Fall is here! Halloween and Thanksgiving are right around the corner. A friend of mine was looking for some backgrounds to make Halloween themed videos the other day, and guess what... no one sells them!

OK well there may be one or two for sale on Envato, but have you seen the price of those??

So graphic designer Debbie Brandt teamed up with Shelley Penney's animating skill, and created a huge pack of Halloween Themed HD backgrounds and animations for video and website designers!

They normally charge \$27 for the whole pack- which is a steal, but right now, for only a few days they are offering a coupon for a whopping \$10 off! That's a huge 1/3 discount.

You better hurry and grab these. Use coupon code 10off at checkout!
