

The quest "Find Tsunade" — main, plot important — not finished.

You receive this quest in the beginning of the game. You should go to the bar where you will encounter the guard. The guard is hungry, so you have to give him something to eat to make him let you enter the bar. You can find an apple in Tsunade's house to feed the guard. After he will let you enter the bar you have to go down to the cellar. You can borrow the flashlight from Gai (he watches after Kakashi on the market street). (!) If you wouldn't manage to get the magazine from Gai, you will not be able to return to this quest (!) After you'll get the flashlight, you must go to the bar's cellar again and use a flashlight there (If use the fire jutsu instead of flashlight, you will be fined).

After that, following the text tips, you have to go first to the inn and then to brothel, looking for Tsunade. Thus you will know that she returned to the bar again and is playing a strip card game. In the bar's cellar you have to click Tsunade and play the strip card game with her. You receive a pic of her for the photo album. The following content is in development by now (walkthrough till this moment will give you in the future the opportunity to find a photograph near Minato's feet in his house).

After you will kill the bear, you will get his claw. Now you have to find the beads. Go to the merchant woman in the store and buy the beads from her. However, those beads have a different color. After that you have to persuade Kushina to help you which means that you must give her some flowers. You can buy the flowers or simply pick them in the park. Kushina will make you an amulet with that you must bring to maid to get your reward. As a reward you can choose either money or the blowjob (there are no blowjob animations in the current version).

To persuade Minato to help, you must go to the brothel and overhear a conversation between Jiraiya and female brothel employee. After that you must return to Minato and transform into one of the girls (in this version you have to choose transformation into Tsunade to continue the quest). Then Minato will give you the photo album (you can open it and watch the erotic pics which are adding as you walk through the game). The quest will end after the conversation with Third Hokage
