

This document CONTAINS SPOILERS for *Origin of the Pixies* and *Frayed Knots* that may affect your read if you have yet to read those ‘fics and wish to in the future. Does not contain spoilers for things that haven’t been posted, just for things that have already been posted.

For a non-spoiler overview of the two stories, check out the [Origin Chapter Summaries](#) and [Knots Chapter Summaries](#) docs.

Totally chronological timeline for both *Origin of the Pixies* and *Frayed Knots*

By Season 7 (Finley’s and Foop’s births) as far as you’re concerned, zodiac conflicts aside:

H.P. is 744,698. Sanderson is 253,163. Anti-Cosmo is 381,444. Anti-Wanda is 394,777

War of the Sunset Divide

This war started sometime before H.P. was born. In “Love Struck Out”, Ambrosine claimed he asked Solara if she was the fairy who would make the war worth fighting for. In “The Fairy Whose Crown Wouldn’t Fit”, he claimed he spent centuries wooing her before the two even became an official couple.

H.P. is born

“Hate That I Love You” Prompt; Praxis apparently tries to drown him for his freckles

Solara leaves shortly after

Ambrosine is called in for war. H.P. is raised by foster parents. His foster mom is named Gidget, his foster dad is named Reuben. Turns out we'll be meeting them eventually.

Ambrosine spends 29 years fighting in Sunset Divide before it ends and he comes home
Barrier goes up; before this time, it was down. Need to correct A.C. saying in "Mama's Boy" that his parents knew they would be paired before the Barrier went up. Also there's an inconsistency about how long ago it went up, I believe in "Who Am I?"

H.P.'s youth

First childhood job was *poofing* grayfish tank down to Earth often to refresh oxygen
Once went on a class field trip to the High Kingdom. Found out he was allergic to honey.
Apparently, his Refract counterpart, Dame Fergus, saved his life with SHAMPAX
Once mentioned spending lots of time in the hammock in the Wish Fixers break room
Started to work with Ambrosine, organizing papers and things

Origin begins - "The Fairy Whose Crown Wouldn't Fit"

H.P. is a sickly child born to an adolescent single dad
He attends Spellementary School because he's an obedient child
The teacher tells H.P. he's not a full-blooded fairy and young H.P. gets offended
He complains to Ambrosine, who confronts Mr. Thimble

"The Art of Starting Fires"

H.P. tries chocolate for the first time; we see hints of the mutation scare
Saucerbee game; hints of fantastic racism

H.P. is scared of the fireworks at the end of the game; Ambrosine takes him home early

At some point between this chapter and the next, H.P. kills the Wilcox gyne. He leaves him in a box, and eventually names his third kid Wilcox after leaving *him* in a box.

“Love Struck Out”

H.P. is baptized Daoist around the age of 10,000

He was baptized at the Faeheim shrine, obviously by Dame Fergus.

He hung out with King Northiae during his hours of silence (Prince Northiae at the time)

Ambrosine shoots H.P.’s wish of being a lawyer down; pushes him into finding a wife

H.P. visits Serentip; talks to cloudship sailor; catches a leprechaun cheating a game

So many botched dates oh my gosh

Oh look, it’s Winkleglint! We’ll see him in *Knots*.

Ambrosine and H.P. go to Mistleville

Candle wax is dripped in a bowl and magic reveals your soulmate

Technically this soulmate thing is based off the Zodii system but don’t tell them that

Ambrosine never shows H.P. his own bowl (Shocker)

“School’s In - Not Much of a Musical”

H.P. attends the Academy; supposed to be in therapy classes, switches to law program

We meet Sparkle and Apollo (Polly)

H.P. attends a party because he is rave-loving trash

I always imagined they were in a weird hotel near the docks that was invisible until you passed through magical charms, but H.P. says he isn’t going to reveal the location in *Origin*

H.P. kisses and is smitten with a habetrot named Mary Black (This is all off-screen, but he mentions it a bit and it comes up again later)

Ambrosine shows up and is mad about H.P. switching programs; H.P. is sugar-drunk and getting upset; after H.P. says he bets Solara was a stupid brownie, Ambrosine smacks him

H.P. challenges Ambrosine to a gyne fight and the chapter ends with the fight starting

[“The Fallen Angel”](#)

Gyne fight! Note that H.P. changes into a rabbit, Wilcox’s favorite form

Ambrosine beats H.P. and spares his life; H.P. feels insulted and humiliated

H.P. attempts to get expelled by messing with humans kept in godparenting program

Human stuff that probably weirded my readers out

H.P. and Sparkle fall from Plane 5 to Plane 2 (Earth). H.P. frequently cites this moment when talking about how he doesn’t jump off high things anymore.

H.P. is confirmed to be just over 174,000 years old

[“A Grain of Truth”](#)

Sparkle and H.P. travel to Great Sidhe

H.P. is broke and performs doing cleaning chores

[He meets and helps Anti-Robin \(Anti-Cosmo’s dad\), who cares for anti-pixies after this](#)

Princess Wyanda’s bowling ball (Season 9 - “Fairly Odd Fairy Tales”)

Brownie uprising

Sparkle becomes Sparky

[“The Wanderings of the First and Alone”](#)

Huge timeskip chapter; odd jobs; H.P. will name several of his pixies after towns he lived in. He also gets infected with *Wolbachia*, and meets Pip. Compare with the golf course chapters in *Baby, You're a Rich Man*.

Noteworthy things: Working at the coffee factory, getting his first drones and working out his licking ritual, acting as Cattahan's butler

Knots begins - "String Theory"

Anti-Cosmo is born when H.P. is ~360,000

"Growing Pains"

Anti-Cosmo rescues Ashley from Anti-Joanie's pouch

Gets talk from Anti-Bryndin about Anti-Fairy customs / anatomy / reproduction

Mostly a chapter where we meet lots of people, like Anti-Buster and Caden

"Fun With Yarn"

Anti-Cosmo recounts four years of his life before we get to Tarrow betrothal ceremony

His father Anti-Robin dies, though he doesn't know Anti-Robin is his father

The No Fairy Babies mandate goes into effect when A.C. is two

Finally there's the Tarrow ceremony and we learn a lot about Anti-Fairy culture

Hints of Anti-Bryndin and Anti-Elina having changed clothes; compare with "Watch and Learn"; earlier there was dancing, but evening is for the betrothal ceremonies (in Love year)

Anti-Cosmo pulls out a Sky ring and is distressed he can't find his match

Tricks Anti-Saffron / Mona into thinking she's his soulmate; steals a Soil ring from Tarrow's gazebo

Sits with the popular kids, not with Augustus

Anti-Buster calls him out about the stolen ring and Anti-Saf not being his true soulmate

“The Hand You’re Dealt”

Anti-Cosmo hoped to go out on the field with the other kids for Friday the 13th

He is called back to run the training course again

Anti-Cosmo finds out Ambrosine was called in to observe him

Anti-Cosmo completes the course (solo this time; teams earlier)

He is not pleased with the results

“Indigo Feathers”

Anti-Cosmo is summoned to attend Spellementary School on Anti-Bryndin’s recommendation. This is curious, since in the last chapter, he claimed A.C. was “too smart”

Anti-Cosmo finds out Anti-Bryndin is pregnant with Winslow (Anti-Phillip).

Anti-Bryndin will be pregnant for thirteen days before Anti-Zoe will carry the pup in her pouch

Anti-Cosmo also learns his dad is dead, and that his dad was Anti-Robin. He is horrified, because he vaguely knew Anti-Robin was a castle servant, and wishes he would have gotten to know him while he had the chance

He then realizes that his brother Augustus knew Anti-Robin was their dad all along. Suddenly he understands why Augustus was crying all the time when Anti-Cosmo was two.

Anti-Cosmo confronts Augustus, and starts to learn about Anti-Robin. He uncovers his father’s notes, and discovers that Anti-Robin spent a lot of time with H.P.’s green counterpart.

Being a romantic, Anti-Cosmo immediately ships his dad with Anti-Fergus.

He also inherits Anti-Robin’s zodiac spirit prayer figurines.

“Strong Suits”

Anti-Cosmo hops the portal to Spellementary School. While there, he bumps into Principal Winkleglint and Mr. Thimble (Remember them from *Origin*?)

Anti-Cosmo adjusts to class and learns some ways Fairies and Anti-Fairies are different. Namely, Fairies have poor memories, while Anti-Fairies have exceptional ones.

Considered a show-off, Anti-Cosmo isn't well-liked by all the other kids. He eats lunch in the classroom with Mr. Thimble, and they converse.

Winkleglint shows up, and it turns out that he's a gyne, and Mr. Thimble is his drone. Anti-Cosmo observes that Mr. Thimble seems distressed in Winkleglint's presence and, after a discussion about drones and gynes, he decides to take matters into his own hands by confronting Winkleglint and ordering him to let go of his drones.

“Full House”

Anti-Cosmo confronts Winkleglint, who attempts to soothe his irritation by explaining the Fairy tradition of gynes and drones. He offers Anti-Cosmo to stay at his home in Fairy World for two weeks as a study abroad experience.

Winkleglint shows Anti-Cosmo a box of labeled gyne pheromones gathered during the census, and Anti-Cosmo is exposed to H.P.'s pheromones.

Anti-Cosmo and Anti-Buster visit the Winkleglint estate; Winkleglint lives in the glade half of the Barrenglades, in a beautiful ipewood forest on Plane 4. Anti-Cosmo feels jealous.

Winkleglint withholds his pheromones, causing his drones to experience strong shifts in energy and mood, both manic and depressed.

Mr. Thimble snaps at Anti-Cosmo, and Anti-Cosmo confronts Anti-Buster about his past.

Anti-Cosmo calls the study abroad experience off after only a week, and slinks home.

“Shuffled”

Anti-Cosmo and Anti-Saffron run away

Try to sneak past Jorgen

Anti-Cosmo becomes determined to find a way for Anti-Fairies to have children without being commanded by the honey-lock

“Tangles That We Weave”

Jorgen poofs Anti-Cosmo and Anti-Saffron to Novakiin, where Ambrosine lives

Anti-Cosmo talks / argues with Ambrosine and Solara(?)

Ambrosien diagnoses Anti-Cosmo with *divus* displacement disorder in three seconds

“As Practical As Salt”

Anti-Cosmo takes an intelligence test

Ambrosine is openly discriminatory towards Anti-Fairies (Still bitter about war)

Anti-Cosmo is upset and schemes to cheat the test; Ambrosine catches him

Anti-Cosmo cleverly tricks Ambrosine into losing his therapy license for 50k years by getting Ambrosine suspected of child trafficking / abuse (Ambrosine’s wings aren’t notched and no one’s ever seen him with a wife, yet Emery lives with him).

“Spirited Forth”

Camarilla court declare Anti-Cosmo’s soul became tangled with a nature spirit in his youth- specifically a lightning spirit by the name of Clarice.

Anti-Fairies refer to him with they/them pronouns despite his protests; he prefers he/him.

Anti-Cosmo learns the ancient Anti-Fairy language Vatajasa; he wants to read ancient research papers. He nervously asks his mom for help, since she’s fluent.

Anti-Cosmo joins a traveling party who visit a small Fairy town and try to reclaim Beira's temple after the previous mayor dies. They don't get the temple.

"Kasa d'Sōchu!"

Anti-Cosmo visits the Eros Nest and encounters Anti-Wanda. She only speaks Vatajasa.

Anti-Cosmo's Vatajasa is clunky, giving him an accent equivalent to Anti-Wanda's when she speaks Snobbish / English

Anti-Cosmo is embarrassed, but Anti-Wanda comforts him.

Slight timeskip; *canetis* ritual begins

"Snake Eyes"

Canetis ritual - Groups of pups track demons and take them to the Love Temple

Anti-Cosmo almost gets swallowed by a snake; Mona gets help

Anti-Bryndin saves Anti-Cosmo and is puzzled that Anti-Cosmo's legs are frostbitten

Anti-Cosmo and Anti-Saffron succeed in their canetis ritual.

Anti-Cosmo waits for his mom to show up to take off his canetis rings.

Finally, he can fly!

He promptly gets trapped in a genie lamp lol bye

Notably, Anti-Cosmo was stressed about lying to the High Countess

"If She Hollers"

Anti-Cosmo wakes up trapped inside Liloel lamp

Anti-Cosmo and Liloel become friends

Massive timeskip montage of 68k years; Liloel hibernates through most of it

Anti-Cosmo entertains himself by drawing

Liloei wishes she could breed. Anti-Cosmo learns that if he asked her, Liloei could use her genie powers to turn him into a fertile genie. He decides this is his last resort.

It doesn't come to that- Anti-Cosmo offers the hollow part of his hinged head as Liloei's new lamp. The curse is broken and he can leave his study for the first time in ages.

Anti-Cosmo heads to the great hall. Everyone is having dinner. He is told how much time has passed, and is startled.

“Where We Set Our Fires”

Anti-Cosmo adjusts to regular Anti-Fairy life again

Now outside Liloei's lamp, his frostbite rapidly progresses to gangrene

Doesn't want to go to the Breath Temple for healing and runs away

Able to cross Barrier with Liloei in his head; faulty magic

Anti-Cosmo is feverish since he has a hot genie in his head

Briefly encounters Winkleglint and is taken care of since he's obviously sick

Successfully frees Liloei from his head by tricking a Snobulac into freeing her

Spends two years in Serentip- very important! Nothing of interest really happens, but it's a good look at his manic side. Doesn't go home despite wanting to. He doesn't think things through, and just gets by with what's around him.

Anti-Cosmo goes to Breath Temple and is “killed”

Regenerates and gangrene is gone

Ambrosine gives him pheromones for his divus displacement disorder; Anti-Cosmo is offended that Ambrosine thinks he has a disorder when Anti-Fairies don't see it that way

Anti-Cosmo and Anti-Saffron reunite! They soon sneak off to make-out during
Anti-Ember's funeral

"The Nymph in the Sand"

Sanderson is born when A.C. is ~128,288

H.P. is confused and horrified: How could he be pregnant when he's a virgin? One reason
for including Pip in the story was so H.P. would wonder if she's secretly Sanderson's mother,
which is easier for him to believe than a virgin birth. Didn't come up as much as I meant to.

H.P. attempts to kill Sanderson several times; almost drowned him in a bucket, but is
interrupted by an anti-imp after he spilled salt

H.P. comes back and searches his hole for Sanderson, has his laser gun core out and is
ready to blast him; hesitates when he sees Sanderson trembling at the wall with his little violet
eyes wide as it dawns on him that even as a baby, Sanderson is sentient; H.P. spares him

H.P. is male and has no way to get Sanderson milk; heads out into snow to find help

H.P. is captured by Kalysta, who agrees to nurse Sanderson if H.P. will be in her harem

"My Unfair Lady"

Kalysta's burrow, harem stuff, Gathering... will o' the wisps.

H.P. paints Kalysta's fingernails and learns she's an author

Sanderson crawls into H.P.'s pouch and H.P. feels embarrassed

We get glimpses of Anti-Sanderson and Dame Sanderson swinging by

H.P. is assumed to lose his virginity at some point and he is not a happy camper

Sanderson grows; Idona exists and she and Sanderson are sort of friends

H.P. almost escapes burrow; caught *because* he went back for Sanderson, which is terribly ironic since Kalysta originally caught him because he *abandoned* Sanderson

“Snapping Point”

H.P. attempts to escape burrow; lots of failed escape plans

Sanderson does a lot of drawing; hangs out with Idona

H.P. argues with Kalysta about his fertility; she tries to take Sanderson away

Very cool escape plan, I don't mind admitting

H.P. and Sanderson in the snow; Sanderson gets lost and traumatized for life

Selkie coat get! Rescue scene! Hypothermia get!

H.P. meets China and tries to return her coat

“Ripples”

Anti-Cosmo and Anti-Saffron spend lots of time together, developing their relationship

Liloei the genie drops her daughter Lohai on Anti-Cosmo to raise and doesn't return

Anti-Cosmo campaigns for Purple Robe during Sanderson's birth year (Note that in

Origin, H.P. was mad he was missing the election due to being Kalysta's prisoner)

Anti-Cosmo meets Noon (Anti-Lance) who will be his roommate in his Fairy school.

Noon is very smart and is studying potioncraft; Anti-Cosmo is confused that so many of his crechemates have an instant crush on Noon and giggle over him

Anti-Cosmo visits the Water Temple for the first time to pray to Sunnie

Anti-Cosmo no that's not your sword put it back

Wait what is Doombringer doing in a backstory 'fic

Anti-Cosmo rides the tram with H.P. and Sanderson

“Grand Father”

H.P. and Sanderson reach the Rainbow Bridge and scale it to the cloudlands

There's a really cool scene in this chapter where these two team up to steal a wooden figurine from a shop, inspired by an airport metal detector scene I wrote in my fanfic, “Eva Scotta”, in 2013. I always thought it would be a clever way to steal something.

H.P. is clear about his policies with Sanderson: Don't break the law if there is a way you can get what you want legally, but if you can't, it's okay to break the rules if no one gets hurt

H.P. and Sanderson ride the tram with Anti-Cosmo

They visit Mother Nature and Father Time's glass shrine; Sanderson sings the shrine song and H.P. hesitates before finally deciding not to sacrifice him

H.P. tries to dump Sanderson off on social services. No fairy babies = Sanderson would be killed because that's how much they care apparently

“Prodigal Progeny” - Act 2 End

H.P. brings Sanderson to Ambrosine's home in Novakiin

Lots of talking and settling in; Ambrosine agrees to let H.P. and Sanderson stay for now

H.P. meets Emery (Ambrosine's “new” daughter) and the two are immediate rivals

Ambrosine reveals Emery is the current heir to Wish Fixers unless H.P. buys her out

“Persistent Assistant” - Act 3

Sanderson gets his wand and struggles to use magic

H.P. doesn't know why he's struggling; tries to read child development books but doesn't want his father to catch him b/c of the switching majors when at the Academy argument

H.P. takes Sanderson into the bathroom so he can see the mirror and gives him a huge talk about cores, magic lines, hands, dustless deaths, counterparts, field-sight, SHAMPAX

H.P. licks Sanderson's face to trigger his instincts

Sanderson is seen to get super distraught every time H.P. leaves

"Lady Luck On Ice"

Anti-Cosmo visits H.P.'s counterpart Anti-Fergus; he also meets Anti-Kalysta and baby Anti-Sanderson is heard crying in the back room

Anti-Schnozmo is there too and has developed schizophrenia like their mom

Anti-Cosmo and Anti-Schnozmo get into a fight, and Anti-Cosmo shows mercy by not backstabbing Anti-Schnozmo as he flies away

Anti-Cosmo flirts with Anti-Wanda at the ice rink; he meets Anti-Blonda too

Notably, Anti-Juandissimo takes interest in Anti-Cosmo's betrothal ring again. This time he manages to swipe it, but Anti-Cosmo notices immediately and calls him out.

Anti-Juandissimo is sheepish and Anti-Wanda is horribly flustered / embarrassed.

"Cocoa Fever"

Anti-Cosmo encounters Anti-Schnozmo again for the first time since their fight; learns his brother is medium to the nature spirit August now

H.P.'s sister Emery visits Anti-Cosmo and tries to get him to buy H.P.'s bottled pheromones; he turns her down and she's shocked

Anti-Cosmo takes a job at the chocolate factory

Anti-Cosmo gives H.P. and Sanderson the tour of the factory

Anti-Cosmo "dies" and regenerates while saving Sanderson from boiling hot chocolate

“Spoonful of Sugar”

Sanderson experiences his Terrible Twos; rages between emo and vicious

H.P. attempts and seals several deals in his race to obtain Wish Fixers

H.P. and Sanderson tour the Sugarslew chocolate factory and H.P. eventually buys it

Sanderson is sent to Spellementary at the age of 45; it doesn't go well

Sanderson fought with other kids at school; H.P. decides to homeschool him

Sanderson goes to therapy with Ambrosine

“Hawkins Has a Shower”

H.P. visits some old elf friends on Earth; it turns out he's pregnant

A baby shower is thrown; Hawkins is born and H.P. is confused

Sanderson hides Hawkins in the cooking pot because he was loud

H.P. and Sanderson make a deal never to hug

Later, Hawkins returns and is eager to rejoin the team; at home, H.P. bathes him

“Crossing Thresholds”

The pixies and anti-pixies meet for the first time

H.P. learns he is pregnant with Wilcox; keeps it private while panicking

Ambrosine finds out about the baby; H.P. is deemed irresponsible and let go

H.P. packs some things and leaves the house with Sanderson and Hawkins; he left Wilcox behind in a box for Ambrosine to raise since Ambrosine loves babies and H.P. wants revenge

H.P. tries to get Sanderson and Hawkins baptized but they have to go to the hospital so they can get their tubes plugged up due to the No Fairy Babies mandate

Dr. Ranen tries to plug them but pixies don't have tubes like Fairy drakes do

“The Blessed”

Sanderson and Hawkins are baptized close to the age of 1,000

Dame Sanderson and Dame Hawkins are present, but Dame Fergus is not

H.P. uses China’s coat to summon her, and the pixies move in with her in Lau Rell

China is an architect and has a large and very nice house for them to stay in

“Bells and Whistles”

H.P. proposes to China (Get it, because- wedding bells)

H.P. visits Ambrosine and brings Wilcox home; Wilcox is revealed to be addicted to shapeshifting; he and H.P. lock horns

Wedding preparations followed by an actual wedding- H.P. and China are married!

“Frost Bite”

We see how Anti-Cosmo’s school life is going

A fairy boy (a gyne) named Mickey Peridot develops a crush on Anti-Cosmo

Waterberry v. Reddinski court case is debated and passed - Drones officially gain legal rights like right to marry and no job discrimination. Anti-Cosmo supports this case.

Anti-Cosmo asks Mickey to preen with him; Mickey is thrilled

Anti-Cosmo is disappointed with the preening session, since he didn’t feel emotionally connected to Mickey and felt a bit taken advantage of

Semester ends; Anti-Cosmo learns that Mickey returned home to Lau Rell and was killed by a more dominant gyne who settled there while he was at school (H.P.)

Anti-Cosmo attends Mickey’s funeral; wants to kill H.P. in revenge but then bails out

Anti-Cosmo uses his cold Anti-Fairy magic to fill the town with snow in silent warning to H.P. that he will always be watching him

“Allowances”

Hawkins runs away; H.P. is terrified and searches for him everywhere

This includes visiting the anti-pixies and tentatively visiting will o’ the wisp territory

Pixies get allowances / paychecks; beginnings of business

It snows in the cloudlands! Longwood is born in the Year of the Tall Cedar

Caudwell is born; China accuses H.P. of cheating on her again

“The Chapter With Nine Snakes In It”

H.P. buys out Wish Fixers and fires Emery

H.P. becomes obsessed with training his pixies to lose their fear

Caudwell becomes terrified of paper; compare with the opening paragraphs of *Rich Man*

H.P. and China argue about family vs. business and finally have a divorce

H.P. visits the hospital with Madigan and Wilcox; cherubs arrest him for reproducing asexually, because they want to study this immediately

“How to Yoo-Doo”

H.P., Sanderson, and Madigan are in the Eros Nest with Anti-Fergus and Anti-Sanderson

Emery and Dr. Ranen meet for the first time; they will eventually have Chrysanthemum.

Venus Eros is convinced that H.P. was born with a mutation that makes him reproduce asexually, when in reality he reproduces asexually due to contracting *Wolbachia*

Venus remains H.P.’s celebrity crush despite being a total jerk

The pixie race is official! H.P. officially takes the name Head Pixie; up until now people have called him Mr. Whimsifinado or Mr. Fergus; story is first-person POV so shift is easy

“Snowflake”

Pixies are special snowflakes who are put on display for Alien researchers

H.P. is reunited with his other pixies briefly

Anti-Sanderson upsets Venus and is moved to solitary confinement for 500 years

Dame Sanderson is doing amazing

H.P. learns he will die very soon if he doesn't drastically cut back on magic usage

“Picture the Perfect”

Anti-Cosmo begins his internship with the cherubs

We see some events of Origin from Anti-Cosmo's point of view, as well as behind-the-scenes events involving Juandissimo; we learn Juandissimo was birthed with magic like Poof, although he was created with genie magic instead of just wished out of the womb

Anti-Cosmo is increasingly fascinated by will o' the wisps, especially Ilisa Maddington. He always has been, but now it's overwhelming.

Anti-Cosmo rises to H.P.'s defense when the cherubs see him as animal > person

When Anti-Cosmo sees Ilisa's large portrait in color for the first time, it overwhelms him with old memories of his past life.

“Bottled Emotions”

Anti-Cosmo struggles to come to terms with the idea that he is Ilisa (the first will o' the wisp) reincarnated

Anti-Cosmo visits the place where the cherubs kept Ilisa imprisoned and forced her to breed thousands of times to preserve her species

Anti-Cosmo steals a vial of Ilisa's frozen sperm- Could this be the way to having children? But whose eggs will he use... What about Juandissimo's? We just got confirmation that he isn't related to Ilisa, and he's special enough that his frozen eggs are in the cherubs' storage vaults.

Anti-Cosmo tries to help Venus Eros with pixie stuff

Anti-Cosmo accidentally breaks young Dame Artemis Cairo out of the Eros Nest

Anti-Cosmo and Venus discuss the possibility of a genie conservation program

Anti-Cosmo confronts Venus, asking why Ilisa's wheelchair wasn't included in her painting and if she has Ilisa's diary, which Ilisa asked her to hold onto before she died

Venus is insulted by Anti-Cosmo's forwardness and threatens him, but he does get Ilisa's diary and recognizes her handwriting as his own

"Fruitful Fruition" - Act 2 End

Graham is born

Cherry is born; he is the in-vitro son of H.P. and Kalysta, to H.P.'s horror; dies very soon

Keefe and Springs are born

Finally time to leave! But, Venus demands one pixie stay behind to be a neotype

H.P. tries to break out of the Eros Nest so he can keep all his pixies; does not succeed

Anti-Fergus steals Anti-Cosmo's wand

H.P. chooses to leave Graham behind, reluctantly, and everyone else is free to go

"Loopy Loopy"

Covers the events of “Fruitful Fruition” to “What Karma Is” from Anti-Cosmo’s side

Anti-Cosmo seems to have unlocked the secret of Anti-Fairy reproduction; his interest in his work is rekindled and he can’t wait to try out his ideas

“Needles and Dread” - Act 3

Pixies, anti-pixies, and pixie-refracts go out for lunch because I needed this badly

H.P. runs into Praxis (who tried to kill him as a nymph); refuses his charity

Ambrosine and Emery brought the other pixies; they go out to lunch too

Emery introduces H.P. to Iris; the start of the Amity Angel division

Pixies and anti-pixies head out to go clothes shopping, at H.P.’s insistence

“Cutting Gingerties”

Clothes shopping goes as well as it could have (Not very)

Anti-Sanderson was very excited about a gray sweater, but feels guilty about accepting H.P.’s gifts over his own dad’s, even though anti-pixie clothes clash horribly

H.P. and Anti-Fergus argue about what’s best for the children

H.P. listens to Anti-Sanderson struggle to explain complicated feelings about life

At the chocolate shop, H.P. grows very frustrated; he wants to help, no one lets him

H.P. finds out Ambrosine and the other pixies built Pixie Village (with some help from China); though he rejected Praxis, H.P. accepts Ambrosine’s charity

“China’s Finger Trap”

H.P. is almost smothered by pixies in the morning; settles into Pixie Village

Makes contact with China to thank her for the village

Brings China milkshakes and flirts with her; proposes to her again

China reveals she burned her selkie coat; she is Zodii and not Daoist

The two argue for a long time- I really wanted to make it clear to the readers why the Head Pixie rules alone and I needed to be *absolutely sure* H.P. disliked all his co-ruler options; I actually started this chapter after getting to the point in the next chapter H.P. is asked to choose a co-ruler if he wants one, so then I went back and made sure China was out of the question

“Playing With the Big Kids”

H.P. is told his coronation is today; he calls the Eros Nest and sees Anti-Cosmo

H.P. selects Longwood to be his successor (without informing Sanderson)

H.P. makes additions to Da Rules with the Fairy Council about pixies and legal things

Only the ruling Head Pixie can change the Pixie laws

H.P. selects his diplomatic staff- he chooses a golf club, implied to be the same club he uses during “Pixies Inc.”, making any deal he makes while holding it legally binding

H.P. and Longwood are coronated at the Lia Fáil before heading to the pet store

“Cotton Candy Oatmeal”

H.P. and Longwood visit the Fairy World pet store and H.P. gets a dog

H.P. returns home and has a chat with Sanderson about being the alpha retinue

H.P. and Sanderson visit the Frozen Garden Palace; H.P. talks with the Blue Robe

Their first Council meeting is less impressive than H.P. anticipated

Things go very poorly actually

After the meeting, H.P. catches up with his old friend, Magalee Dustfinger (Chap 1)

He also talks with Anti-Bryndin, who is insistent H.P. dine with him at the Blue Castle

Sanderson continues to be unimpressed by H.P.’s friends thus far

But suddenly, Sanderson sees Idona- Kalysta's daughter and his childhood friend

H.P. is panicked by this friendship; Sanderson apparently took a level in sass

“The Facts of Life”

That chapter where H.P. sets ground rules for his pixies

H.P. discusses preening in this chapter; Emery reluctantly helps him demonstrate

Wilcox is said to be attracted to Anti-Fairies, which wasn't my original plan but okay

Before bed, H.P. gets a surprising announcement: A pixie is being blamed (framed?) for breaking into the Pink Castle library. What? Gasp!

“Age-Old Story”

Anti-Cosmo talks with Mona about their futures, and they argue about bachelor colonies.

A.C. reunites with Lohai, who breeds with Vesuvius.

H.P. and A.C. have a talk about how A.C. would be the next High Count according to the Fairy legal system; A.C. has mixed feelings, and is sort of disappointed he can't be High Count

We have a 20k year timeskip that brings us past the next few *Origin* chapters.

“What Karma Is”

H.P. visits the Pink Castle and talks with the Purple Robe

H.P. also visits the Blue Castle and has lunch with Anti-Bryndin

H.P. and A.C. have a talk about Anti-Bryndin

“From Straw to Gold”

H.P. and Anti-Bryndin preen together in the lava pools. They become courgettes.

Also, H.P.'s work with Iris begins in this chapter

[Other *Origin* info currently withheld]

The kids are apparently going to school now

[Other *Knots* info currently withheld]
