

Driven by BarMax, the CLT New York bar course provides concise and user-friendly materials that don't overwhelm students. What's more you will study with real questions from previous bar exams, something most courses don't offer.

- **CLT is the most experienced provider of the bar review course in the UK** – you will have access to the CLT Course Director Denis Carey who has over 18 years' experience of supporting hundreds of CLT students pass the bar review course
- **A top quality course** – take a look at what our past students say

I am a foreign educated lawyer, completing my LLB in Canada. Prior to purchasing BarMax app I had no background in US law. I should note this was my first attempt at writing any US Bar exam.

I believe that the fact that I, with no background in US law, was able to pass the exam on the basis of your programme is a testament to the thoroughness of your product. This was all I needed.

I would recommend this product to anyone, including foreign educated lawyers interested in preparing to write the NY bar exam.

With BarMax I didn't feel like I over prepared or wasted a lot of time studying irrelevant matters. The presentation of the matter was very straightforward and the real MBE questions helped a lot

I believe BarMax made the difference when I passed the CA exam on my sixth attempt. I cannot even begin to express my gratitude to the BarMax team. I knew from the moment I signed up for BarMax that there were people who were there to ensure my success. They believed in me as an individual, and taught me in a way that I, personally, could not understand.

It is thanks to BarMax that I passed the NY bar exam. I had failed the exam 4 times before having taken/or used BarBri, PMBR and Baroutlines.com. None of these gave me the level of practical, as friendly review I got from BarMax. I also needed a comprehensive review since years had passed for me since my last attempt at the exam, and BarMax provided that as well. I was able to study, review and do practice questions at any time, practically anywhere that worked for me, on my own schedule, as long as I had my laptop with me.

BarMax is an excellent bar review programme substantively, there is overall ease of use and portability, which for me is a lifesaver...

About BarMax – built by former bar students for future bar students

Harvard Law School alumni teamed with top iOS developers produced BarMax, a leading New York bar review course, equipped with all you need to prepare and pass the New York State bar exam.

What sets BarMax apart from other bar review providers?

Pass rates

BarMax New York students had an 83% overall pass rate in 2012, 21 points higher than the NY average of 61.9%. These figures represent BarMax's overall 2012 pass rates, including repeaters. Most other bar course providers do not even publish their pass rates!

High quality content

The BarMax exam preparation course was created by Harvard Law School alumni and the lectures are delivered by Harvard Law School educated law professors

Straightforward & concise outlines

BarMax provide just one outline per subject, no more getting overwhelmed by multiple outlines. Each subject has a mnemonic device to help you remember subtopics during the exam

Real MBE questions only

BarMax licensed 1,471 real MBE questions from previous bar exams direct from the NCBE. There are no fake questions such as the ones you will see in other preparation courses

Study the modern way - virtually anywhere

All materials you need are made available online and can be accessed through various Apple devices i.e. the iPhone or iPad. No need to be weighed down by heavy books and materials

Why take the bar exam?

CLT has been running the New York bar preparation course for many years and from our experience the main reasons for taking the bar exam are:

- **Become a solicitor in England & Wales without having to secure a training contract**

By passing the NY bar exam, LLB students become eligible to undertake the Qualified Lawyers Transfer Scheme to become a solicitor in England and Wales

- **Work in the US**

Upon successfully passing the New York bar and securing a pass in the MPRE exam, you are eligible to apply for admittance to the State Bar and commence work as an attorney

- **Enhance your career prospects in the UK**

There are many US law firms in the UK. You may already work for one of them or may wish to. Passing the bar exam will assist on both counts

- Whatever your reason for considering a bar exam, it will widen the opportunities available to you

IMPORTANT NOTICE - DON'T DELAY ENROLLING ON THE BAR COUSE...

Enrol for the **October 2013** course now and avoid being caught out when the **new pro bono requirement** comes into force in 2015.

Sit and pass the bar exam in February 2014 and you will not be required to complete 50 hours pro bono work to qualify at the New York bar.

There is also a Legal Ethics requirement coming into force in 2014 which may affect students taking the February 2015 exam. So there is no better time than now to pass your New York bar exam!
