

Sagittarius

(Dec 17 – Jan 14)

Work and finances: This year, your finances are better than any other zodiac. Money will come and go easily. The first quarter will be the period of money circulation. Investments are going as well as before. Be careful about having debts arising from business expansion or a poor business plan because the economy remains in the doldrums. Watch out for financial jams in May and June. Scaling up your business in August and September is the best time. Work will be very good in September.

Health: You don't have to worry about sickness and accidents this year.

Relationships: Avoid conflict with partners in the second quarter. The perfect time for romance and marriage is in the third quarter.

Luck: Be meticulous about signing contracts and documents throughout the year, especially those relating to mortgages. Avoid borrowing money from loan sharks. September is the best month of the year in terms of finances, job, and support. You will likely get a promotion this month and have a stroke of luck in October.
