spike got a green driving suit with a lavender purple streak,

BittplexMutt: He ended up looking like the Cyclops from Spongebob.

and Mina got a red driving suit with an orange streak, an emerald green streak, and a sky blue streak

SC276: *Call them lines, you fucking nudist.*

Crazy56U: Lines are a myth. Confirmed.

CaptainPipsqueak: The only lines around here are snorted up with a straw.

on her driving suit," I said.

Then, when we got our bags and put them on our backs

Crazy56U: *As opposed to what, on your head?*

with our horns, Spike came with his backpack on his back.

Crazy56U: *AS OPPOSED TO WHERE, AUTHOR? WHERE ELSE DOES A BACKPACK GO THAN ON YOUR BACK?*

CaptainPipsqueak: You're not the boss of backpacks.

BittplexMutt: Backpack, backpack, yeah.

"I'm ready to go!" Spike said energetically.

SC276: [Spike] "With any luck, this bomb will kill us all midway through!"

Crazy56U: Spike stuck his finger into an electrical socket, he's amped up for whatever bullshit happens today.

BittplexMutt: He's being bribed with gems.

CaptainPipsqueak: He awaits his death with joy in his heart.

Then, the four of us went through the portal to CHS.

Crazy56U: And because you don't specify it's the *mirror* portal, I choose to believe Twilight ripped open a hole in reality by accident again.

CaptainPipsqueak: Oh sure. 'By accident.'

BittplexMutt: At point, it's a given.

Canterlot High; My POV

SC276: This is the story of the Narrator Core.

BittplexMutt: "I realized I'm too old for school."

First thing, I go into the portal,

Crazy56U: *We know.*

SC276: *I WAS JOKING!*

BittplexMutt: "Only to arrive in a futuristic place."

I started screaming because I was going through so many colors super quickly.

SC276: [Reddy Player One] "*OH GOD I'M HAVING A SEIZURE*"

CaptainPipsqueak: "And then I changed into a giant space-baby. Dunno *what* that was about."

BittplexMutt: Attack of the Killer Colors.

Then, I saw the exit of the portal. Then, I blacked out because of the bright light at the end.

Crazy56U: And the OC died and went to Heaven. THE END

BittplexMutt: Oh please, we all know that's the bad ending.

"Uh...What happened?" I asked myself.

But when I used my hooves to rub my eyes for a clearer vision, I realized that I didn't have hooves.

When I got a clearer vision, I noticed that I had hands. HANDS!!

Crazy56U: (holds up hands) Yeah, so? (wiggles fingers) Not that interesting.

Mono: Just wait until she realizes she can do *this!* *flips the story off*

SC276: Wait, she wasn't human already? I've lost track.

CaptainPipsqueak: Uhh... *flips through notes, stops when he sees that every page is a string of "FUCK YOU"s. ... Maybe?

BittplexMutt: "Holy crap, I have tiny hands!"

"AAAAHHHH!!!" I screamed noticing that I have turned into a human.

Mono: Because... you didn't know you were becoming human before even though you did know?

Crazy56U: (in a conga beat) *Let's redo Equestria Girls! Let's redo Equestria Girls! This doesn't really scan well! I don't really ca-re!*

BittplexMutt: She's screaming because she turned into a ugly human.

Then, I noticed a mirror and looked at my reflection.

SC276: Someone just left a wall mirror standing out in the front yard.

Crazy56U: Like ya do.

CaptainPipsqueak: The mirror wanted a change of scenery.

BittplexMutt: "When will my reflection show who I am inside?"

I was a red human with a golden short sleeve shirt, orange basketball shorts, my sky blues eyes remained the same, my orange hair was in a braid, and I had emerald green tennis shoes with sky blue shoelaces.

Mono: *WE DON'T CARE*

SC276: But do you have two-colored tight-fitting pants?

BittplexMutt: She looked like a rainbow vomited on her.

Then, Twilight, Starlight Glimmer, and Spike came flying out of the portal. Twilight had a light blue shirt with a small magenta pink bow, a purple skirt with her cutie mark on it, and she wore light purple boots.

**SC276: *why does this somehow feel worse than the Sonic one
am i just getting old or something***

Crazy56U: Yes.

BittplexMutt: No, it doesn't feel Home Depot-y yet.

Starlight Glimmer wore a light purple shirt with her cutie mark in the middle, a light purple skirt with a sea green streak on it, and sea green tennis shoes with aqua green shoelaces. But what shocked me the most was Spike.

Mono: "His corpse was apparently burning."

Crazy56U: Spike had turned into a pile of bones!

He wasn't a dog, he was a human.

Mono: Because... reasons, apparently!

Crazy56U: Translation: Spike was his regular self, but he now wore a wig.

CaptainPipsqueak: Ain't *nobody* gonna tell Spike what he's supposed to be.

A HUMAN!!

BittplexMutt: WE KNOW!

Crazy56U: Not in my narrative.

He had a light green polo,

BittplexMutt: Marco.

Crazy56U: Polo.

CaptainPipsqueak: Don't make me hit you with a mallet.

light green hair, light green jeans, and light green tennis shoes with light green shoelaces.

SC276: Because *clearly* the Mario world is one where dogs can't drive!

Crazy56U: Spike is Luigi. Confirmed.

CaptainPipsqueak: I hope they made lotsa spaghetti.

When the three friends woke up,

BittplexMutt: They realized they were still trapped in this nightmare.

I noticed their eyes being the same color as they were ponies/dragon.

SC276: Why the fuck were you staring them in the eyes? I'm not sure lesbians can save this.

Crazy56U: It's polite to make eye contact, you ass.

"What happened?" Starlight Glimmer asked.

BittplexMutt: A lot of stupid shit happened.

Then, she noticed her hands, but stayed calm because of what Twilight told her.

SC276: Because she has actual self-control.

Crazy56U: [Twilight Sparkle] "If you freak out, I will kill you."

"Yeah, what did happen?" Spike asked.

Mono: How do you not know you're not a dog?!

Crazy56U: The brain worms got to Spike, oh dear Lord.

When Twilight and Starlight finally noticed Spike, they had shocked expressions.

Crazy56U: [Twilight Sparkle] "Who the fuck said you could come with us?!"
[Starlight Glimmer] "Go away!"

"What?" he asked.

Then, Spike noticed that he had clothes, human ears, human hair, and HANDS!!

Crazy56U: The clothes thing, I will accept, but you cannot change my mind on Spike still being a baby dragon, except he also wears a wig, Author. Go the fuck to Hell.

BittplexMutt: [Spike] "Meh, not the worst thing that has happened to me."

When I saw his shocked expression, I started bursting into laughter.

Crazy56U:

BittplexMutt: "Your misery amuses me!"

"What?" he asked, confused.

"Your shocked expression looked just PRICELESS!!" I said laughing even harder.

SC276: The part of Reddy Player One will be played by Discord.
BittplexMutt: Plot twist: Discord created this story.

Then, Spike had this expression. "-_-"

Mono: >:-(
Crazy56U: ._.<^>
CaptainPipsqueak: [Spike] "Laugh all you want, but I'm going to go find Rarity and plow her like a field."

Then, something magically came on my tennis shoes,

Ringmaster: Ew, ectoplasm.
Crazy56U: (mad) Great, fucking great, now this fanfic is haunted. *And March isn't even over yet.*
BittplexMutt: A bird just pooped on her shoe.

one on the right tennis shoe on the right side and the other on the left tennis shoe on the left side.

Mono: You might ask why it isn't on her shirt like other humans. Well, the answer to that is screw you.
BittplexMutt: Because she's special, that's why.
CaptainPipsqueak: And *also* screw you.

My cutie mark is on my shoes.

SC276: Because the entire concept not by her exists to be tread upon.
BittplexMutt: We should tread lightly then.

"Excuse me? Are you Starlight Glimmer and Mina?" a voice asked.
No one's POV

SC276: *why are you even bothering*
CaptainPipsqueak: This is why we're here.

They all turned around and saw a sunset orange girl with red and yellow hair, she had a black jacket with a blue dress under the jacket and black boots.

Crazy56U: "She also looked dead inside."

"Are you Sunset Shimmer?" Mina asked.
"Yes I am. And don't worry about Twilight and Spike. I already know them. You must be Mina.

SC276: [Sunset Shimmer] "You look just as absolutely tacky as described?"
CaptainPipsqueak: "I already want you dead."

It is a pleasure to meet you," she explained as she held out her hand. I gladly took it and we shook hands.

CaptainPipsqueak: "I then began to squeeze her hand harder and harder..."

BittplexMutt: "Then we stated our names again."

"It's a pleasure to meet you too. And the other that hadn't said her name yet is Starlight Glimmer," Mina explained herself.

Mono: [Sunset] "I-I know her already, *does anyone remember the specials here?*"

Crazy56U: [Idina Menzel] "(bitchy) Clearly not! Maybe *that's* why your series got cancelled, *bitch!*"

[Sunset Shimmer] "(mad) *YOU WANT TO FUCKING GO, YOU CUNT?!*"

[Idina Menzel] "TRY ME, HUSSY!"

"And then they proceeded to tear each other apart. The End"

CaptainPipsqueak: Everyone likes a good catfight.

"Ok. Since everyone is here, let's go to the Cutie Map of Canterlot High," Sunset Shimmer said and walked off as the four friends followed.

Crazy56U: *Riveting.*

But when Sunset stopped walking,

Crazy56U: "-and fell over dead."

we ran right into each other. Spike ran into Twilight, she ran into Mina, and she ran into Sunset.

Mono: Killer comedy, bro.

SC276: Wait, wouldn't that mean *Spike* stopped moving first- God, if I keep questioning the laws of physics at play here, this'll take all month.

"Sorry!" the three of us said at the same time.

BittplexMutt: They just love to copy each other.

"It's okay," Sunset Shimmer said.

BittplexMutt: "Except it's not."

CaptainPipsqueak: "When we're out of sight of the others, I'm going to club you to death with a pipe."

"Is this the Cutie Map of Canterlot High?" Starlight Glimmer asked while looking at the map in front of her.

Mono: I... don't know where this is supposed to be, but I'm just gonna assume they're in the broom closet looking at a napkin.

SC276: [Sunset Shimmer] "No, this is Patrick."

She giggled and said, "Yes it is the Cutie Map of Canterlot High."

"Do you got a driving suit?" Mina asked Sunset Shimmer.

Crazy56U: [Sunset Shimmer] "... ..*you don't need a suit to drive, you nutbar.*"

[Idina Menzel] "I say you do, shut up."

BittplexMutt: "Driving suit? I thought you said diving suit."

"Yes I do," she replied.

"Let me guess. There is a human Rarity here," Mina said.

Sunset Shimmer's POV

I was shocked that she knew about her.

SC276: So, has anyone pointed out to the author that third-person omniscient is a valid writing perspective?

CaptainPipsqueak: I think quite a few things haven't been explained to them.

"Yes there is a human Rarity here. She was the one that made my sunset orange driving suit with a red and yellow streak on the left side of my pants," I explained, showing them my driving suit.

No one's POV

SC276: The perspective here switches so fast, you'd think the author was playing FEZ.

CaptainPipsqueak: Thank God I'm wearing my perspective-switch neck brace.

Then, the Cutie Map started glowing and brought us above it with an aqua blue aura.

"What the heck?!" Mina said worriedly.

SC276: [Reddy Player One] "Why is the map manhandling us?! This isn't a tentacle hentai!"

CaptainPipsqueak: Yet.

Before anyone could speak they magically went inside of the map right where the cutie marks are.

Mono: Oh, hey, it's 'even worse season 5 end'.

Crazy56U: Doubtful, Unknown isn't regretting life yet.

CaptainPipsqueak: I dunno; he hasn't said anything in quite a while.

BittplexMutt: Meanwhile, Sunset was confused about the whole thing.

Unknown Place, My POV

"AAAAAAHHHHHHH!!!!!"

Crazy56U:

BittplexMutt: LOUD NOISES!

CaptainPipsqueak: CAPSLOCK! EVERYWHERE!

Twilight, Starlight, Sunset, and I screamed at the top of our lungs as we were falling from the sky.

SC276: Get over it, I drop my Jumpchain character on his face everywhere.

BittplexMutt: You get used to falling a lot.

"MINA!! LOOK OUT!!!" The girls screamed.

Then, I was shot by fire and I was knocked out with burns from my face to my shin.

Mono: ...Welp, she's dead. A happy ending for all of us!

BittplexMutt: Toasty!

"*gasp* MINA!!!" The girls screamed.

SC276: [Sunset Shimmer] "Fuck, we're probably going to get blamed for this!"

[Twilight Sparkle] "If anyone asks, I was too busy being drunk!"

BittplexMutt: It was so important that three exclamation points were added.

Chapter 2: Killed; Meeting Luigi and Daisy; Drained Magic

Mono: *eats a delicious word salad*

Crazy56U: *What the fuck is this anime titling.*

Previously

BittplexMutt: On Dragon Ball Z...

*I was knocked out with burns from my face to my shin.

BittplexMutt: Toasty!

"*gasp* MINA!!!" The three girls screamed.*

Sunset Shimmer's POV

When they got down to the ground, I checked Mina's heart pulse. Nothing. Her heart wasn't beating.

Mono: I... I was kidding, story...

CaptainPipsqueak: Oh shut up; you won.

I fell to the ground crying.

BittplexMutt: Meanwhile, Twilight was celebrating.

"MINA!! Why did you have to die on the start of our mission?!" I said, bursting into tears.

SC276: Isn't this the first time you fucking met her?

When I stopped crying, I fell asleep, as well as the other girls.

SC276: Boy, they're over it already. They *know* the life of a Sue is worthless.

CaptainPipsqueak: There's always another one.

Daisy's POV

SC276: *HI I'M DAISY*

CaptainPipsqueak: *HI DAISY. Also (and I don't care if it's your actual name) your name is 'Dipshit' now, because my dog's name is Daisy and I'm not tarring her by association.*

Luigi and I were on a walk around the Mushroom Kingdom as usual, until we were stopped by a Toad. He seemed to be out of breath, but why?

SC276: How the fuck would I know?!

"Help! There are four girls on the outskirts of the Mushroom Kingdom. Three of them were sleeping while the other one is unconscious!!

Mono: "Or dead, I don't know. She looks kinda burnt, so I guess she's dead..."

CaptainPipsqueak: If she's unconscious, isn't she *by literal definition* sleeping?

Help them!!" he yelled.

CaptainPipsqueak: [Princess Dipshit]"I'm sorry, but have you forgotten who the royalty here is?"

BittplexMutt: "Double exclamation points!"

When the Toad left, me and Luigi were standing there shocked.

SC276: Well so much for helping them

BittplexMutt: [Luigi] "Well... that happened."

"Come on Luigi! We must go help them!" I said worriedly.

BittplexMutt: [Luigi] "Yeah, I already got that."

"Let's-a-go!" Luigi said confidently.

SC276: oh god please don't just use voice clips

When we got to the outskirts of the Mushroom Kingdom, we saw four girls in driving suits.

Mono: Sooo... the girls are just wearing their bike suits at all time? And here I thought the author was mis-spelling 'diving suit' all this time.

SC276: And you thought *Totally Spies* was a fetish-fest.

There was an orange-skinned girl,

BittplexMutt: "Guess she hangs around the tanning booth."

a light purple-skinned girl, a lavender purple-skinned girl, and a red-skinned girl.

BittplexMutt: "These are some weird looking aliens."

When we noticed the red-skinned girl, she had burns from her face to shin.

SC276: Guess that's why her skin is red then.

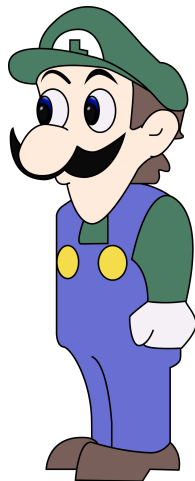

CaptainPipsqueak: She wasn't out in the sun *that* long.

I got mad and said to myself, "Bowser must have did this."

Mono: Because everyone knows Bowser's new M.O. is just torch random people.

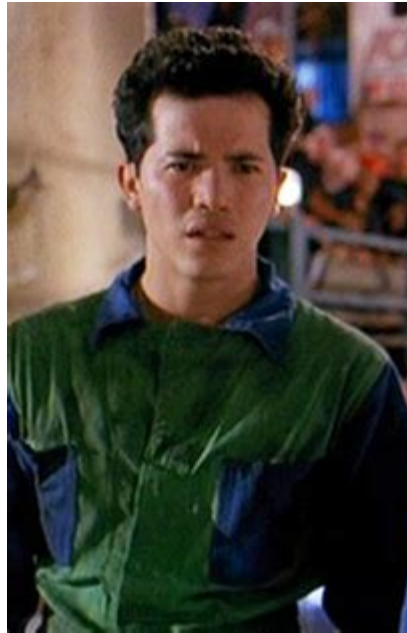

CaptainPipsqueak: Nabbing Princess Dipshit's never worked out for him and random violence is the only other thing he's good at.

Luigi noticed that she was the one unconscious. Luigi went over to her, as did I. When I checked her heart pulse there was nothing. But when I checked the other three girls, their hearts were beating normal. Luigi got into a form that I had never seen before

Mono:

Crazy56U:

CaptainPipsqueak:

None of you will ever get the reference.

and held his hand to me. Then, out of nowhere, I was in the same type of form as him, but a little different. Luigi only got pegasus wings

Crazy56U: Eh. Not as ridiculous as Bee Luigi. It works.

BittplexMutt: Everyone is now an alicorn now.

while I got a unicorn horn and alicorn wings. I focused my horn on the girl and I performed a spell that will make her heart beat normal for as long as she lives.

SC276: (double facepalm) J... JUST USE A FUCKING 1-UP MUSHROOM

BittplexMutt: Doesn't she know that dead is better?

Then Luigi touched her forehead and all of her scars were gone and she got red pony ears, a red unicorn horn, red alicorn wings, and an orange pony tail. Then Luigi touched the other three girls

Mono: Ewww...

Crazy56U: Hey, buddy, your mind is in the gutter, better pick it up.

and the orange girl got orange pony ears, orange unicorn and red-and-yellow pony tail. The light purple girl got light purple pony ears, light purple unicorn horn, and a royal purple-and-aqua green pony tail. Last, the lavender girl got lavender purple pony ears, a lavender purple unicorn horn, lavender purple alicorn wings, and a indigo, royal purple, and pink pony tail.

SC276: why the fuck do they need to "pony up"
Crazy56U: Because.

Then, the two of us fell to the ground as the three girls, plus the red girl woke up.

SC276: So Reddy Player One doesn't count as a girl?
CaptainPipsqueak: She's a different color. She doesn't belong.

My POV

"W-What happened?" I asked.

SC276: Absolutely unnecessary bullshit, is what!

Then, I noticed pony ears, a unicorn horn, alicorn wings, and a pony tail on me. Before I was about to scream, my mouth was covered by a girl with orange-red hair and next to her was a man that was wearing mostly green. Then, Daisy uncovered my mouth

SC276: I thought those two had fallen unconscious from the sheer bullshit of that recovery scene!
BittplexMutt: Why not both?
CaptainPipsqueak: Both?! Be still my heart! *taps ribcage* ... *taps ribcage again* ... Aw damn it... *collapses*

and noticed me lifting up in the air. Then, in a red flash of light, my body was turning a dark cherry red, as well as my clothing and my hair turning a dark color as well. But, they noticed the real me floating and getting into a fighting stance.

SC276: Alright, anyone that understood that, get in line so I can wipe your affront-to-nature ass off the face of the Earth.
CaptainPipsqueak: hnnrrr...

"Dark Twivine Reddel," I growled.

Mono: Wait, Twivine? Is this really a Mykan Jr. fic again?!
Crazy56U: I think we found Mykan Jr.'s alt-account, everybody.

"Well, well, well. If it isn't my good counterpart, Mina Reddel," Dark Twivine Reddel said.

Crazy56U: I have seen episodes of Spongebob Squarepants that were less bullshit than this.
Mono: Pre or post movie?
Crazy56U: Post SECOND movie. The REALLY fucking dumb shit.

"Do you want a fight? Cause that is what you will get!!"

Crazy56U: You want ants?! Cause that's how you get ants!

I yelled and threw a magic beam out of my horn.
Just then, Mario, Princess Peach, Rosalina, Toad, Toadette, Donkey Kong, and Yoshi

Crazy56U: And starring Jerry Mathers as the Beaver!

Mono: Also starring Don Knotts!

SC276: ~and Gandalf the Grey and Gandalf the White / and Monty Python and the Holy Grail's Black Knight~

came rushing to Luigi and Daisy.

"What's going on? !"

Crazy56U: (quickly) Ricola.

Yoshi yelled.

Crazy56U: [Luigi] "(scared) Yoshi, why are you speaking English all of a sudden?"

[Yoshi] "(annoyed) *It's called 'plot convenience', Luigi.*"

"This girl is trying to defeat her evil counterpart." Daisy said.

Crazy56U: [Luigi] "Honestly, I'm choosing to just go with the motions, the sooner this is over, the sooner we can go home."

"Her name is Mina." Starlight said.

Crazy56U: [Daisy] "(annoyed) *Did I fucking ask?*"

"And look what's haappening!" Twilight yelled.

Mono: Also, Twilight apparently turned herself into a sheep.

Crazy56U: Hey, at least *something* interesting is happening now...

Everyone gasped to know that Dark Twivine Reddel caught my magic beam with her unicorn horn.

BittplexMutt: Gasp.

"What? How is this possible?!" I yelled.

SC276: [Reddy Player One] "*this is so fucking bullshit*"

"This is the end for you, Mina Reddel." Dark Twivine Reddel said.

BittplexMutt: "For real this time."

Everyone gasped in horror to discover that.

SC276: I'd celebrete if it weren't fucking obvious it wasn't happening.

"Look!" Toadette said.

BittplexMutt: Don't tell me what to do.

When the 12 friends turned to my direction, they gasped in horror what they saw.
"NO!! TWIVINE!!!! NOOOOOOOOOOOOOO!!!!!!!!!!!"

Mono: No. *ding*

Crazy56U: No?

I screamed.
Then, I lost my unicorn horn and alicorn wings and started falling.

SC276: [Reddy Player Two] "Wait, what? I didn't do anything yet."

Mono: The next 2 million pages will be this character raving about said fall and the dreams she had in which she fell.

Crazy56U: (nose gushes blood; begins stroking out)

Just as the ground came into view, someone caught me.

BittplexMutt: It was the author.

Since I couldn't open my eyes, I didn't know that Yoshi caught me.

Crazy56U: [Yoshi] "Everybody gets one. (drops Idina Menzel; leaves)"

Mono: "-in his mouth. I am an egg now."

Crazy56U: Mono, that was vore, and I'm shaming you for that.

BittplexMutt: And then Yoshi sacrificed his life for her.

When he brought me to the ground, he set me down in the grass. When I opened my eyes, they were in shock to notice my eyes went from sky blue to light gray.

Crazy56U: Ah, yes, that means your contacts fell out. (tsk tsk) What a shame.

I tried to sit up, but my head just came back down to the ground.
"Help...me. I...feel...too...weak." I said weakly before I blacked out.

Crazy56U: In a kinder, gentler world, you would have died here and now.

SC276: Wait, she loses her power from losing her contacts? Worst Toa ever.

Chapter 3: Got My Magic Back. Killed Again

Crazy56U: All in all, a shit day.

My POV

When I woke up, I saw Sunset Shimmer, Mario, Luigi, Peach, Daisy, Rosalina, Yoshi, Toad, Toadette, Donkey Kong, Twilight Sparkle, and Starlight Glimmer looking up at me with worried looks.

"What?" I asked.

"You have been unconscious for 5 days." Rosalina said.

SC276: [Rosalina] "We left you on the ground that whole time because we don't give a shit."

"But before you fell, Yoshi saved you." Peach said, pointing to the green dinosaur.
"Then, Luigi brought you to the Mushroom Kingdom, which is where we are now." Daisy said, pointing to the man wearing green.

SC276: [Daisy] "The rest of us didn't do anything because we don't give a shit."

"And your friends, Sunset Shimmer and Starlight Glimmer,

Crazy56U: [Toadette] "-sidenote, it's way harder than I thought keeping those names un-mixed up, -"

and our friends, Toad and Mario, came checking on you, no matter how late it was."

Mono: [Nurse (I presume)] "Sir, it's 3am, the hospital is closed, I request you to leave."

[Mario] "*is standing in front of the window, attempting to open it with a crowbar* Try-a me, mamafucker!"

Crazy56U: [Doctor Doctor (Give Me The News)] "(pulls out a baseball bat) Square up, motherfucker."

[Toad] "(is kicking the window repeatedly) Try it. Try it right now. Take the swing. Make it count. Make it a good swing. I dare you."

Toadette said, pointing to me and Starlight, then to the mushroom guy and the man wearing red.

Crazy56U: [Mario] "(is walking up to the others with Toad) Sorry about that, we took a wrong tur- WHO IN THE HECK ARE YOU TWO?!"

[Mushroom Guy] "(unconvincing accent) What do you mean, I am clearly the toad guy, wahoo."

[Ness] "I don't even know why I'm here."

SC276: So much finger-pointing in this fic, you'd almost think it was a political ad.

Crazy56U: How the fuck did you get away with that jo- (is C&Ded by Ring) i fucking hate everything

Mina smiled a bit and said, "Thank you guys."

Twilight gasped

Crazy56U: [Twilight Sparkle] "YOU KISS YOUR MOTHER WITH THAT MOUTH?!"

and said loudly, "You got your voice back!!"

"You're right. I do. And I got some of my strength back, but only enough to dodge small attacks, punch, kick, uppercut, and knee Dark Twivine Reddel."

Mono: "But not enough to stand and walk, for some reason my knees just up and explode when I try to do that."

Crazy56U: Translation:

[Idina Menzel] "All I can do is kick her ass, I'm basically useless now."

BittplexMutt: "I would defeat her but it's soooo hard!"

"Who is Dark Twivine Reddel? Is that who you were fighting 5 days ago?" Daisy asked.

Crazy56U: Yeah, they were in the middle of a bullshit argument about video timestamps. *Not worth it.*

"Yes, she is the one I was fighting 5 days ago. Dark Twivine Reddel is an evil counterpart of me.

SC276: And considering the base is a Sue, that's pretty damn evil.

She has all of the same attacks as me, and only me. She also has the same power as two of Twilight's

Mono: Coincidentally, she also consumes as much alcohol as two Twilight's.

and my enemies in our dimension known as Equestria. The enemies' names are Twivine Sparkle and Lord Tirek. And her last name, which is 'Reddel', is also my last name.

**Mono: "But we are *totally* not family or something
*cough*foreshadowing*cough*..."**

And her weak spots is her protection shield, which you have to break with attacks that are not my fighting attacks and only attacks and her fighting attacks and all attacks but one attack, her sides, her stomach, and her temporal lobe, which is the best way to knock her out after you break the shield. But to hit her in the temporal lobe, you guys have to use fire." I explained the first part.

SC276: [Daisy] "...I didn't ask for your life story, lady."

Then, Luigi and Mario

**Mono: "-had already checked out mentally when she began to speak."
BittplexMutt: "-already dreading this moment."**

said, "We got fire power!"

"Great! So you two can help knock her out, while we need flower power to get my magic and the rest of my strength back, according to the book I have had about my evil counterpart." I explained

SC276: Of course you couldn't figure out her weakness yourself, that would be *work!*

while thinking.

SC276: *HAH!* Good one!

Then, Daisy started jumping and said, "I have flower power!

**Mono: Daisy is a hippie. Confirmed.
Crazy56U: Daisy is basically Poison Ivy.**

I will be happy to help as well!"

"Great! And try your best to not let Dark Twivine Reddel drain your magic, Sunset Shimmer, Twilight Sparkle, and Starlight Glimmer."

Crazy56U: This is giving me Kingdom Hearts vibes now, what the fuck.

SC276: Honestly, Sora showing up couldn't make this any *more* batshit stupid.

I said, practically glaring at my three friends.

Mono: [Sunset] "Funny you say that that way, 'cause last time I checked, we weren't unconscious for five days straight."

"And if you and your friends are worried, Mario, you guys are not able to get your powers drained, because you guys are immune to that spell while me and my three friends aren't.

SC276: [Reddy Player One] "I know this because it was written on this post-it note the author just gave me."

BittplexMutt: "Just trust me on this, okay?"

So, you guys and my three friends are in charge of defeating my evil counterpart. I will have to watch you guys because of my low strength. Got it?" I explained to Mario.

Mono: [Mario] "So you're just asking if we do *your* dirty work for you?"
[Princess Bob] "*shit-eating grin* *Got a problem with that?*"

"GOT IT!!!" Everyone yelled.

Then, everyone else started putting their hands on top of each other in this order: Daisy, Luigi, Sunset Shimmer, Rosalina, Yoshi, Twilight, Toadette, Toad, Starlight Glimmer, Peach, Mario, and Donkey Kong.

SC276: There'll be a test later.

While I was standing there with my still dull gray, weak eyes, Donkey Kong used his free hand to signal me to put my hand on top of his. I smiled and put my right hand on top of his.

"LET'S DO THIS!!!" We all yelled

SC276: Keep it down, we're in a church.

as we all started running to where Dark Twivine Reddel is.

SC276: Just down interstate 119.

While all of the others were running, I started to slow down because I was losing strength. None of my friends knew that my strength is what kept my voice regular.

Mono: Except Twilight, apparently, who commented that you got your voice back...

"HELP ME!!!" I screamed with all of my might.

All of my friends stopped and started rushing to me when they heard my screamed.

"MINA!!!" They all screamed.

SC276: Do these guys suddenly have their volume stuck on max like broken steampunk robots?

But when they saw me coming into view, they gasped in horror as I was getting burned by someone that had fire and they saw me with so many burns that my friends watched me getting killed by fire.

SC276: Fire fire, fire. Fire? *FIRE!* (launches cannonball into fourth wall)

When all of my friends got to me, Daisy checked my heartbeat and started to have tears coming out of her eyes.

Mono: Also, she is apparently narrating from beyond the grave.

"What happened Daisy?" Sunset Shimmer asked her.

BittplexMutt:

"Sh-She w-was k-k-killed by the f-fire." Daisy stuttered through her tears.

Crazy56U: [Twilight Sparkle] "... .. (pumps fists into the air; ecstatic) *YES!*"

SC276: [Twilight Sparkle] "...What, *again?* That's the eighteenth time this week!"

Next thing Daisy knew was that everyone was crying with her, especially Luigi and Sunset Shimmer. When one of Luigi's tears came onto my heart, the 12 friends moved back and saw me floating by a sky blue aura. Next thing my friends saw was me opening my eyes.

Mono: Okay, who wants to bet this chick hooks up with Luigi when the fic is over?

They noticed my eyes still a dull gray, but they noticed that my eyes turned into a sky blue-grayish color, and they notice that I am getting a new outfit in a magical way.

SC276: [Toadette] "Boy, we sure are noticing a lot of bullshit."

BittplexMutt: [Mario] "What is this, anime?"

By the time I was down to the ground with no cuts or burns, apparently, I had a red dress with a green streak with Luigi's symbol on its streak,

Mono: *I WAS JOKING!*

SC276: So I guess the author's given up on the whole "racing" thing.

a neon orange streak with Daisy's symbol on its streak, a pink streak with Pinkie Pie's symbol on its streak,

SC276: the fuck does pinkie have to do with *any* of this

except maybe thinking that selling the author acid was a good idea

and a sunset orange streak with Sunset Shimmer's cutie mark on its streak.
"W-What happened?" I asked confused.

Mono: *shrugs* I dunno, why are you asking me?

BittplexMutt: A lot of things happened.

Then, Daisy gave me a big hug and started explaining what happened.

Mono: [Daisy] "So, it seems you're basically Jesus now, except you come back from the dead immediately, so that means you're Super Jesus."

BittplexMutt: [Daisy] "A Super Sue Jesus."

After she explained, I stood there shocked.

BittplexMutt: I know, right? It makes no sense.

"Let's go defeat Dark Twivine Reddel!!!" Daisy said loudly so everyone could hear.
"YEAH!!!" We all yelled.

SC276: Because the *first* time worked out so well.

BittplexMutt: And then they all died.

When we all found Dark Twivine Reddel, I growled.

Mono: "How *dare* they cut out our epic quest to look for him!"

"Dark Twivine Reddel." I growled.

"That's 'Princess' Dark Twivine Reddel to you, Princess Mina Reddel." My evil counterpart said to me.

SC276: Does no one here know how to *abbreviate names*, or...?

Everyone stared at me wide-eyed. I growled at Princess Dark Twivine Reddel.

"How did you know I was a princess?!" I yelled at her.

Mono: [Evil Princess Bob] "Because I *am* you, or almost you? *Duh.*"

SC276: [Reddy Player Two] "I'm mostly just happy I get to talk in this iteration."

She chuckled and said, "Remember when Twivine Sparkle stole the magic from the princesses? Well, you have more magic than Celestia, and you are still such a weakling."

Mono: Ummm... the correct term is "OC", I believe...

I looked at my evil counterpart, glaring at her with flames of rage in my eyes.

"I WILL SHOW HOW STRONG I AM AND THAT'S FINAL!!!" I screamed

SC276: Yes, so strong, you died twice to the same cause in the same week.

and threw a giant magic beam with all of my strength and defeated her,

Mono: Huh... guess this *isn't* Mykan Jr.'s alt, then...

sent her back to Equestria, and got my orb back.

Mono: Ah, yes, your orb that we talked so much about.

SC276: [Reddy Player One] "Now to get the other three, and we can begin our reenactment of *Final Fantasy*."

Chapter 4: Racing in the 50cc Mushroom Cup; Thank You Presents

Mono: Because that's how you defeat evil, by racing!

BittplexMutt: This will be the worst Mario Kart race yet.

My POV

As soon as I broke the orb, I started floating in the air. When the magic went inside of me, I grew pony ears, unicorn horn, pegasus wings, and a pony tail.

SC276: Didn't you... already do that?

"Want to race against me, Luigi, Mario, Peach, Yoshi, Donkey Kong, Toadette, Toad, Bowser, Baby Mario, and Baby Peach?" someone asked from behind me.

I turned around and saw Daisy.

"Sure."

Mono: "I mean, we need to do *something* to pad out this story..."

I said and she bought me a red motorcycle.

'Perfect.' I thought as I got my motorcycle suit out of my backpack.

SC276: And you didn't have it on the entire time like everyone else because *fuck if I know!*

When I got into it, I said to myself, "Perfect fit."

As soon as I got out of the changing room, I got outside with my motorcycle, turned it on, and left for Luigi Circuit.

10 Minute Time Skip

SC276: And yet this fic feels like a century.

Crazy56U: "Thousands died."

When I got there, I went to the 12th place spot right on time. When Lakitu was about to turn on the 3rd light,

SC276: "-whatever color it was-"

I turned on my motorcycle. When I pressed my gas pedal, I got a special boost.

Mono: It's called 'moving forwards'.

SC276: It's called 'exploding from trying to start a motorcycle that you just turned on before it could warm up.'

'Perfect.' I thought as I raced past 5 people, which is Daisy, Mario, Luigi, Peach, and Baby Mario, making me 7th place.

Crazy56U: We know how to count, you fucker.

SC276: Speak for yourself, I have difficulty once I get to eleventy zillion.

As I raced past 5 more people, which is Yoshi, Baby Peach, Donkey Kong, Toad, and Toadette, making me 2nd place, I muttered, "Time to throw the blue shell at Bowser." with an evil smirk on my face as I threw the blue shell.

SC276: [Reddy Player One] "Good thing I smuggled it in under my skirt!"

Crazy56U: (defeated) Oh, goody. Blue Shell Incident 2.

When Bowser got hit by it, I got past him and crossed the finish line in 1st place.

Crazy56U: I hope you realize you just painted a target on your back.

Everyone started cheering for me as I was blushing in embarrassment.

BittplexMutt: More like they were yelling at her.

Bowser got in 12th place, and he was really mad.

Crazy56U: Seriously, if fucking Garfield shows up and opens fire, I will fucking scream.

"How did I lose from a newbie racer?!?!" he yelled

BittplexMutt: Poor Bowser, he never stood a chance.

SC276: Honestly, better question is "when the fuck did races only take one lap?"

as he was about to throw a giant fireball at Mario, even though he didn't do anything.

Crazy56U: Mario knows what he did.

Bowser threw the fireball at him, but before he got hit, I stood in front of him and took the hit myself. Then, the whole crowd gasped as I was covered in burns from head to shin. Again.

SC276: [the author] "This is stupid, I know it's stupid, but I'm going to do it anyway!"

Crazy56U: [Idina Menzel] "(pained) Dying hurts. (dies)"

[Spike] "(in the distance) SUCK IT UP, YOU WUSS."

When my heart stopped again, I blacked out, making the crowd gasp loudly and Luigi and Daisy coming to the lifeless body of me.

Mono: This is the third fucking time you died in this fic... three time's the charm?

SC276: We have seen some fucking insanity, and honestly, burning to death and coming back to life three times in one fic just... That is hard to top.

As soon as Luigi grabbed my left hand while crying and Daisy doing the same with my right hand, me and the two started floating in the air.

Crazy56U: And then Third Impact occurred. THE END
SC276: And then they did a Trinity Limit.

Luigi was carried by a green aura, Daisy was carried by a tangerine orange aura, and my lifeless body was carried by a red aura. When the three of us were lifted down, the crowd gasped in awe.

Crazy56U: [Crowd Member] "THEY'RE WITCHES!"
[Crowd Member #2] "FLEE! FLEE FOR YOUR LIVES!"
"And then a riot broke out as the crowd began to flee. Thousands died."

When Luigi and Daisy woke up, Luigi started panicking and running around like a maniac when he noticed he got green pony ears, green pegasus wings, and a short, brown pony tail.

Crazy56U: [Luigi] "(isn't panicking)huh. (shrugs) Eh, I've been Bee Luigi, this is fine."

Daisy, on the other hand, was in awe as she saw tangerine orange pony ears and a tangerine orange unicorn horn on her head, vivid orange alicorn-sized wings on her back, and a long, red orange pony tail that makes her hair go to her knees.

Crazy56U: [Daisy] "(is actually panicking) WHAT THE FUCK WHAT THE FUCK WHAT THE FUCK WHAT THE FUCK WHAT THE FUCK WHAT THE FUCK"

Luigi stopped when he noticed Daisy giving him a confused look.
Luigi started scratching his neck and said, "Sorry." in a quiet tone.

Mono: [Luigi] "Sorry my whole body is changing?"
Crazy56U: Ba dum ching.

"It's okay." Daisy said with a calm tone in her voice.
And that calmed Luigi down.

SC276: Somehow, even though I'm getting a massive headache reading this, and they aren't while *living* it.

But what they didn't notice is that I was starting to wake up.

Crazy56U: Unfortunately, Bowser did.
[Bowser] "I DON'T FUCKING THINK SO! (grabs Idina Menzel; body slams her a la Smash Bros)"

The crowd started cheering happily and Luigi, Daisy, Mario, Peach, Baby Mario, Baby Peach, Donkey Kong, Yoshi, Toadette, and Toad

SC276: -IN THAT EXACT ORDER-

turned around and gave them a confused look. A familiar sunset orange girl pointed to me

Crazy56U: [Sunset Shimmer] "GET HER!"

"And so everyone proceeded to beat Idinal Menzel to death as the crowd cheered. THE END"

BittplexMutt: The true ending.

and the 10 friends rushed towards me with a worried and concerned look on their faces. When my eyes got in full sight, I saw the ten looking at me with worried and concerned looks.

Mono: Look look, look. Look? Look!

Crazy56U:

"What happened?" I asked them

SC276: Complete fucking bullshit.

and they pointed to my head, my forehead, my hair, and my back.

Crazy56U: And also her legs, her arms, her stomach, her ears, her neck, her ankles, her thumbs- (is smacked with a shovel)

Sure enough, I noticed that I had Equestrian magic on me: red pony ears, a red unicorn horn, a pair of red alicorn wings, and a long, orange pony tail.

BittplexMutt: She was almost like a devil pony.

SC276: Eh, not enough black.

"Equestrian magic. I didn't know there were some in me." I mumbled to myself.

SC276: I thought you were a pony.

Mono: THIS HAS HAPPENED LIKE, TWO TIMES IN THE FIC NOW, HOW DO YOU NOT KNOW?

Crazy56U: Brain worms, Mono, I can only say it so many times.

"Huh?" two people from behind me asked in unison.

I turned around and sat there with a shocked expression on my face, jaws dropped, and my eyes were wide. It was Daisy and Luigi.

Crazy56U: [Luigi] "What the fuck did you just say?!"

[Daisy] "Are you fucking brain damaged?!"

Luigi had green pony ears, green pegasus wings, and a short, brown pony tail while Daisy had tangerine orange pony ears, a tangerine orange unicorn horn, a pair of tangerine orange alicorn wings, and a long, red-and-orange pony tail.

SC276: we just went over this- oh dear, I've gone cross-eyed.

"What?" Daisy asked, confused.

SC276:

Crazy56U: ikr

I sighed and started explaining about where the 4 of us came from, our friends, and the Equestrian magic subject. When I was done, everyone except for my 3 friends and I started crying.

Crazy56U: Out of fear. In their eyes, Idina Menzel was just spewing nonsense.

"Y-You are l-leaving??" Daisy asked through her tears.

Mono: [Princess Bob] "I-I didn't say that..."

"Yes.

Crazy56U: [Daisy] "(is still sobbing) I'm... So happy..."

I am afraid the 4 of us have to leave.

SC276: Why? Like, seriously, why? Between all the times you were unconscious and dead, you were only here for like an hour. And then there's the fact that literally nothing about what happened was a friendship problem.

Here's something I would like to give to you before we leave." I said sadly. Then, I picked something out of my shirt pocket and handed it to Daisy.

Crazy56U: It was a mouse.

It was 2 keys.

SC276: -from a keyboard. Crazy was close there.
Crazy56U: (holds up a trackpad keyboard)

One key had Daisy's symbol and the other had Luigi's symbol.

SC276: [Daisy] "Why the fuck are *our* icons on *your* things?"

"This is a thank you present for the 2 of you for helping me." I said happily.

Mono: [Daisy] "U-ummm... is there any significance to these? Do they... fit in anything?"

[Princess Bob] "*cheerfully* NOPE!"

Crazy56U: [Daisy] "(stares at keys; stares at Idina Menzel) ... (pointedly drops keys on the ground without breaking eye contact)"

Chapter 5: Going Back

BittplexMutt: In time?

SC276: We're gonna have to Doubleback again.

Crazy56U: After all, if Blue's Clues taught us anything, it's *go back, go back, go back, go back to where you were!*

My POV

Today was the day for the 4 of us to go home.

Crazy56U: Don't let the door hit you on the ass on the way out.

BittplexMutt: And there was much rejoicing.

We met up at the portal to Canterlot High and Equestria.

SC276: [the author] "How did they get out of the Mushroom Kingdom considering that there wasn't really a return portal? *Fuck you, that's how!*"

"I sure wish you could stay." Daisy said.

Crazy56U: Daisy, this is why no one likes you.

Mono: At the very least Equestria wouldn't have to deal with them anymore...

"Me too. But I promise I will be back in the next part.

Crazy56U: [Daisy] "(annoyed) Hey, maybe *don't* break the fourth wall?"

Ready?" I said.

"Ready." the three said.

SC276: What is this, *Mega Man*?

Then, Sunset Shimmer went through the portal to Canterlot High while Twilight Sparkle, Starlight Glimmer, and I went through the portal to Equestria.

SC276: Sure, whatever, just fucking end this before I have a fucking meltdown.

Crazy56U: RIIIIIIIIIIIIIIIICOLAAAAAAAAAAAAAAAAAAAA

The End

Help me!!

Crazy56U: *Make me, bitch.*

Mono: How much am I getting for it?

Hey there. Mine the Echidna here.

SC276: Fuck you, you're Huxley now.

Do you think you could help me by putting a name of a video game, an Equestria Girl name, and a My Little Pony name for my next story in the comments?

Mono: Chibi-Robo: Zip Lash, Tennis Match and Moondancer. Knock yourself out.

Crazy56U: Half Life, Sugarcoat, Diamond Tiara. Have fun.

SC276: Starfleet, Twilight Sparkle, and Twilight Sparkle. Let's face it, Mykan acts like his world's a video game anyway.

I could really use the help. And will you guys describe the game if I say "I don't know" in the comments?

Mono: Ummm... nah, nah I don't think I will.

Crazy56U: *Google is your friend.*

SC276: Unless they're your enemy, in which case I look forward to you being retconned out of existence.

If you will help, thank you for it

Crazy56U:

SC276: And now to fill out the rest of the time... I can't fucking even.

Ringmaster: It's "Mario and the Mane Six" by SarahGirl1.

SC276: "It can't be *that* bad," you may be thinking, "that fic has a title that's an actual title." (laughs spitefully)

Crazy56U:

PROLOGUE

My Little Pony: Friendship is Magic and Super Mario Brothers.

Crazy56U: "Totally incompatible in every way possible."

A show and a video game that both changed the world.

Mono: I... really wouldn't take it that far. I mean, yeah you can make the case for one, but... c'mon, it's Super Mario Bros.

BittplexMutt: For better and worse.

Crazy56U: Mario caused Third Impact. FIM caused *Fourth* Impact.

Spawning fans of all ages who, despite being saturated with joy from these franchises, still crave more. Receiving massively positive review after another with every addition introduced for them.

Mono: *laughs in season 3*

Crazy56U: (laughs in 3D World)

They overpowered every other franchise created by the companies that developed them: Hasbro and Nintendo.

Mono: I'm... pretty sure Transformers is still very much a thing.

Crazy56U: Shhhhhhhhhhhhhhhhhhhhh...

They take place in separate worlds but exist on one planet-the planet that supports life, Earth.

SC276: OK, buddy, we didn't need more evidence that you're delusional.

Crazy56U: Earth is the lynchpin of the multiverse. Confirmed.

But whatever happens on just one of these fictional worlds is never alluded to by the other. Neither of these worlds have ever come into contact.

Mono: And that's good, otherwise Lauren Faust and Miyamoto would have a collective fit that will destroy mankind.

Well, they had never come into contact...until that one fateful day (actually, a couple of fateful days), where it finally happened. Nobody in any existing universe, including those of Mario and My Little Pony, knows why,

SC276: I do! It's that the author is a git.

but it happened. It all began in the Mushroom Kingdom.

Crazy56U: "Toad's reign of terror began in earnest."

"NO, PLEASE! NOT THE PONIES, NOT THE PONIES!"

Mono: "Mario said, the basket being placed over his head before numerous My Little Pony figurines were poured into it."

BittplexMutt: "Ahhh! They're in my eyes!"

These were the most recent words from Mario, who had been found by Wario and taken to the computer room.

SC276: The part of Wario will be played by Vector.

Now he was tied to the chair and couldn't move his limbs.

"No, please don't play it! I'm a guy, I'm not going to like this!"

SC276: I remember seeing what was basically the "official way to portray Mario" document, and I recall it saying he doesn't discriminate. Then again, this guy thinks the nation with literal magic and where the weather has to be manually controlled is on Earth, so I shouldn't be surprised.

he pleaded Wario to let him go.

But the next thing he heard was,

Mono: "It's all ogre now..."

"ALL GUYS WATCH PONIES, YOU KNOW!"

With that, Wario turned on a video of an episode of My Little Pony: Friendship is Magic, which he quickly found on the Internet prior to capturing Mario.

Crazy56U: Spoilers, it's "Fame and Misfortune".

The intro played, with the one song that caused over a million fans to rejoice.

Mono: I'm pretty sure equally as many people hate the theme song, but whatever floats your boat, I guess...

Crazy56U: And here it is now.

"My Little Pony, My Little Pony, ah..."

Mono: "...Line?"

Crazy56U: "-choo."

My Little Pony!"

Just hearing this caused Mario to cry in despair.

SC276: "MAMA MIAAAAAAAAAAAAA!!!"

Crazy56U: And here it is now.

The realization that Wario had discovered his number one least favorite show sent him into a deep depression,

Crazy56U: And now we know the secret origin of "Blood Whistle".

and there was nothing he could do to stop it.

SC276: I mean, you *could* will yourself to die immediately. That's something.

Crazy56U: Yeah, but as of *Super Mario Odyssey*, Mario is effectively immortal. All he would do is lose 10 coins, then pop back to life.

"You're a monster! Do you hear me?" Mario was trying not to cry, but failing.

"No, you are," said Wario.

Crazy56U: *If that is a fucking Game Theory reference, Author, you go deepthroat a rake.*

"Why is it that guys like this show? It's too girly, even for whoever they made it for!"

Mono: That's right, it's too girly for girls!

Crazy56U: [Wario] "Hey, you leave those fuckers so-called Bronies out of this, okay?!"

[Mario] "(sad) You know how I feel about swears."

"You mean kids?"

"Yeah!"

"Wait until you see how many fans they have!"

"Somebody please kill me!" said Mario.

SC276: Tough beans, we don't get out that easily, you don't either.

Crazy56U: And then Sonic slowly rose behind Mario, garrote wire at the ready-

Whatever did he do-he had no idea. He was at a loss whether Wario was just encouraging him to watch it the hard way, or if he was just a bitter, ungodly and rarely forgiving soul who seemed to have been banished from the depths of hell.

Mono: I mean... look at him:

Crazy56U: The sex symbol himself.

BittplexMutt: Many trembled before him.

To any other person, especially males, My Little Pony was a dream come true;

Mono: Okay, speak for yourself, buddy.

Crazy56U: Okay, I wasn't sure before, but now it's clear the Author is insane.

BittplexMutt: "That is until they actually go there."

but in Mario's case, it was the worst possible nightmare. He refused to watch the show,

Crazy56U: "-mainly because he gave up on television after the Weather Channel changed listings."

to "join the herd," to be involved in it under any circumstances. Fortunately for him, this torture didn't last as long as he hoped for.

Mono: "For the computer overheated and burst into flames."

BittplexMutt: "He passed out from all the screaming."

Crazy56U: "Wario suddenly became a pickle. He became Pickle Wario. It was the funniest shit Mario had ever seen."

"Mario!"

The torturer and his victim heard a familiar voice from out of the room, and it seemed to be arriving. Wasting very little time, Wario paused the video,

Crazy56U: Translation: throwing the computer out the window.

not caring for what part they were on. That was when Luigi, Peach and Yoshi entered the room.

"We found something!" Luigi said.

Mono: [Peach] "Jesus, I knew Wario was into some kinky stuff, but *christ...*"

BittplexMutt: [Luigi] "I really don't wanna know what happened."

Crazy56U: [Yoshi] "Toad is threatening to sue!"

"Why's Mario tied up?" Peach wanted to know.

Crazy56U: [Peach] "(thinking) *please don't be kink related, please don't be kink related, please don't be kink related*"

Now knowing he would be in big trouble, Wario quickly thought of an excuse, but everyone saw right through it.

"Bowser made me do it."

"And why do you have My Little Pony open?" Yoshi asked, seeing what Wario was up to.

"Well, I... uh..."

Mono: "Bowser made me do it as well!"

BittplexMutt: "I was curious!"

"He made you make Mario watch My Little Pony?" Luigi asked.

BittplexMutt: "That monster!"

"Bowser was not involved!" Mario insisted.

The others were now calming down. Wario began to free Mario and got to the point.

"Okay, I'll let him go."

"Thanks, Wario. I almost flipped out," Mario said.

Mono: Heh heh heh... almost, he says...

"Sure, don't mention it. So what did you guys find?"

"We'll show you in a minute," said Peach.

Now that Mario had been free from the torture, the gang of five left the room and into the lobby. They saw a giant, glowing blue portal in the wall. Everyone was amazed, but especially Wario and Mario.

"Well, here it is," Luigi said. "The portal. Who knows where it leads to?"

Mono: Aperture Science?

"Probably not one of us," Wario said. "Okay, definitely not one of us."

"MAMA MIA!" Mario was in utter astonishment, as he had never seen one in years.

"Yeah, we haven't seen where it goes yet," Yoshi implied.

"Maybe if we go in there..." Wario started, but Luigi interrupted him.

"Absolutely not!" said Luigi.

Mono: THE END!

"What do you mean?"

"It'll probably go somewhere dangerous."

"Oh, yeah? Prove it!"

Luigi took a deep breath and ran into the portal.

Mono: Ten seconds later:

[Luigi] "OH MY GOD FUCK IT FUCKING BURNS THIS WAS NOT A SMART IDEA!"

He disappeared and everyone else gasped. The one exception was Wario, who knew that Luigi would fall for that.

"Wario, you moron! Luigi's gone!" Mario said.

"So why do you blame me if he's the one who went in there?" Wario asked.

Then Mario began to explain to him, completely oblivious to the fact that Wario didn't want to listen to him.

Crazy56U: Because Wario just fucking had no morals.

"You were the one who brought up that 'going in there' thing, but Luigi didn't want to go in because it would go somewhere dangerous. But did you accept that? I wish you did, but you know what? You didn't say you accepted it! And what did you say? You said 'Prove it,' that's what you said! Why can't you think about what you do before you do it?!"

Crazy56U: [Wario] "For fuck's sake, breathe."

As soon as Mario was finished, he noticed that Wario wasn't even listening anymore. Instead, the fat guy was staring down at Peach and daydreaming about hardcore romance,

Mono: Author, don't make me reach out and slap you, I don't want to piss off Ring.

not paying attention to who was talking to him in the slightest.

BittplexMutt: Mario would plan to kill Wario that day.

"Wario! Did you hear what I said?" Mario asked.

BittplexMutt: [Wario] "Yes, Peach? I mean, what?!"

"Uh, yeah! Yeah, I did," Wario lied.

"I heard every word you said, Mario," Peach said. "What in the name of humanity are we going to do now?"

"There's only one answer," Yoshi said evilly.

"There is?" Mario asked.

"Yes."

"Okay, tell us what we got to do."

"We have to... go in the portal."

Then there was some scary, discordant piano music that indicated trauma,

Mono: VISUAL. WRITER.

BittplexMutt: In this case it was head trauma from banging your head on the piano.

though the idea wasn't exactly horrifying by itself and everyone could see that Yoshi was exaggerating. Mario looked over at Yoshi and then saw that he was actually making that scary music, using a toy piano.

Crazy56U:

Unable to complain because he knew that it would be acceptable, Mario began once more.

Crazy56U: [Mario] "So, yeah, we have to go into the portal, (abruptly grabs Yoshi's piano) I say this goes first. (throws piano through portal)"
[Yoshi] "NO, VERA! (runs in after piano)"

"You know what? You're right."

"Mario!" Peach tried to convince her boyfriend to think twice, but it was too late. Yoshi had made final plans involving what he said,

Mono: "And as we all know, Yoshi's word is law in the Mushroom Kingdom."
BittplexMutt: All hail Yoshi.

and asked one more question before they did the unthinkable.

"What are we waiting for?!"

Then he grabbed everyone by the shirts and jumped directly into the portal, with his friends having to go alongside him. The four went screaming through the portal,

Crazy56U: "-and wound up in Hell."

which had so many psychedelic patterns and colors everywhere that they almost confused fantasy with reality. At that moment, Mario found Luigi and they held hands so they wouldn't separate at least for the moment.

"Oh, you're alive!" Mario said.

"And you're alive!" Luigi said.

Mono: *checks pulse* And I'm... ..wait, hold up a second...
Crazy56U: And Wario's dead!

But it was too late to react any more than that because they kept going through the seemingly endless portal. Then there was a bright flash of light that blocked everybody's view;

Crazy56U: Third Impact. THE END

it didn't blind anyone but concerned the heroes of five significantly. They had no idea where they were going to go, or what was going to happen, but one thing was for sure:

Mono: "-quality writing would be a foreign concept."

it would be unlike anything they had ever seen.

CHAPTER 1

The light had disappeared, and the gang of five landed on the other side of the portal. It was a colorful, blue-skied town; very different from the Mushroom Kingdom.

Crazy56U: They landed in *Sonic '06*.

The portal disappeared, but nobody noticed just yet.
Mario was the first to regain consciousness, and he did it at a good time.

Mono: "It was about time for the murders to begin."

Crazy56U: "He was starting to bleed out."

"Where... are we?"

He had never seen, heard of or been to this place before, and neither did any of his friends, who were just starting to recover alongside him. Wario saw the new world around them, and the first thing to reach his mind was none other than My Little Pony.

"I think I've seen this before," Wario said.

Crazy56U: [Wario] "I had a nightmare like this once."

"You have?" Mario asked in disbelief.

"Remember? I was torturing you into watching My Little Pony."

Mario did remember that,

Crazy56U: [Mario] "... (slowly raises foot; abruptly kicks Wario in the shin)"
[Wario] "FUCK (collapses to the ground in pain)"

but he still couldn't figure out where they were. Then the fear of being where the show took place reared its ugly head.

"Are we in My Little Pony?"

Crazy56U: [Mario] "And can death come any swifter?"

"You mean where it takes place?" Wario asked, and was answered with a nod from his rival.

"Probably."

Mono: *You're the fucking brony here, you should know.*

"Nah. Maybe we're on Isle Delfino," Peach said.

"Or Pinna Park," Yoshi said.

"Or Whimsyshire," Luigi said.

Mono: Or [insert other place in the Mario Universe here].

Crazy56U: Or Detroit.

"I don't even want to know," Mario said. "But I sure hope it's not some place evil."
Near them, Twilight Sparkle, a unicorn who was the main character in My Little Pony, stood, having noticed the gang of humans (and one non-human creature,

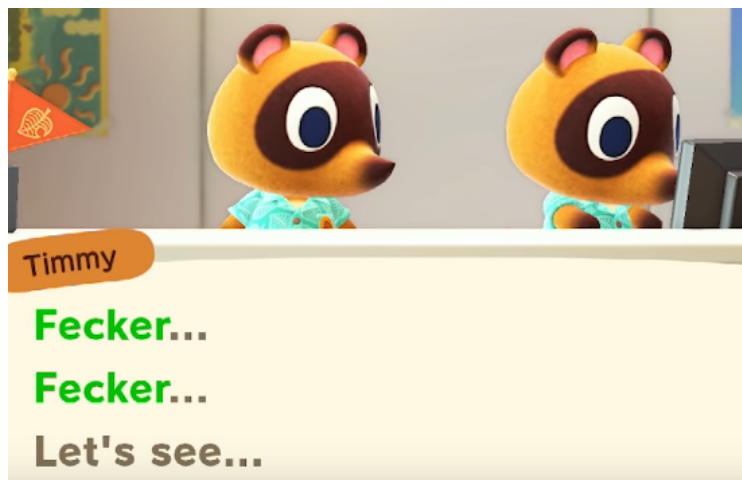

Crazy56U: Wario.

which was Yoshi).

Mono: *REALLY, I THOUGHT PEACH WAS THE NON-HUMAN ONE!*

BittplexMutt: Yoshi wishes he was a human though.

"Oh, my Celestia!" she said. "Who are these individuals?"

Crazy56U:

Behind her was a pink pony with puffy magenta hair-Pinkie Pie, to be exact. "They sure don't look like ponies!"

"They're not ponies at all," Twilight said.

Mono: [Rainbow] "Umm... we do have eyes ourselves, you know?"

"We got to get them out of here!" said Rainbow Dash, a light blue Pegasus with rainbow hair, hence her name.

Crazy56U: We interrupt *Mario Goes to Hell* to bring you *The Conversion Bureau*, because I guess Rainbow wants to be racist towards humans (and Yoshi) again.

"Are you sure? They look pretty nice to me," said Applejack, an orange pony with yellow hair.

"You think they are?" said one more of the ponies, a shy and timid yellow Pegasus named Fluttershy.

"How is this possible? There are no creatures like these in Equestria!" said the last pony, a white unicorn named Rarity.

Crazy56U: Plumbers are a myth. Confirmed.

Now that this talk was finished, Twilight decided that the best time to meet up with these non-ponies was now.
Meanwhile,

Crazy56U: Everything was fine with the timeline until one day, in the present....

BittplexMutt: "Everything was up in flames."

Mario kept looking around in hopes of finding out where they were.

Mono: In... My Little Pony. You just figured that out...

"I've got a bad feeling about this."

Crazy56U: Suck it the fuck up, Mario, if I had to put up with the last fucking fic this week, you have to put up with *this fuckery*.

By the time he was finished with this statement, Twilight and the others had arrived where Mario was.

BittplexMutt: With torches at the ready.

Then Mario looked over and saw them-the six main ponies of My Little Pony: Friendship is Magic.

Crazy56U: [Mario] "... .. (quietly lowers onto the ground; curls into the fetal position; begins rocking)"

Now Mario realized that they were,

BittplexMutt: "-trapped in a nightmare."

indeed, in the world of My Little Pony, and he couldn't believe his eyes.

Crazy56U: [Mario] "(still in fetal position) *it's not real... this is all a dream... it's not real... everything is fine... everything is okay... it's not real...*"

Mono: "Then, Mario began to devour mushrooms to calm himself down."

"So where are we?" Luigi asked.

"Mama mia!" said Mario in response to seeing the ponies. "We are in My Little Pony!"

Crazy56U: One day, in the present: a terrible thing happened!

BittplexMutt: Mario then began freaking out and attacking the ponies.

Wario didn't believe this, but then he turned around and his eyes shot open in a flash. He was right about what he said. Then the realization came to Luigi, Peach and Yoshi, who had not believed Wario at first, but once they got a look over at the ponies, they began to.

"Who... who are you?" Twilight asked.

"We're humans! Don't you know anything about them?" Wario asked, but Mario put a hand over his mouth so he wouldn't insult them anymore.

Mono: [Twilight] **"*rubs temples* Oh God, there come the Flash Sentry flashbacks..."**

BittplexMutt: [Twilight] **"Yeah, there's a whole series dedicated to them."**

"I'm so sorry," said Mario to the ponies. "He's right, we are humans, but we're not as bad as you think.

Mono: **Yeah, except for the literal villain that is standing right next to you.**

BittplexMutt: **"Except for Wario. He's a dick."**

I'm Mario, and I came here with my friends Luigi,

Mono: **Luigi has apparently been cut off from the family tree now.**

BittplexMutt: **He's probably talking about another Luigi.**

Peach and Yoshi. And this guy's my rival, Wario."

Then the ponies began to introduce themselves.

"My name is Twilight Sparkle," Twilight said to Mario as Yoshi went up to Pinkie.

Pinkie showed a hoof, gesturing to shake Yoshi's hand, so Yoshi started to, but Pinkie playfully pulled her hoof away.

Mono: **C'mon, author, you knew Pinkie would've gone for the electrical buzzer in this scenario!**

BittplexMutt: **Or the party cannon.**

"Fooled you, I'm Pinkie Pie!" she said.

"Good one," Yoshi responded.

"And I'm Rainbow Dash, and I can clear the skies in ten seconds flat," Rainbow said.

Mono:

BittplexMutt: Are we redoing the pilot?

"And my name is Miss Rarity," Rarity said to Wario, who instantly fell in love.

"Are you rich? Cause I'm rich! We should go out!" Wario said, sounding a bit obnoxious to Rarity.

"Uh, maybe later," Rarity responded, as she was not exactly interested in the idea.

Mono: Yeah, we... we got that...

BittplexMutt: [Rarity] "Oh dear god... why me?"

"The other ponies are Fluttershy and Applejack," Twilight mentioned. Yoshi looked over at the orange pony and told a random, real-life fact.

Mono: [Yoshi] "Mario tosses me off of cliffs on multiple occasions!"

BittplexMutt: [Yoshi] "I can turn people into eggs! Wanna see?"

"Hey, did you know you're named after a cereal?" Yoshi asked. "Or is the cereal named after you?"

Mono: [Applejack] "Yep, I instantly regret talking..."

BittplexMutt: [Applejack] "If I say yes, will you go away?"

"Now there's an awkward moment," Applejack said.

"Are you Fluttershy?" Luigi asked to the yellow pony.

"Yes, I am," said Fluttershy.

The fact that she was equally as timid as he was sent Luigi straight into love.

Crazy56U: (upset) *Luigi is going to a fuck a horse, isn't he.*

BittplexMutt: This seems to be a norm here.

He was unable to admit it, but it was clear, and she could see that.

"Don't say it... don't say it..." Luigi kept thinking, over and over, but he eventually lost the urge and went back to Mario.

"Hey, are you okay?" Mario asked.

"I think I'm in love," Luigi said, and Mario was quite surprised over hearing this. He thought Luigi already had a love interest,

Crazy56U: Daisy is a myth. Confirmed.

Mono: Nah, she's taken. Chuggaaconroy has her already.

but he otherwise accepted this.

Then Mario remembered the portal that brought them here.

BittplexMutt: And quickly ran around to find it.

He looked around once more.

"Where is it?"

Crazy56U: (points in a nonspecific direction)

The others were skeptical. "Where's what, Mario?" Pinkie asked.

"The portal," Mario responded.

"What portal?" Rainbow asked in complete disbelief.

"There was a portal that brought us here," Peach explained.

Crazy56U: [Twilight Sparkle] "(scoffs) Yeah, okay, sure."

"Yeah, wherever here is!" Wario responded.

"That would be Equestria," Twilight said.

Crazy56U: [Twilight Sparkle] "You dumb fucker."

"Okay, thanks for telling us," Luigi said.

Mario realized that the entrance that brought them to this alternate world-which he and his gang believed would also be the exit-was nowhere to be seen.

Mono: Mario is a bit slow on the uptake, it seems. But what would you expect from someone who hits bricks with his head all day?

It had disappeared just after they arrived.

"It's gone!"

"Have you tried calling it back?" Yoshi asked.

Crazy56U: [Mario] "...Yoshi, I don't think that's how that works..."

Mono: [Mario] "Hey, portal! Come back here, you fuck!"

"You don't understand!" Mario said. "That portal that brought us here... it's gone! There's got to be a way back to the Mushroom Kingdom!"

Crazy56U: Yes, there is! (points in a nonspecific direction) Over yonder!

The other ponies had never heard of this place before and only one of them could respond.

Mono: [Rainbow] *"*whispering* Twi, I think these guys are nuts..."*

"Where? The Mushroom Kingdom?" Applejack questioned. "You know, I've never heard of that..."
"That's where we live!" Yoshi said.

Crazy56U: [Applejack] *"(annoyed) Did I ask? Did I legitimately ask?"*

"We need to go back there," said Mario.
"You are in quite a difficult situation," Twilight explained.

Crazy56U: [Twilight Sparkle] *"Mainly because I do not care."*

"I am highly experienced when magical spells are involved, so there is a staggeringly high chance that I will be able to help you return to the Mushroom Kingdom."

Mono: And then they got sent to Canterlot High instead.

"Just open another portal!" Wario said.

Crazy56U: [Twilight Sparkle] *"(annoyed) Oh, okay, sure, your majesty, (pulls out a jar of moonshine) let me just pull a portal right out of my ass. (pops open jar; chugs jar)"*

[Wario] *"(satisfied) Now, that's what I'm talking about!"*

[Mario] *"Uh, Wario, she was being sarca-"*

[Luigi] *"(calmly places hand on Mario's shoulder) Don't bother."*

"I'm afraid none of the spell books that I have read in the past have anything to do with portals," Twilight said.

Mono: But you are able to build a machine to permanently make one appear in a mirror, so that's a fucking lie.

BittplexMutt: She would rather not let Sunset suffer dealing with them.

Mario stood, completely shocked over this. This could only lead to one possible conclusion.
"You mean... you can't?!" Mario asked.

Crazy56U: More like "won't", bro.

"Unfortunately," said Twilight.
Mario looked over at his friends and fell to his knees in despair and fear.
"WE'RE TRAPPED IN EQUESTRIA!"

Crazy56U: And then Twilight proceeded to point and laugh at Mario viciously as he began to cry.

Mono: Doot-doot-doot-dodododododo-dododooooo...

He couldn't believe it. Neither did any of his friends. But it was very true. After spending what felt like a lifetime in the Mushroom Kingdom, Mario was facing his biggest and worst fear... having to live in the setting of his least favorite show.

CHAPTER 2

"Twilight's wrong. I know it!

Crazy56U: Mario, remember who you're talking about.

There's got to be some way out of here!" Mario said to himself. It was around 12:30 in the morning and he and his friends were forced to sleep in Twilight's house.

Mono: As opposed to the billions of other places they can rest...

BittplexMutt: Apparently, Spike does not live with Twilight anymore.

Mario and Luigi were unable to sleep as Twilight attempted to find more information in her spell book.

BittplexMutt: They haven't slept in days.

Mario saw what she was doing and believed she wasn't trying hard enough.

BittplexMutt: Ah, so Mario's got a death wish.

"Twilight, let me see that book," Mario said, taking the book from her.

"What? No! I need it for..."

"I don't care!"

Looking through page after page and skipping spell after spell, Mario was hoping and praying that he would find something, somewhere. "Portals, portals, portals! Ah, here it is: Portals."

Mono: Now you're thinking with portals.

BittplexMutt: "And here's Portals 2."

Crazy56U: DISCLAIMER: Portal 3 will never happen.

Once he had gotten to the right page, he began to read it to himself with Luigi managing to listen in.

"Despite the powerful magic logic assigned and protected by Equestria, summoning portals is extremely complicated to the point of resisting the laws of physics due to crossing over places as close as another room or as far as alternate universes. As a result, such spells can only be successfully done by advanced magic users that are not equines.

Mono:Then who the fuck made the mirror to CHS, then?

BittplexMutt: A drunken god?

Technically speaking, no matter how hard the average unicorn tries, he or she... cannot..."

All of this information was lowering Mario's energy and making him tired. Putting the book down, he yawned into his hand.

"Mama mia, what time is it? I don't have that much time for... for a justification..."

With that, he stumbled to a nearby couch, lay down on it and went straight to sleep.

Mono: Our hero, everybody!

Luigi was concerned and tried to wake his brother up.

"Mario? Mario, wake up! Wake up!"

His attempts were unsuccessful. Nothing could wake Mario up but the soon-to-arrive morning. Luigi could only sulk. "He's gone,"

Mono: Jesus Christ, he's not dead...

he said, and then he got tired as well and rubbed his eye. "And... so am I." With that, he just lay down close to his brother and fell asleep as well. Twilight, who had caught this, silently took her book back with her telekinesis. That was when things got weird. Mario and Luigi had an unusual dream...

Mono: And then Mario and Luigi: Dream Team happened.

"Hey! Mario, Luigi!" a familiar voice called.

BittplexMutt: It was Luigi. He really wanted to be in this fic.

The two woke up on the spot and looked up.

BittplexMutt: [Mario] "Is that Jesus?"

Their arch-nemesis, Bowser, was right in front of them-and he was in a strangely musical singing mood that seemed so out-of-character.

"You guys are busted, your lives have rusted, it's all because of you not liking that show!"

Mario and Luigi looked at one another in confusion, not knowing what he was talking about.

"Are you light-headed, have your eyes reddened? I'm afraid it's time for you hobos to go!"

"Go home?" Mario asked, but Bowser poked him in the nose and he had to rub it in pain.

"No, someplace worse!" the monster said as his song began for real and he began the chorus.

"You guys are phonies, nobody's as stupid as you!"

You don't like ponies, the pony-hating population's few!

Mono: Ummm... n-no, no it isn't... go away, author.

Think of the bronies, your life rentals are now overdue!

You don't like ponies, the pony-hating population's few!"

Once this chorus had finished for now, he got right back to singing.

"You're doing something wrong!"

"Something wrong?" Luigi asked.

"That's not true!" Mario insisted.

"Have you guys been playing Pong?"

Mono: *W-what the fuck even is this song?!*

"I'm just a guy and so are you!" Then Mario began a variation of the chorus along with Luigi.

"We are not phonies! What do you not understand?"

My Little Pony, is not in the least bit bad!

You are the phony, and making everyone sad!

My Little Pony, is not in the least bit bad!"

"I'm just a normal guy, that's all!" Mario said.

"Dude, that's, like, no royal ball!" the villain responded.

"You'll be hated by the whole wide world,

Including every guy and girl!"

Mono: Heh heh heh heh, yeah, just take a look at the sales numbers...

Mario gasped when he heard this. He couldn't imagine such a harsh result for not watching My Little Pony.

Mono: Strange, I normally only get a harsh result for *watching* MLP...

The chorus played again.

BittplexMutt: And it never stopped.

"You guys are phonies, nobody's as stupid as you!
You don't like ponies, the pony-hating population's few!
Think of the bronies, your life rentals are now overdue!
You don't like ponies, the pony-hating population's few!
I'm being dead serious here, Equestria is your home!"
When he heard this, all Mario wanted to do now was kill himself,

Mono: Yep, murder yourself because you don't watch a show! That's a great idea!

BittplexMutt: Not because he was in Equestria but because of that stupid song.

but he didn't want to.

"You got to conquer your fear and be a brony, start the show!"

The chorus played once more.

"You guys are phonies, nobody's as stupid as you You don't like ponies, the pony-hating population's few!

Think of the bronies, your life rentals are now overdue!

You don't like ponies, the pony-hating population's few!"

The song continued, with half of the chorus lines left in with what Bowser said next.

"You got to take what I say, nobody's as stupid as you!"

"And let me guess. Throw it away?" Mario asked.

"Your life rentals are now overdue!

"If you do, Peach and Wario will hate you, nobody's as stupid as you!

No longer will your deaths await you,

Mono: W-wait, so now they *aren't* going to die?!

the pony-hating population's few!

Think of the bronies, your life rentals are now overdue!

You don't like ponies, the pony-hating population's few!"

The song was almost over, with the last line of the chorus remaining in the whole song.

"The pony-hating population's few!"

Now that this song was over, Bowser laughed evilly.

That was when Mario and Luigi sat up, both screaming at the same time. Once they stopped, they looked around and calmed down. They were still on the couch in Twilight's library, but now it was closer to morning. It was all a bad dream. They never really saw Bowser.

Mono: Bowser is a myth. Confirmed.

To top it all off, Twilight was now standing toward them.

"Are you humans okay?" Twilight asked.

"Yeah, but we're a little freaked out," Luigi said.

"We had this horrible dream!" said Mario. "It was weird, and scary, and-"

Mono: Completely fucking nonsensical?

"Mario, I don't think we should tell her," Luigi responded.

BittplexMutt: [Luigi] "It was really stupid anyway."

"I can't remember it at all."

BittplexMutt: Neither can I.

"Me neither. How about we meet up with our friends now that it's over?"

Once Mario had finished speaking, the three went to meet up with their friends. What Mario and Luigi had just experienced was one of those moments that went unmentioned after it was over.

CHAPTER 3

"So let me get this straight. We're stuck here?!" Yoshi asked,

Crazy56U: [Luigi] "(annoyed) *You have known for an entire chapter, why are you asking this NOW?*"

shrouded with intense disbelief and denial over what he and the others had heard the day before.

"This is even worse than getting captured!" Peach said, also not believing in her boyfriend.

"There's got to be a way out of here!" Luigi said. "We can't just be here forever!"

Wario looked over at Twilight, who was levitating a spell book toward her face with her horn glowing.

To Wario, the fact that her horn glowed was just incredible. He reached over to it and grabbed it, cutting off the power.

Mono: "Twilight didn't take kindly to this and promptly blasted Wario in the face."

Her reaction was harshly negative.

"Hey!" "How does this work?" Wario asked.

"Wario, don't do that!" she said.

"But how do you do it?"

"All unicorns possess magic, so we can use it in our horns in our own free will. Everypony knows that!"

Wario couldn't believe what she just said. He had never heard anyone say "everypony" before. He felt as though humans didn't exist. "Every... pony?"

"That's what I said, yes."

"If you're all ponies, then where did all the humans go?" Wario asked the most ridiculous question that could ever be asked in all of Equestria

Mono: Nooo, that would be "Why is Luna so goddamn useless?"

-to Twilight and her friends, at least. "Are they, like, mythical?"

"Wario! Don't ask them that!" said Mario. "They don't know what you're talking about, do they?"

"No, we don't," Rainbow said.

"I think it's because this is some alternate universe," Yoshi said, "where ponies exist, but not humans."

Mono: Did Yoshi just fucking predict EQG?

"I guess it is," said Mario.

"Wait, then how are we still alive?" Wario asked.

Mono: Yes.

"That's easy. Humans don't live here!" Yoshi said.

BittplexMutt: "They're supposed to be in Equestria Girls."

"But I don't know why THAT'S possible."

BittplexMutt: Magic.

Then there was a huge earthquake and evil laughter. Lightning flashed and thunder exploded as though it were a giant nuclear bomb. Everyone was in fear. "What happened? What's going on?!" Luigi asked.

"It could only be one thing," Twilight said.

Mono: [Twilight] " *puts on war paint* The nuclear winter has begun..."

BittplexMutt: "Nightmare Moon."

Then there was more evil laughter. The eleven heroes looked up and saw a huge, monstrous, maniacal monster laughing evilly as lightning flashed all around him.

"Prepare to be destroyed!" he said.

"Mama mia!" Mario and Luigi said at the same time, both of whom extremely scared of what they heard and saw.

"What is that?!" Peach asked.

"I'm Discord!" the monster-looking creature boomed.

Mono: "Being way too over-dramatic for some reason."

"He holds the title of the God of all chaos, and he has been trying to destroy Equestria for years," Twilight explained. "This Draconequus-"

"I don't speak Korean!" Yoshi joked.

Crazy56U: That's racist. (ding!)

"-emerged from his stone prison long ago and continues to threaten our home even to this day," Twilight continued. "The only way to stop him is to find and use the Elements of Harmony to destroy his power.

Mono: Well, either that or reforming him and then threatening to abandon him once he got used to friendship...

Six magical stones of Magic, Generosity, Laughter, Kindness, Honesty and Loyalty. Once he has been defeated, he will revert to his stone form and the land of Equestria will be saved-unless he breaks out again."

"I... don't know about this," Luigi said.

"So says the one who defeated about 100 ghosts in his mansion with a vacuum at least twice," Yoshi said.

"He did?" Fluttershy asked in fear.

"Yes, but I'd rather not talk about it," Luigi said.

Mono: The PTSD flashbacks to Nana's Room still haunt him to this day.

"The Elements of Harmony are in Princess Celestia's castle," Twilight said.

BittplexMutt: To the castle!

"We must go there and see if they are present."

"Princess Celestia?" Wario couldn't believe what Twilight had told him. "I bet she's even cuter than Peach!"

"I'd rather you mess with her than you mess with me," Peach responded.

At least one hour later, the eleven heroes had arrived at Princess Celestia's royal castle. Mario and his friends were absolutely amazed. They had never seen anything like it. The eleven went up to the door and Twilight pushed the bell. The door opened entirely; they entered and started looking for the Elements of Harmony. The first being they met was none other than Princess Celestia, the white Pegasus-Unicorn hybrid princess. Yoshi could barely believe this as he fell straight into love.

Mono: Yep, everyone but Mario and Peach is gonna fuck a horse in this fic!

"Hey! Wow!" he said. "Is that Princess Celestia?!"

"Why, yes," Twilight said.

"You have the best mom in the world, Twilight," said Yoshi, but Twilight didn't take this compliment too positively.

"Best mom? Yoshi, she's my teacher, not my mom!" Twilight said.

Yoshi was a bit embarrassed over what he had just learned. "Oh. I'm so sorry..."

"You are forgiven, unfamiliar," Celestia entered the conversation.

"By the way, I'm Yoshi," the green dinosaur-like guy told her.

Mono: [Celestia] "*chuckles* Did it look like I asked?"

BittplexMutt: [Celestia] "Good for you, I don't care though."

"And we're looking for the Elements of Harmony," Twilight said.

"Yes, they're in here," Celestia replied. She turned her head and her horn glowed a soft red as she levitated a chest toward her. She magically opened it, but to the shock of everyone else along with her, the Elements weren't there. They all gasped.

"Oh no! They're gone!" Mario said.

"Discord must have taken them again!" Twilight said.

"Again?" Yoshi questioned.

Mono: And then Return of Harmony happened once again and Crazy had a meltdown.

"I think there was an episode of My Little Pony where Discord took them," Wario said. "And at the end of that episode, you got them back, but now he's taken them again."

"You don't say?" Mario asked.

Outside, Discord was causing chaos all over Equestria. Beforehand, he had stolen the Elements of Harmony and was keeping them for himself to ensure that no one would ever stop him. "I apologize, but you're on your own," Celestia said. "You must defeat Discord yourself."

Mono: "I'm going to go to my emergency bunker and eat cake for the remainder of this fic."

The heroes didn't believe this, but it was a full-blown fact that they had to accept. They quickly ran out of the castle just as Discord grabbed one of its towers and crushed it into rubble before throwing the remains behind him.

BittplexMutt: And soon they were buried in the rubble.

This was absolutely unbelievable to everyone, but especially Mario. Getting stuck here was one thing, but having to stay until he defeated Discord was another.

Mono: And unfortunately, there are no mushrooms to find anywhere.

CHAPTER 4

Back in the town, the heroes attempted to figure out something to defeat Discord, or at least get the Elements of Harmony back from him, while simultaneously having to watch his chaotic pranks.

Mono: His chaotic pranks of tearing down the castle.

"I can't believe we don't have those Elements!" Luigi said.

"There must be something we can do," Wario said. "How about we fight him?"

"I don't know," Peach said. "Maybe he's too strong for anybody to go after him."

"We need something else that can defeat Discord since the Elements aren't here with us," said Yoshi.

"But what?"

Then, like an answer to the heroes' fears, there was a gigantic sneeze that caused an earthquake.

Mono: [Wario] "That's it! We have to sneeze!"

They were unable to believe their ears. They all assumed that one of them was the one who sneezed, but this thought was untrue.

"You okay, Princess?" Luigi asked.

"That wasn't me," Peach said.

"Really? It sounded like you. But it wasn't?!" Wario asked. "I swear, I almost felt something through my overalls!"

"Maybe it was Pinkie," Yoshi said.

"Me? Who, me?" Pinkie asked.

"No way. If she sneezed, you'd see some confetti come out of her," Rainbow said.

Mono: Because Pinkie is filled with confetti.

"Oh, right. Then maybe it was Mario!" Wario said to Mario's confusion.

"Me? No! I don't sound as girly as that!"

"Then you don't think your voice is so high, it sounds like a girl?" Wario said. "Cause that's what it sounds like!"

"It's not coming from anyone over here," Peach said. "But I do know where it's coming from. Over there."

They turned around and saw a pony, who had a pink body and purple hair, sneezing loudly and powerfully as a large pepper shaker poured its black... pepper over her, courtesy of Discord. The size of the shaker was eye-widening, at least to Yoshi. He hadn't seen anything like that before. It gave him the perfect idea: if he could use the pepper shaker to make one of his friends sneeze, maybe its force would be enough to destroy Discord.

Mono: I WAS JOKING!

Aside from being nice and playful in moderation, Yoshi did have a mischievous side that he knew would be put to a good use.

As Discord put down the shaker and left to cause more havoc, Yoshi ran to the shaker and grabbed it. He managed to pick it up and carry it over to the others; how was unquestioned. None of his friends knew what he was up to until they saw what he was holding, at which point they cringed in fear.

Mono: Ah, yes, everyone know the Mane 6 are afraid of pepper...

Mario was so nervous that he just backed off and ran to hide somewhere.

"Who's it going to be?" Yoshi asked as his friends looked at him in disbelief and all reacted negatively to when he turned his head to each and every one of them.

"Oh, no way!" Rainbow said.

"You can't do it to me! It will be the most inelegant minute of my life!" Rarity said.

Mono: ...Sneezing. The most inelegant minute of your life.

"I agree," said Peach.

"Please, don't," Fluttershy said.

"Yeah, don't do it to me, Yoshi," Luigi said.

"Would you get that thing away from me?!" Wario blurted.

"You got to be kidding!" Pinkie said.

"Yeah, it doesn't look so good," Applejack said.

BittplexMutt: No Applejack, it's "I don't feel so good."

Mono: Again, why is everyone so afraid of goddamn pepper all of a sudden?

"Don't even think about it," Twilight said.

Yoshi started looking around for Mario, who had somehow disappeared from the situation. "Hey! Where's Mario?" Yoshi asked.

"He went over there," Rainbow said, pointing her fingerless front hoof behind her.

Mono: As opposed to her hoof with fingers.

Yoshi knew that she was talking about the side of the town hall, so he put down the shaker and walked over there. There, he saw Mario, who was looking a bit paranoid as he crouched in fear.

"Mario, what's wrong?" Yoshi asked.

"I know what you're up to," said Mario.

"You think I'd make one of us sneeze with that giant thing?"

"Yeah. That's the problem."

"Well, since none of the others want me to do it to them, I was thinking maybe..."

"No!"

"That would..."

"Don't say it!"

"Leave us with..."

"Yoshi!"

"You?"

Just hearing this left Mario shocked. He had never heard of that idea. It was the only reason he begged Yoshi not to finish the sentence. Yet he did with nearly no remorse. It was clear: Yoshi wanted to make Mario sneeze, something nobody had ever seen before. Mario himself could never remember sneezing, nor could anyone else.

Mono: It wasn't programmed in their animations.

Nor could he believe he ever caught the urge to do so.

"What?!"

"I'm sorry I said that," Yoshi said. "I thought it'd work."

"Work? Work?! Yoshi, you can't do it to me! I've never sneezed from pepper at any point, ever! In fact... I've never even sneezed!"

"Ever?"

"You know why? Because I can't, that's why! I'm Super Mario, and nobody has ever seen, heard or talked about a Super Mario sneeze. I don't care what you tell me! 'We got to kill Discord, but we don't have the Elements of Harmony. But I got this huge-as-heck pepper shaker from Discord, so let's make Mario sneeze.'"

Mono: [Yoshi] "Yeeeah, when you put it like that it does sound like a load of bullcrap..."

Blah blah blah! I'm too powerful to do something so stupid. Maybe I'd cause a whole chain of deaths! Just imagine the horrors if one of us were to sneeze!" "Actually, I think Luigi sneezed a few times," Yoshi recalled.

"Sure, maybe."

"And remember that time Bowser sneezed? That was awkward, wouldn't you say?"

"Well, sure, maybe one of us has sneezed before, but that one of us was NOT and is NOT me! I never sneezed, that's what makes me so special! I may be human, but I'm not going to sneeze, ever!

Nobody can make me sneeze, not Yoshi, not Wario, not even... anybody!"

Mono: Okay, what is it with this weird obsession for pepper and sneezing already you're putting me off!

"Sorry, Mario. I don't think any of that is really true. You're just paranoid," said Yoshi, and he grabbed Mario and pulled him toward the other heroes.

"No, please! Don't do it, Yoshi!" Mario begged, trying to convince Yoshi not to do such a thing, to no avail.

"Everybody's got to sneeze someday, Mario!" Yoshi said. "And so... do... YOU!"

He ran to the oversized pepper shaker and picked it up, somehow enduring its mass.

"Hey, I know what you're going to do," Wario said. "You're going to make Mario sneeze!"

Mono: [Yoshi] "That... I literally said that that was my fucking plan..."

"Yep!" Yoshi said.

"Ha! That's hilarious. No one's ever seen that happen before!" said Wario.

"That must never happen," Mario said.

"You've got to be kidding," Wario said. "First you witness your brother sneeze at one of the worst times for him to ever do it. And now the moment's coming to you. And what do you do? Freak the heck out! What's the matter, Mario? Afraid of your own sneeze?"

"No way!"

"Then how come you never sneezed in your whole, wide life? Oh, let me guess. You can't! Ha-ha-ha!"

"Maybe I can, but I don't want to! Like I said, nobody can make me sneeze no matter what they do to me!"

"That's a good one, dude! Everybody who's everybody's sneezed before."

"Like you?"

"Well, actually... no. But I'm on your side. You shouldn't sneeze! No matter what you do, don't let that thing get you!"

"Are you talking about the pepper or the sneeze that'll come up from the pepper?"

"Actually, both. When he tries to make you sneeze, don't! You got to hold it back!"

"You're right, Wario. Against me, Super Mario, not even a sneeze can stand a chance! Right?"

"Come on, Mario! My arms are hurting just holding this thing!" Yoshi said.

"Are you sure that giant pepper shaker you got from Discord's going to work, Yoshi?" Luigi asked.

"It has to," said Yoshi. "Mario has never sneezed, maybe because he's so powerful. So if the power of his upcoming sneeze doesn't kill Discord, it will cause one of three things to happen. Those three things are A, to cause a chain of deaths, B, destroy the world, and C, cause a chain of deaths that will eventually destroy the world!"

"We have no choice," said Twilight. "Begin!"

Holding the shaker as though it were a bazooka, Yoshi started shaking large amounts of pepper directly into Mario's face, knowing for sure that it would work. Unbeknownst to Yoshi, Mario knew exactly what was going on. Due to inhaling the pepper that his so-called friend was torturing him with, a powerful sneeze materialized and challenged him.

Crazy56U: Fun fact: Apparently sneezing / trying to hold in a sneeze is a fetish. This is technically a fetish fic now.

"Ahhh... Ahhhhhh..." he began to inhale over and over to indicate what was going to happen.

BittplexMutt: You know, in case you didn't know what a sneeze is.

The fact that he was going to sneeze was just bad news to Mario.

Crazy56U: But not the *worse* news... That would be this:

BittplexMutt: I remember that, it was such a tragic day.

He had never done it before, and if he ever did, there was a high chance it would be the cause of disaster. He knew he had to stop it. He put his left hand close to his mouth and held his right forefinger right under his nose in an attempt to stop the sneeze. But when he did, Pinkie ran over to him with a look of resistance on her face. She grabbed his hands, pulling them away from his face to his confusion. She was trying to convince him not to fight the sneeze. Mario continued to inhale and just couldn't respond to her actions.

"Ahhhhh... Ahhhhhhhh... Ahhhhhhhhhh..."

He was losing resistance already. Pinkie accepted the fact that Mario could just barely stop his sneeze and ran out of the way. She had let go of his hands now, but he had little to no resistance against the sneeze. For that reason, he didn't stop himself again. Everyone else backed up, as they knew this was going to be a big one. At that moment, Discord was wandering around and looking for that giant pepper shaker he used earlier. He heard Mario about to unleash his sneeze and couldn't do anything about it. He couldn't even speak.

"AHHHHHHH... AHHHHHHHHH... AHHHHHHHHHHH..."

As Mario's inhales continued as though they would never stop, The others looked on in fear, each with their own reactions. Yoshi put down the pepper shaker and ran off for somewhere to hide. Luigi and Fluttershy covered one another's eyes. Peach didn't do much despite turning away with her hands over her eyes. Pinkie jumped to the ground, hooves over her ears. Rainbow just rolled her eyes at her friends as though she had seen this before. Twilight turned her head, putting one hoof up to block her view. And Wario got out his music player and turned it on full blast so he wouldn't hear the sneeze. Even with that idea, it wasn't much help; this sneeze would be heard from all over Equestria. Mario took one more giant inhale, finally losing the battle, and it finally came. Mario sneezed. And it wasn't just a sneeze. It was the sneeze: the big one, the King and Father of all sneezes, the sneeze that would have been impossible had it not been for Yoshi, the sneeze from the powerful Super Mario.

"AHHHHHHHHHHHHHHHHHHHHHHHHHHHHHH-

Crazy56U:

CHOOOOOOOOOOOOOOOO!"

The sneeze was just as huge as Yoshi thought it would be. It caused a horrible earthquake

Crazy56U: Millions died.

and blew everyone backwards to the ground, including Discord. No matter how far a pony would be, they could hear it. Every pony heard it, including Princess Celestia, who had all the windows in her castle shut at the time.

Crazy56U: And *all of them* shattered due to the sneeze. Needless to say, Celestia was miffed.

Even the sneezing pony the heroes encountered heard it, and not even she could compare to it. It was the biggest sneeze that anyone in Equestria, citizen or otherwise, had ever seen or heard. Yes, Mario was extremely powerful, and it was no wonder he sneezed so rarely. The fact that a person like him was even capable of such an ability was just unbelievable. That one sneeze was exactly why he almost never did it. And to top it all off, Mario stood there in a daze, but recovered quickly and saw the chaotic incident. All he had to say was, "Mama mia..." in a very guilty voice, and he proceeded to rub his nose with his right forefinger; the same one he used in an attempt to stop the sneeze. Then starting with Rainbow, everyone recovered and stood up.

"Gesundheit!" Rainbow said to Mario, who didn't exactly know what she said, but accepted her response.

"Oh, my goodness," said Fluttershy.

"Wow. Bless you, Mario. Now I know why you shouldn't sneeze, ever," Luigi said.

"Yeah! You could have killed us all!" Pinkie said.

"It was just so... unroyal," Peach said. "I'm glad it's over now."

Yoshi returned from his refuge-behind Twilight's house, where it was the farthest away from Mario's big sneeze, and said, "So? Where's the chain of deaths? Did it start yet?"

"There was no chain of deaths," Wario said. "He'd have to be a god or something. But still, that was a real mean one."

"I am so truly sorry, guys," said Mario. And Yoshi, you better not bring this up again, or else. I won't, I promise. And I'm sorry I had to do it to you, Yoshi said, and Mario decided to just forgive him.

Discord was the last to speak, and his dialogue mainly consisted of evil laughter and a teasing review of what had happened.

You think that can stop me? Ha! Even a big sneeze can t kill me off! Discord taunted.
Oh no! How is that even possible?! said Mario.
"He's 99% immortal," Twilight explained. "Only the Elements of Harmony can kill him."
"How about fighting him so he gives us the Elements?" Wario asked.
"Go for it," said Mario.

CHAPTER 5

Wario stood right in front of Discord, ready for what looked exactly the worst battle of all time. "You're going down, you dragon-looking thing," he said.

"Good luck with that, stupid non-pony!" Discord roared.

"Human."

"Whatever!"

The others were looking on, all of them wanting Wario to win for some reason. Mario wasn't exactly excited.

"If Wario dies, then you won't cheat on me, will you?" he asked Peach.

"I wouldn't if I broke up with you," Peach told him.

"Hey, Rarity!" Wario said. "If I win, you'll marry me, right? RIGHT?!"

"Unacceptable! I reject your affectionate attitude!" Rarity said.

"Okay, this fight's what I call a no-holds barred one," Yoshi said. "If Wario wins, he has to get the Elements of Harmony. If Discord wins... well, we're doomed."

"What if there's a tie?" Wario asked.

"You get the Elements, but we're doomed!" Discord said.

"No third options! There will be no tie!" Yoshi said.

"We're doomed," said Mario.

Yoshi said nothing for a moment, then got what appeared to be a handgun.

Crazy56U: Yoshi is about to give into bloodlust, I am very much concerned right now.

BittplexMutt: [Yoshi] "You better run and outrun my gun."

"3... 2... 1... GO!"

Crazy56U:

He shot it

Crazy56U: "It" being the concept of reality.

(or thought he did),

BittplexMutt: Yoshi's bloodlust has come to an end.

and though all that came out was some water that hit a nearby pony, Discord and Wario immediately began the battle, with the latter's "friends" watching and cheering him on.

Wario was punching and kicking at Discord as many times as his muscles could take it, but it was useless.

Crazy56U: Man, Wario got nerfed to *shit* in the latest Ultimate update, hot damn...

The Draconequus showed absolutely no signs of pain. He threw up his arm and briefly shocked Wario with a blast of lightning.

BittplexMutt: The part of Discord will be played by Emperor Palpatine.

"Physical injuries can't hurt me!" the monster taunted.

BittplexMutt: But words can definitely hurt him.

Upon this realization, Wario got out his motorcycle-which he had with him for some strange reason that nobody ever questioned because they wanted to just forget about it-and revved it up.

BittplexMutt: And now, Mario Kart.

Discord, however, smiled evilly as though he knew what his reaction would be. Wario began to speed his cycle into Discord and hit his leg, but nothing remained behind, not even a bruise. He backed up and tried again, but there was still no effect. This repeated several times, so Mario (who was watching at the time) got bored and wandered off.

"Uh... yeah. Good luck," he said as he left. "I'm going to, uh... do something else."

Somehow accepting his excuse, the others-except for Pinkie, who stupidly followed Mario-continued to watch the battle. Meanwhile, Mario kept walking as Pinkie hopped right behind him. A bit paranoid, he stopped and she began talking quickly and humorously.

"Remember that giant pepper-"

"Don't even talk about it," Mario warned her. "It's over."

"Seriously, I never saw such a big sneeze since that one time, me and Rainbow Dash pulled this prank on Rarity where-"

"Pinkie! Would you just stop with that, please?! You ever heard of a Moment That's Never to be Talked About Again? I wish what you're talking about would be one!"

"You mean a part of a movie or show that's so weird, nopony ever talks about it again no matter how weird it was?"

"Yeah! Now, as I was saying... I'm kind of worried about Wario."

"You mean that fat guy with the zig-zaggy mustache? And his name's Wario?"

"Yes. I mean, I'm not sure I can consider him my best friend. He doesn't really do anything good. And Peach and Luigi and Yoshi were all hoping that he would win that battle."

"Mario! I know what you got to do!" Pinkie got a great idea. "You have to fight FOR Wario and prove to him just how much you care about him!"

"Well, I'll try, considering how powerful I am. Thanks, Pinkie!"

Mario, now feeling confident and inspired, ran back to Wario and Discord. Wario's motorcycle was now out of gas and could no longer operate.

"Allow me to handle this for you!" said Mario, grabbing the motorcycle and turning over to Discord.

"Discord, stand back... I'm warning you!"

Discord's response was a roar of thunder rather than any spoken dialogue.

"Okay, I warned you!" Mario said. Resisting the heavy motorcycle, he thrashed it right into Discord's face. A giant bang resulted and several pink, red, yellow, green, blue and purple stones fell from Discord as he held his head with a goofy expression on his face.

"Did you win?!" Luigi asked when the motorcycle landed on him, throwing him backward, but he showed no signs of physical injury

Now that Mario had seen the falling stones, he grabbed them before any of them could hit the ground.

"Hey! What are these shiny things?" Mario asked in marvel.

"Shiny things?" Twilight asked. "Mario, you got the Elements of Harmony!"

Mario gasped in delight. His chance was finally underway.

"You mean...?"

"Oh, we mean!" Rainbow said.

"The Elements of Magic, Loyalty, Laughter, Kindness, Generosity and Honesty, and you've saved them for us!" Twilight said.

With her horn glowing a soft purple, she levitated the Elements from Mario. "Discord shall now be reverted back to his stone state forever!" Twilight said.

Crazy56U: Discord is going to be petrified for life! *Happy ending!*

"Me? Forever?!" Discord asked in belief. "What are you talking about?!"

Twilight began to apply the Element of Magic onto her body; the Element of Generosity on Rarity; the Element of Laughter on Pinkie Pie; the Element of Honesty on Applejack; the Element of Kindness on Fluttershy and the Element of Loyalty on Rainbow Dash. A huge ray shot up as Mario put on some sunglasses.

"Hasta la vista... STUPID!"

Crazy56U:

BittplexMutt: And then the Terminator came and killed them all.

The ray shot at Discord, who could only scream, "NOOOOOOOOOOOO!" before turning into a stone statue. Wario looked confused, ran over to the statue and tried to break it apart.

"Come on! I'm not done with you!" Wario said.

"Actually, you are," Mario said.

"What?!"

"We can go home!" Mario said, and he and the others cheered in delight and possible relief.

"Using the Elements, I shall now attempt to create a portal that leads to the Mushroom Kingdom where you belong," Twilight said. "It is extremely powerful, however..."

Another ray shot from Twilight's horn, causing a glowing portal identical to the one from earlier to appear. Mario and the humans (and Yoshi) were about to enter it and leave Equestria for good when Twilight stopped them for a moment.

"Before you leave, Mario, there's something I want you five to have," she said. "And that something would be this."

She levitated a model of the Elements of Harmony over to Mario, who accepted it.

"Wow! Thanks!" he said.

"It is in memory of us," Twilight said. "It will summon a portal if you want to come back here. You are now free to return to the Mushroom Kingdom!"

"Uh... I don't know about this," Mario said.

"What are you talking about?" Yoshi asked. "Remember? You hate ponies!"

"Well, I did, but I sure am going to miss you guys," Mario said. "I don't know when we'll come back, either. Maybe we will, or maybe-"

BittplexMutt: "-nothing will happen."

"Get to what you were talking about!" Wario yelled out.

"Okay, okay!" Mario said. "As I was saying, I don't want to wish to see you again, but I do. I'm just a little uncomfortable about this whole 'Mario liking My Little Pony' thing. The truth is... well, I'm a male. And it's a girl's show. Isn't it?"

"Technically, but nobody has to be a girl to like My Little Pony!" Peach said.

"Yeah. Don't you know that lots of males in the world actually like that show?" Luigi asked, and Mario was so shocked that he could barely respond.

"Wow."

"Yep, that's absolutely true."

Now realizing that he was slowly becoming part of the unintended demographic that was the My Little Pony fandom, Mario was completely shocked. That was when the author's all-time favorite song came in-Happy Together by the Turtles-and it was the exact song that Mario performed for the ponies just seconds later.

"Imagine me and you, I do I'll think about you day and night, it's only right To think about the show you love, watch it tonight So happy together."

The ponies looked at Mario in confusion as they had never heard that song before. Only when Mario's (human) friends decided to join in and sing as well did their opinion of the song change from unknown to unmissable.

"We should come back here, invest a dime (Luigi sang this part)
 And you say you belong to me, and ease my mind (Peach sang this)
 Imagine how our lives could be, so very fine (Wario and Yoshi sang this in unison)
 So happy together."

Then the ponies realized what they were really singing about-them-and joined in the musical number seconds later, since their show had a lot of songs. Each line of "I can't see me loving nobody but you for all my life" was sung by absolutely all of the characters.

"I can't see me loving nobody but you, for all my life!
 When you're with me, ponies, the skies will be blue, for all my life!
 Me and you, and you and me (Mario and Twilight)
 No matter how they toss the dice, it has to be (Luigi and Fluttershy)
 The only one for me is you, and you for me (Yoshi, Peach and Pinkie Pie)
 So happy together!
 I can't see me loving nobody but you, for all my life!

When you're with me, ponies, the skies will be blue, for all my life!
Me and you, and you and me (Wario and Rarity)
No matter how they toss the dice, it has to be (Peach, Fluttershy and Rainbow Dash)
The only one for me is you, and you for me (Mario, Luigi, Pinkie Pie and Applejack)
So happy together!"

There was a bit of instrumental after that. The characters spent this time scatting to the song, as the original song did. They knew they would treasure this day forever.

"Me and you, and you and me (Mario, Luigi and Wario)
No matter how they toss the dice, it has to be (Peach and Yoshi)
The only one for me is you, and you for me (All of the Mane Six)
So happy together!
So happy together!
My Little Pony!
So happy together!
"We're happy together!
So happy together!
My Little Pony!
So happy together!
So happy together!"

"Come on, guys. Let's go home. Bye-bye, ponies!"

"Wait! I never got to kiss any ponies!" Wario said.

"Not that you can!" Rarity said. "I imagine that you must be single!"

In acceptance, Wario turned to the portal and jumped in, with everyone but Twilight, Rainbow, Applejack, Fluttershy, Pinkie and Rarity joining in. Then there was a bright flash of light that persisted for about ten seconds.

Crazy56U: Can't tell if meme or overly specific...

Mario woke up in his bedroom, in a complete daze.

BittplexMutt: [Mario] "Note to self, never eat mushrooms late at night."

He had almost no memory of what had happened last night.

Crazy56U: Thank God for small miracles.

"Oh, mama mia..." he muttered. "What did I do last night? Was it a dream or something?"

Then he looked over at his right hand, which he held the model of the Elements of Harmony, completely intact. Mario regained his memory on the spot.

Crazy56U: [Mario] "(horrificed) AAAAAAAAAAAAAAAAAHHHHHHHHHHHHHHH (throws model against the wall, shattering it)"

This wasn't a dream. It was completely real. Then somebody knocked on the door, and Mario answered to find Wario, holding a DVD of My Little Pony: Friendship is Magic.

"Hey, you ready for the ponies?" Wario asked.

"Oh, let's-a go!" Mario responded excitedly. With that, he and Wario ran into the computer room to watch it-something both of them would have done had it not been for the portal that made it to the Mushroom Kingdom.

From the beginning of the adventure, Mario absolutely hated My Little Pony. But now that he remembered interacting with the Mane Six, he was beginning to open up to it. He knew that one day... maybe not today, maybe not tomorrow, but someday... he would return to Equestria with his friends. No former adventure could compare to this one. No one would believe it; not his friends, not his enemies, not even Bowser himself-not that he knew, because Mario never told him. And to top it all off, Mario no longer disliked Wario.

Crazy56U: Externally, anyway.

Both of them knew that they would never be rivals again. No matter how much they disagreed over things, one would always save the other in the worst situations.

Crazy56U: "And then Wario killed Luigi and stole Mario's castle."

For the first time ever, My Little Pony: Friendship is Magic and Super Mario Brothers had come into contact with one another for the very first time. It was an adventure neither of the franchises would ever forget, no matter how many subsequent years had passed. It was the best memory that the protagonists of the franchises ever acquired-and they vowed never to forget it.

THE END

BittplexMutt: And then Sonic came to Equestria and everyone forgot about Mario.

Crazy56U: Some scars will never heal.
