Your Digital Footprint

1. What is a digital footprint?
   a) A track that animals leave behind
   b) Shoes that you buy on the Internet
   c) The information about you on the Internet

   **Answer feedback**
   The correct answer is c. Your digital footprint is the information about you online, such as a news story with your name in it or something that you write online.

2. What kind of information is safe to share online?
   a) Your birth date
   b) Your first name or computer username
   c) Your address

   **Answer feedback**
   The correct answer is b. It is okay to share your first name or your username online. But sharing your address or birth date could make your information unsafe because other people might use your information to pretend to be you!

3. Which animal below has the digital footprint that leaves him or her most unsafe?
   **HINT:** Think about which animal shares the most private information online.
