Possible answers

I think that a lot of what the blog post discusses is true and fair. For example, it's true that society pays more attention to extroverts but that it's OK to be introverted. However, the blog post makes lots of generalizations about the skills and qualities that introverts and extroverts have or don't have that aren't necessarily true for everyone. I also don't think it's fair to categorise people as either introverts or extroverts as most people are often a mix of of the two depending on the situation.
