

*Abrokenhero speaks on a TV ad supporting the BMP*

"Hi I'm Abrokenhero, former Secretary of the Environment and Lieutenant Governor of Chesapeake. And today I'm here to endorse the BMP."

"The BMP is the party with the best environmental plan for the United States, with sensible carbon taxation and regulations for businesses, these plans will help all of us fight against climate change."

"During my time in Chesapeake, I was a long time fighter for environmental rights, and helped plant more trees, and help save bees in the state, and the BMP is the best party to help bring environmentalism into action on the federal level."

"This election, vote for a party that cares about the environment, and vote BMP."
