

I have a concept for every legendary joker's jester counterpart. The legendary jokers are based on well known jesters in history and folktales or famous old media (yorick). This idea changes that inspiration to famous/influential or historical magicians and sorcerers, and while that seems like a *bit* of a stretch, consider that they both do very similar things. A magician uses magic to entertain, while a jester uses wits and comedy. I know Perkeo already has their familiar counterpart so it's unlikely these 5 will be added but it's a neat concept nonetheless. I'll begin work on the art tomorrow if there isn't a reason I shouldn't. Effects and ideas are subject to change if RattlingSnow wants them to be changed.

### Erichtho

Familiar to Canio

Legendary

+0 mult, gains +50 mult when a face card is destroyed

Notes: [Erichtho](#) is a sorceress used in many Greek folklore tales as a witch that performs necromancy, hence her gaining power when a face card (person) is destroyed (killed). This one's a stretch, if any of you have any better inspirations please let me know.

### Jean-Eugène

Familiar to Triboulet

Legendary

Gains x1 mult when a king or queen is scored (currently x1 mult)

Notes: based on [Jean-Eugène Robert-Houdin](#) (not houdini). He was a pioneer of modern magic, and many of his tricks had him do the impossible and wow and amaze the audience. He turned magic from a silly passtime to entertainment of the rich, who are represented by kings and queens.

### Djedi

Familiar to Yorick

Legendary

When a card is discarded, permanently add +5 mult to it

Notes: [Djedi](#) is credited as one of the first magicians, being mentioned in an ancient Egyptian fiction story as a 110 year old man that can perform miracles and do the impossible, such as resurrection. In this instance, discarding cards is seen as "killing" them and he is bringing them back stronger.

## Houdini

Familiar to Chicot

Legendary

When debuffed card is played during boss blind, immediately win boss blind and gain \$10

Notes: message when this joker triggers is "Escaped!". Message displayed in the cash out screen in replacement of boss blind defeated is "Escaped with Houdini"

## Slydini

Familiar to Perkeo

Legendary

Destroys a random non negative consumable and makes a negative copy of your last used consumable.

Notes: Slydini was an inspirational and influential magician that used sleight of hand and close up magic, his tricks often changed with the audience and was done on the spot, hence his copying of the last used consumable, switching one consumable to another.
