

Group Notes for Diving into Google

Use this document to take notes. Since it is shared with everyone, you will be able to access it later and see other people's notes as well.

As you type a note, put your name at the end of the comment

Add new calendar to Moodle as a page

Have students fill in a Google form and copy their e-mails to contact list by group and to share docs with certain students.

Add syllabus to Moodle as a Google Drive page, can share with parents if I have e-mails

There is a great free .pdf editing program I use all the time. www.pdfescape.com (Blake)

The math link for "great uses of google docs" isn't working (Bravo)
