Description: [Fill out here]

Here's where you get to be pretty personalized. Herein you should include: what it is you want me to draw(please try to have an idea in mind... I'm just no good at trying to create scenes and such with a person's character, as most of the time I don't even know what the character's like).

If you've got no absolute idea in mind, try giving me some keywords to work off of.

Please try to include what type of thing the picture will be (e.g. "pinup", "bondage", etc.).

If you have a character you'd like developed then be prepared for a fully immersive session. I will be quite active in talking with you if it's character development.[/collapse]
