The Solution Focused School

Creating opportunities for competency in students, teachers and parents

"You cannot solve a problem with the same kind of thinking that created it."

-Albert Einstein

Solution Focused Process

1. Best hopes:

Ask: How do you wish things were for you? Or: What are your best hopes for our time?

2. Preferred Future:

What will be happening when a small part of your hopes/wish begins to occur? What else will be happening? X10

3. Exceptions:

Tell me times when a little of these hopes/wishes has happened before. What was different in any way about those times? How did that make a difference for you?

Solution-Focused Parent Conference Date: Student: Attendees: 1. Identify the best hopes for everyone present: The teacher opens by expressing appreciation to those attending the meeting, then starts the conversation: "What are your best hopes for our meeting today?" Parent: Student: "On a scale of 1 to 10, with '1' being not successful and '10' being completely successful, where is the student in regard to what we want to achieve?" Parent: Student: Teacher: 2. Develop a preferred future: The teacher thanks the parent and student for their responses and asks, "What will be doing in the classroom over the next week so that the score increases, and things improve for____?" Teacher:

3. Identify exceptions: The teacher asks about times when the goals in the previous answers have occurred in school or at home: "When is this happening or when has it happened slightly already, in other classrooms, grades, or situations at school or even outside of school?"
Parent:
Student:
Teacher:
The teacher, parent, and student then decide which exceptions can be used and adapted in the classroom and at home for the next few weeks.
Classroom strategies: (for teacher and student)
Curriculum addition based on exceptions:
Home strategies:
The teacher restates the rating scores from the beginning of the conversation and asks the parent and student what rating they hope the student will achieve by the end of the next week. Parent: Student: Teacher:
Summary: The teacher asks the parent and student, "What was helpful for you today in this conversation?" Parent:
Chydont

Student: _______Teacher: _______ Dear Teacher, There will be a solution-focused conversation for _______ on ______ at in room______ at ______ o'clock. Your presence is requested because you are an important member in the student's academic life. The meeting will not last longer than thirty minutes. Prior to the meeting, please notice times when this student is slightly successful in your classroom. Note the kinds of lessons, activities, behavioral interventions, motivational strategies, or other methods that help the student to be slightly more successful. These times when the student is more successful should be listed below. Please list at least five exceptions below and bring the list to the meeting. Thank you. ________ Exceptions:

You know how to stay on top of things!

I can't believe what I am seeing!

I can't believe it! How did you DO that?

You amaze me.

Linda Metcalf, M.Ed., Ph.D., is a former middle school teacher, a certified school counselor, a licensed professional counselor supervisor, and a licensed marriage and family therapist supervisor in the State of Texas. She is a Professor in the Graduate Counseling Programs at Texas Wesleyan University, where she developed a solution-focused school counseling program for graduate students. She is an international presenter who has taught the solution-focused approach to educators and clinicians across the United States, Canada, Japan, China, Singapore, Thailand, Australia, Norway, The Netherlands, Scotland, England, and Germany. She is the author of numerous professional articles and eleven books which have been translated into many languages:
