Google Veo Video Prompt:

A vast, cinematic prehistoric world set 4 million years ago, but with a medieval atmosphere. The atmosphere is prehistoric. The scene should always look like a medieval depiction of prehistory. Sound effects only. No Music. **[SCENE]**

Script Prompt Example:

Write a 600+ word YouTube documentary script about prehistoric humans and their struggle to survive in a serious cinematic engaging tone divided into chapters covering the harsh world of prehistory hunting and gathering battles with wild beasts the role of fire tribal unity and survival tools and strategy and the fight against extinction starting with a dramatic 100–150 word hook using cause-and-effect storytelling vivid sensory descriptions and ending with a powerful reflection on how these struggles shaped modern humans written like a cinematic documentary not a school essay.
