

Your job for today and tomorrow is to do some research on an artist. You may choose any artist you like EXCEPT Vincent van Gogh because I used him for my example so that you will not have any questions about what you are supposed to do.

Everyone has a template that is your template only. After you choose your artist, put your name, grade level and A or B then put the artist's name in the spot provided. Answer each question that is asked of you. Do not cut and paste the answers. If you google the artist's name and 'bio' you should get all the info you need for the first few questions. For the other questions, if you just google the question with the artist's name in it, you should find the answer. For example: Where did Vincent Van Gogh go to art school? ***Academie des Royals des Beaux Arts***

Go to google images to find a portrait or self portrait of your artist and other paintings that your artist did. Be sure to add all the information in the center column and answer all the questions in the last column. You can change the fonts on your work but leave the background white.

Make sure that when you finish it completely, you submit your work.
