# Introducing The Hammock Garden

A spot to lay back and enjoy the PNW.

## What is The Hammock Garden?

Located on the bluff trail in Spokane, Washington, Girl Scouts Zoey and Avery from troop 2102 decided to build a space where people can enjoy nature while being comfortable. The hammock garden is a place where people can hike in with their own hammocks and enjoy the scenery.

## Why The Hammock Garden?

In Girl Scouts there are special awards that are called precious metals. The Hammock Garden was Avery and Zoey's choice of project to earn the Silver Award. The Girl Scout silver award is when 1-3 girls spend at least 50 hours on a sustainable project that will serve the community for years to come. When deciding on a project to do, Avery and Zoey realized that one of the most popular hiking trails in Spokane, Washington, had no resting points both on the main trails or the side trails. Once looking into this problem the girls learned how dangerous not having resting points could be. Without resting points people happen to get hurt more often, suffer from over exertion, and overall cause harm to their body. Clearly this problem had to change. Another thing that motivated Zoey and Avery was the fact that nowadays it is more common for people to stay inside and isolated from the community. The hope with The Hammock Garden is to encourage the community to get outside and socialize.

## Our Mission

Get people outside.

Build a stronger  
community.

“Nature is our biggest  
ally and our greatest  
inspiration.”

— Sir David Attenborough,

English broadcaster and natural historian.
