

SL-Had a few questions about Health Connect & your service

I hope everything is going well Mr.Lambrecht,

I appreciate your passion for helping pets get into shape. I think it's important to make America fit and healthy (including its pets).

I wanted to reach out to you because I had some questions about your objective for your brand and possibly going into a potential partnership. I think your brand can make a real positive impact in the Pet Care community and I want to be a part of that effort.

In this partnership, as a copywriter, I will help you create ads, social media posts, and help you with any other potential marketing solutions.

I explored your website and I saw you don't have any social media pages or ads so I was curious if this was just local. And if your goal is to expand your product brand across the country.

I am confident that if we were to expand on your 'Healthy Pet Connect' app with the right approach you can help lots of pets and pet owners.

I'd like to give you examples of what I had in mind and give you a demonstration of my abilities and how I can give the growth of your company a positive impact.

If you're interested, let me know so we can continue our conversation. If not, still respond so I know not to follow up with you.

Best,

Myles
