

Instructions for Purchasing GTAI Tokens on the Bybit Exchange

Registration Using a Computer

1. To proceed with registration on the Bybit exchange, [click here](#).

The screenshot displays the Bybit registration interface. On the left, there are three promotional banners: a 'Welcome to Bybit!' message with a \$30,000 reward, a '2.2M USDT Prize Pool' for a trading contest, and a 'New User Exclusive' offer of up to \$30,000 in deposit rewards. On the right, the 'You're invited to Bybit!' registration form is visible. It includes input fields for 'Email' and 'Mobile Number', a 'Password' field with a strength indicator, and a 'Referral Code (Optional)' field containing 'GTPROTOCOL'. A checkbox for terms and conditions is checked. A prominent orange button labeled 'Get My Welcome Gifts' is present, along with social login options for Google and Apple.

You can register using your email address ⁽¹⁾, mobile phone number ⁽²⁾, or through the registration buttons for Google ⁽³⁾ and Apple ⁽⁴⁾.

You're invited to Bybit!

Get My Welcome Gifts

3 Or sign up with **4**

 **Google**  **Apple**

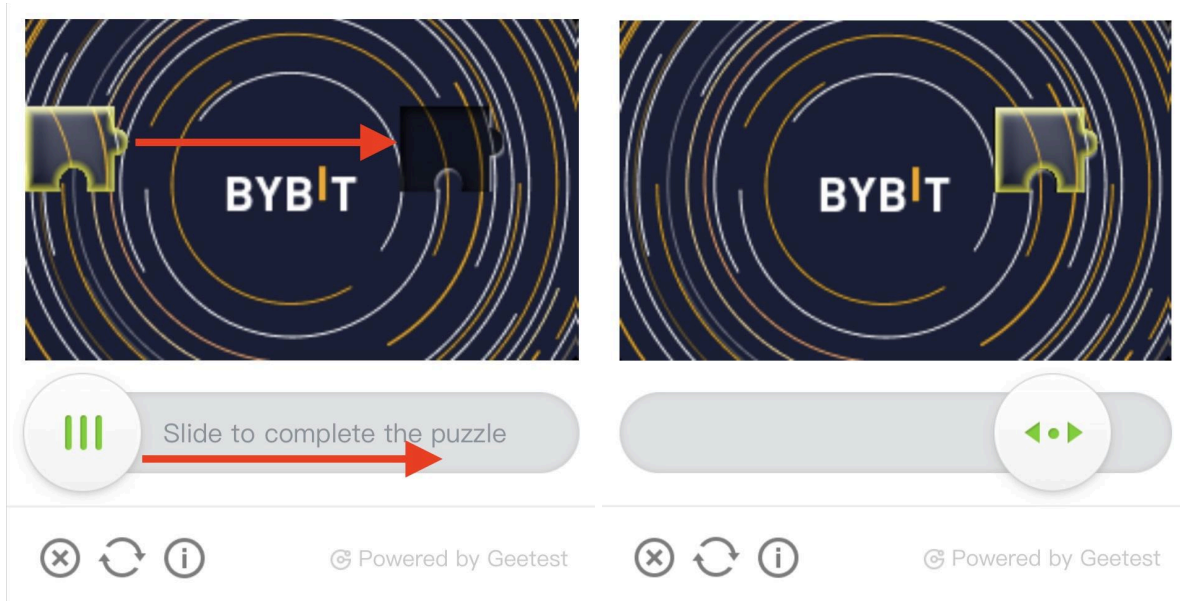

To register via email, please enter your email address, set a password, and provide a referral code - **GTPROTOCOL**.

Note:

- If you want to register using the registration buttons for Google ⁽³⁾ or Apple ⁽⁴⁾, don't forget to first enter your **GTPROTOCOL** referral code, and then click on the Google ⁽³⁾ or Apple ⁽⁴⁾ icon to proceed with the registration.
- When you click on the 'Register via **Google**' button to create a Bybit account, the email address associated with your Google account will be used.

- When you click on 'Register via **Apple**,' your email address linked to your Apple ID will be utilized.

2. After clicking the orange 'Get My Welcome Gifts' button, please complete the reCAPTCHA verification.

Next, enter the verification code sent to your email inbox (for email registration) or the code sent via SMS to your mobile phone number (for phone number registration).

If you haven't received the email, please check your spam folder.

Verify your email

Please enter the verification code sent to k.ionova@iconic.info.

Congratulations! You have successfully registered an account on Bybit!

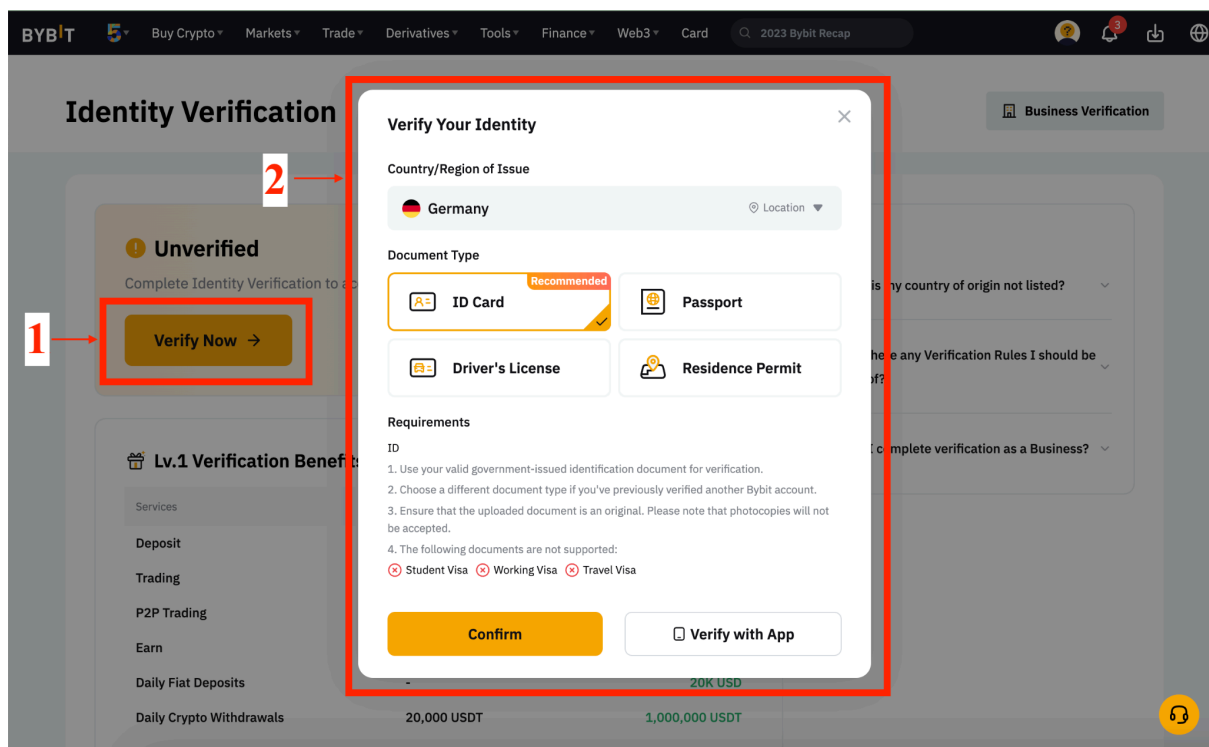

Verification Using a Computer

1. To use Bybit services, it is necessary to undergo identity verification (KYC). Don't worry; it won't take much time! Typically, it takes only a few minutes from the start to KYC confirmation.

Click on the phrase **'Verify Now'** at the top of the page or on the profile icon in the upper right corner of the navigation panel, then select the **'Complete Identity Verification Now'** section.

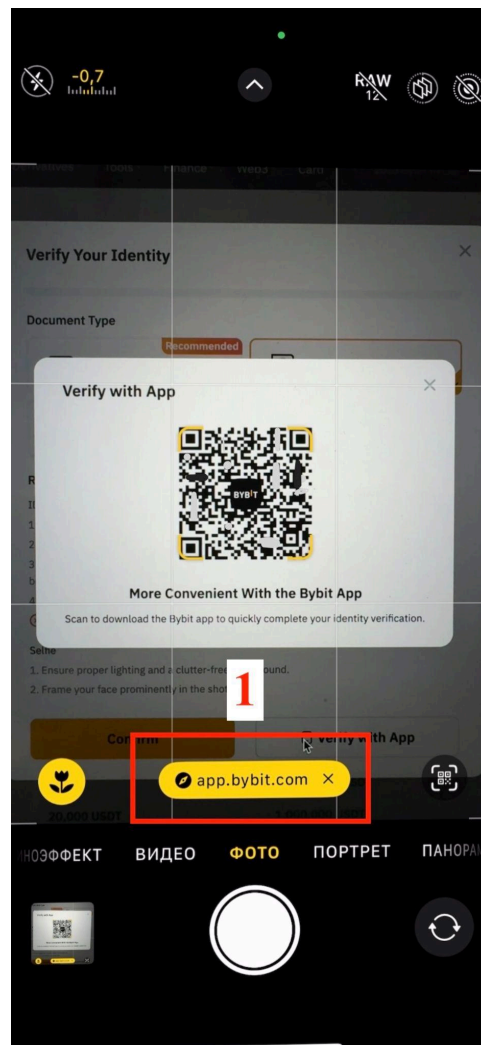

2. On the opened page, click the **'Verify Now'** ⁽¹⁾, and a new window ⁽²⁾ will appear for identity verification. Select the country or region where your document was issued, as well as the type of identity document. If you want to undergo verification using a computer, click the **'Confirm'** button and proceed to the next step of the instructions - **'Step 3'**.

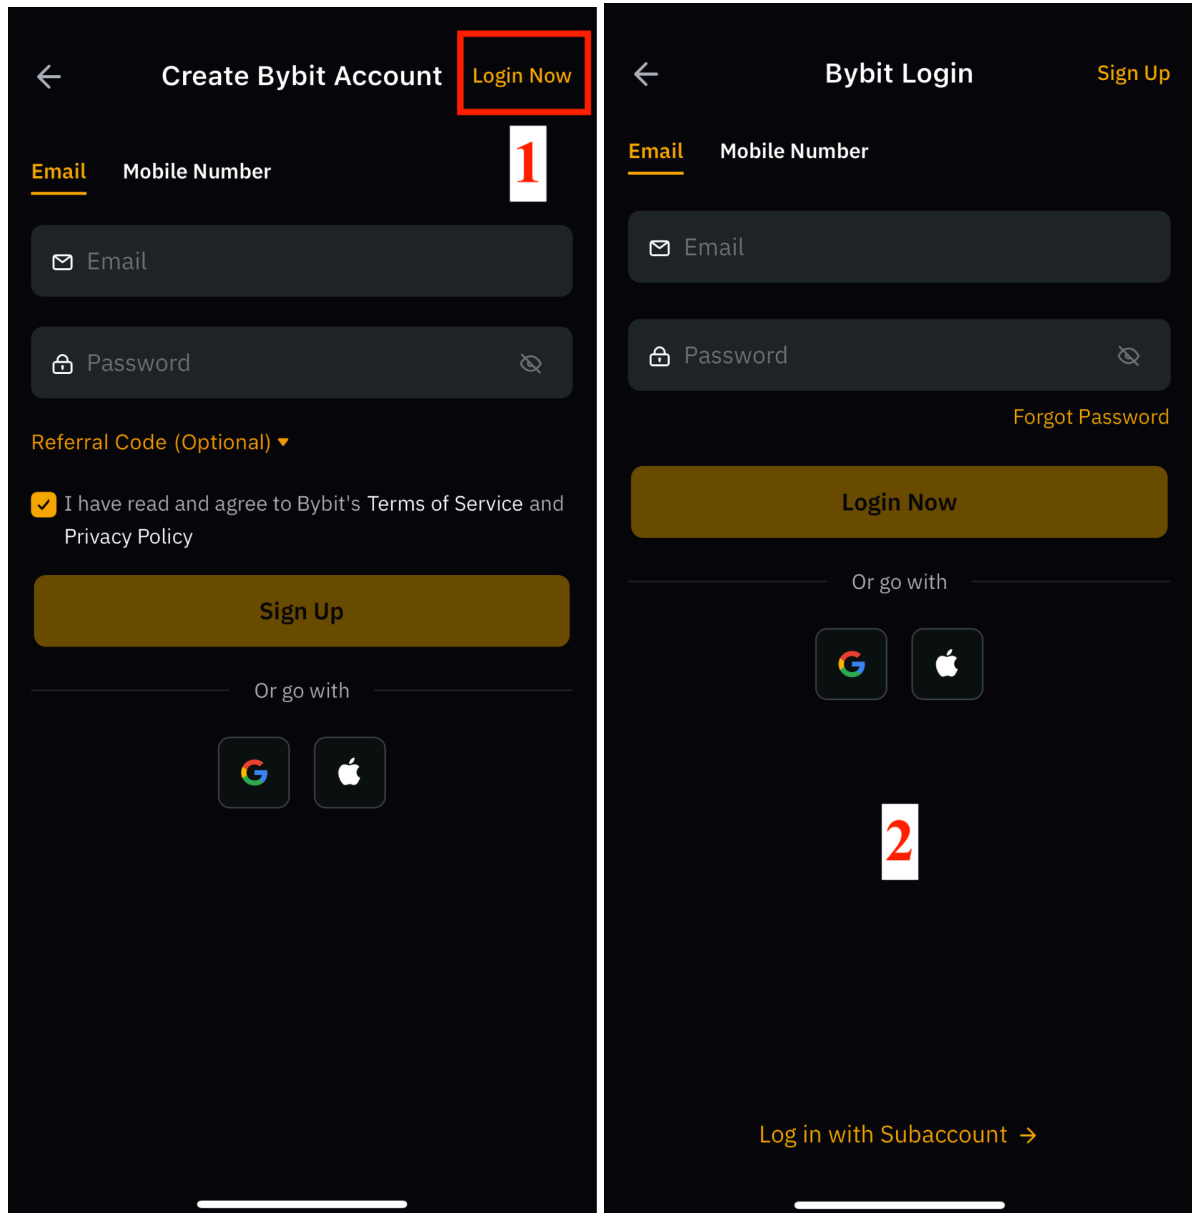

You also have the option to undergo verification through the Bybit mobile app. To do this, click the **'Verify with App'** button on the right and scan the QR code that appears with your mobile phone's camera (or download the official Bybit app from the [Google Play Store](#) or [Apple App Store](#)).

After clicking the link that appears ⁽¹⁾, your phone will redirect you to the app download page.

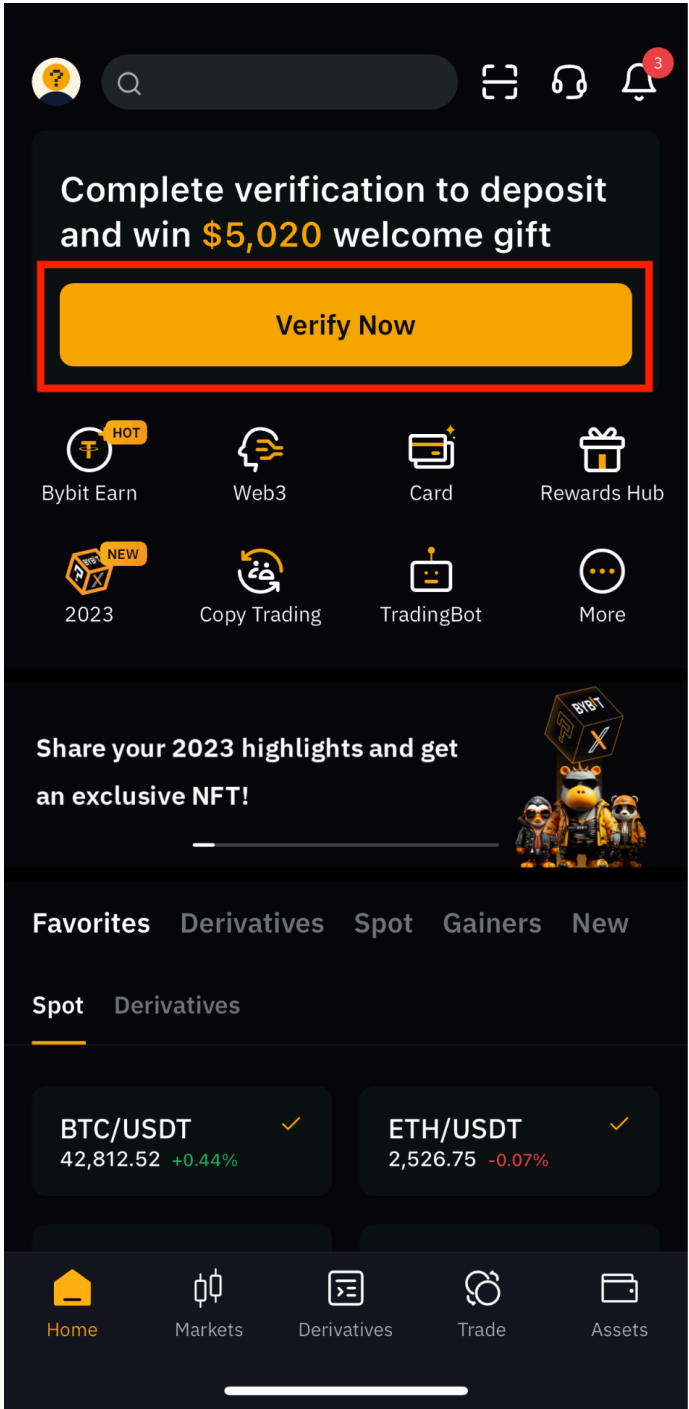

When the download is complete, open the app and click on **'Sign up / Log in'**.

You will be directed to the '**Create Bybit Account**' registration screen, but since you already have an account, click on '**Login Now**' ⁽¹⁾ at the top right, and in the opened window ⁽²⁾ '**Bybit Login**,' enter the credentials you provided during registration.

After successfully logging in, click the '**Verify now**' button and follow the mobile verification instructions (to access the mobile instructions section, [click here](#))

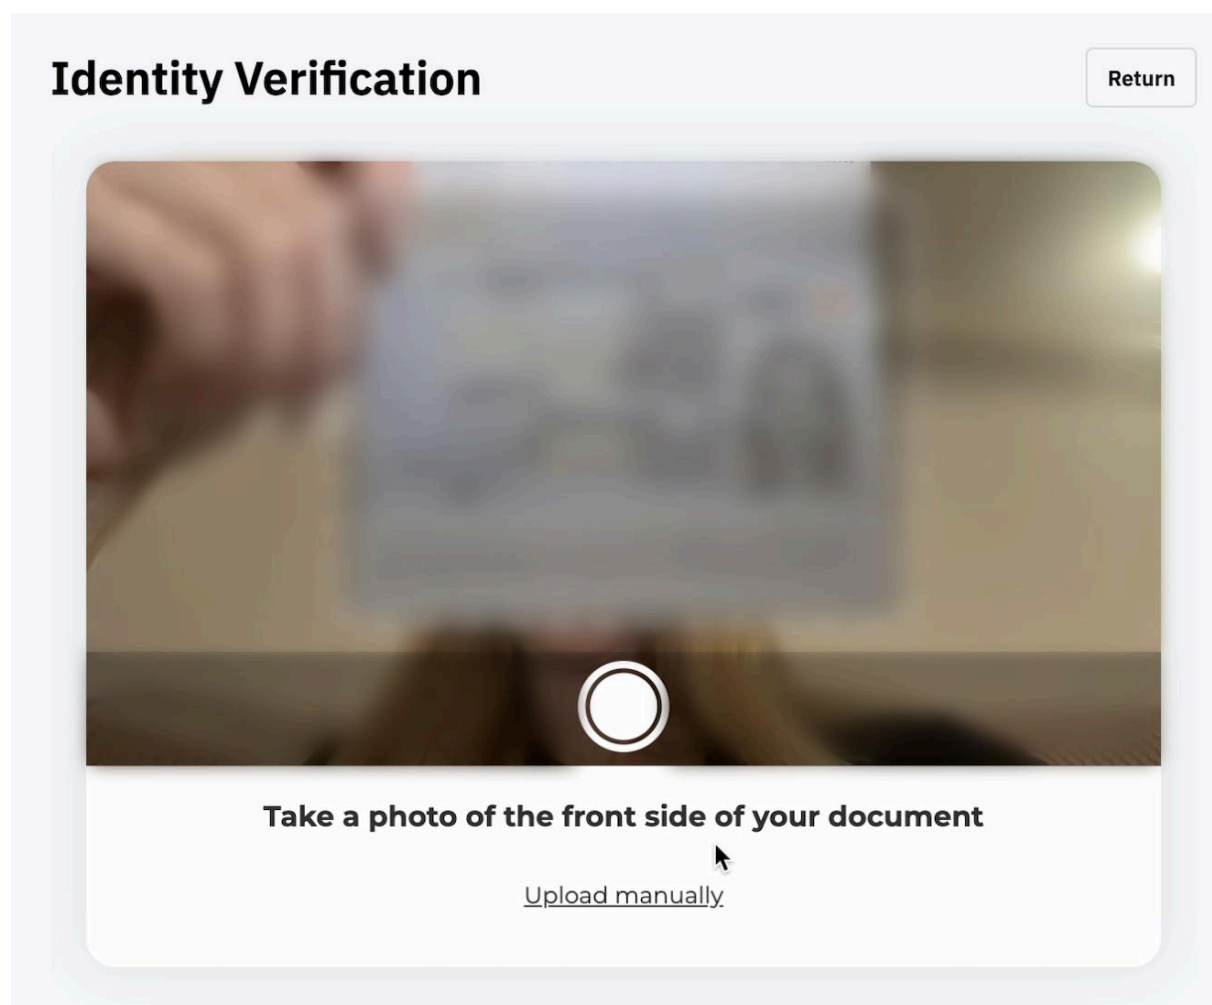

3. Take a photo of the selected document ⁽¹⁾. Ensure that your name and date of birth are clearly visible in the document photo.

Note:

- If you are requested to provide a photo of the reverse side of the document, please do so.
- If you are asked for the back side of a passport where only one page contains your details, take a photo of your details again.

If you wish to upload a photo of your document, click '**Upload manually**' ⁽²⁾. If you encounter any issues with photo upload, ensure that all the necessary information is visible in the photos.

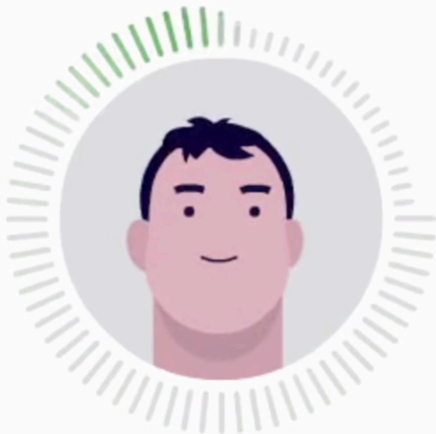

4. Complete the face recognition process using your webcam by clicking the '**I'M READY**' ⁽¹⁾ button or click '**continue on phone**' ⁽²⁾ and follow the instructions.

Identity Verification

Return

Face the camera. Ensure your face is within the frame. Then, slowly turn your head around in a circle.

Registration Using a Mobile Phone

1. Download the official Bybit app from the [Google Play Store](#) or [Apple App Store](#).
2. Open the Bybit app and click on the 'Sign Up / Log in' button.

3. Register using your email address ⁽¹⁾, mobile phone number ⁽²⁾, or through the registration buttons for Google ⁽³⁾ and Apple ⁽⁴⁾.

The screenshot shows the 'Create Bybit Account' screen. At the top, there is a header with 'Create Bybit Account' and a 'Login Now' link. Below this, there are two options for registration: 'Email' and 'Mobile Number', both highlighted with red boxes and labeled with a red '1' and '2' respectively. Below these options are input fields for 'Email' and 'Password'. A 'Referral Code (Optional)' section is also present, with a green 'GTPROTOCOL' code entered. A checkbox is checked, indicating agreement to the terms of service. A large 'Sign Up' button is at the bottom. Below the button, there is a section 'Or go with' with two options: 'Google' and 'Apple', both highlighted with red boxes and labeled with a red '3' and '4' respectively.

If you don't have a field for entering a referral code, click on the orange text '**Referral Code**,' and it will appear.

To register using your email address, enter your email, password, and the **GTPROTOCOL** referral code. Then click '**Sign Up**' to continue.

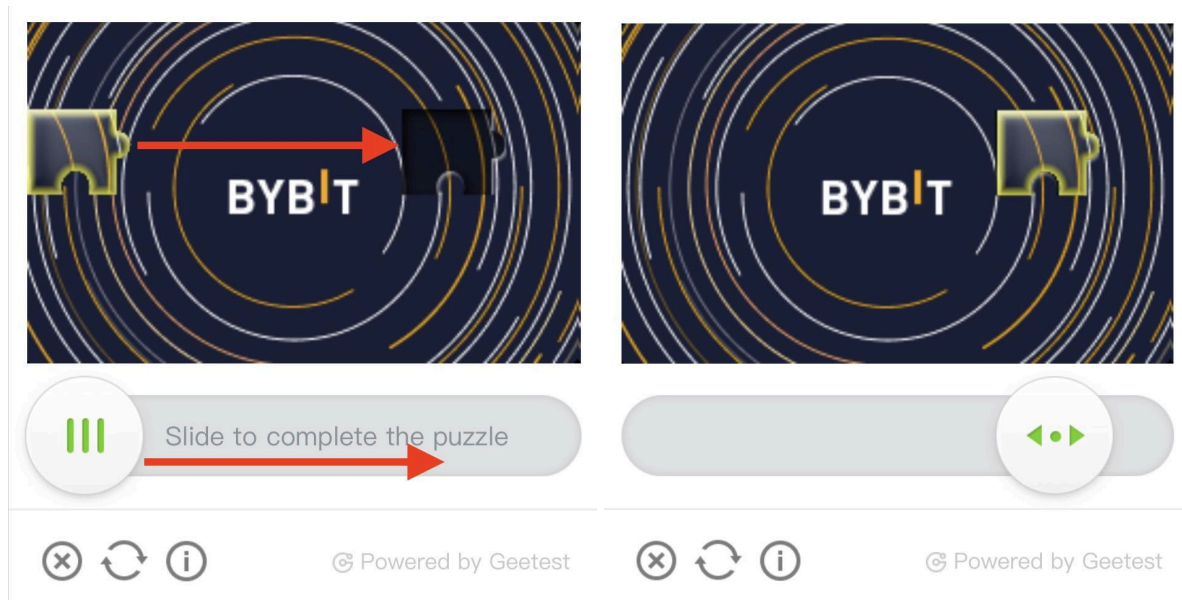

To register using your mobile phone number, select '**Mobile Number.**' Then, choose your country code, enter your mobile phone number, password, and the **GTPROTOCOL** referral code. Click '**Sign Up**' to create your account.

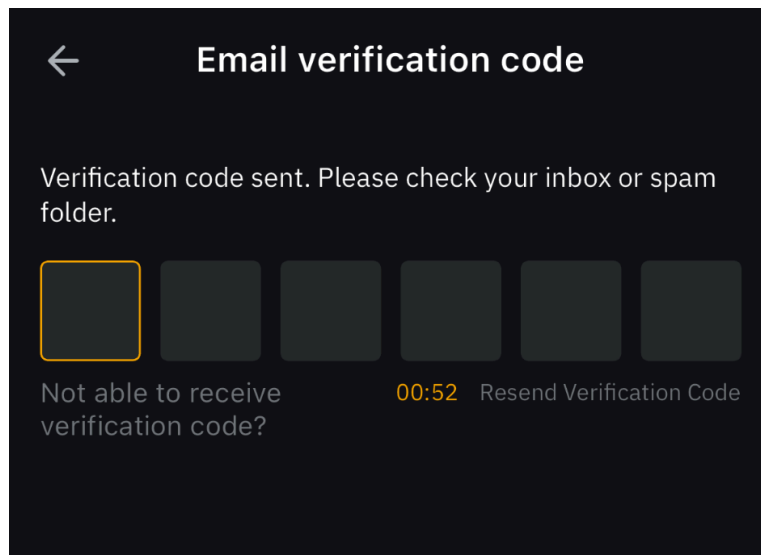

If you want to register using the registration buttons for Google ⁽³⁾ or Apple ⁽⁴⁾, don't forget to first enter your **GTPROTOCOL** referral code (if you don't have a field for entering a referral code, click on the orange text '**Referral Code,**' and it will appear), and then click on the Google ⁽³⁾ or Apple ⁽⁴⁾ icon.

Note:

- When you click the 'Register via **Google** button to create a Bybit account, the email address associated with your Google account will be used.
- When you click 'Register via **Apple,**' your email address linked to your Apple ID will be utilized to create a Bybit account.

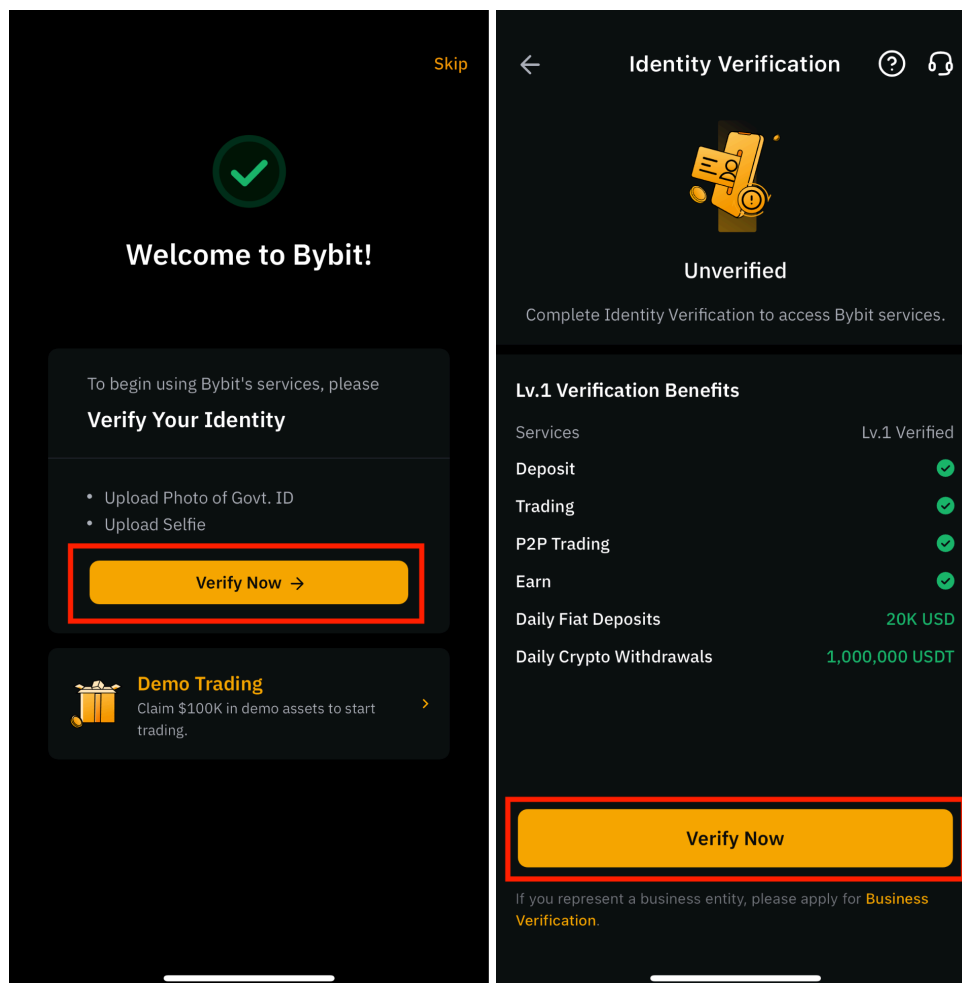

4. Complete the reCAPTCHA verification and enter the verification code sent to your email or via SMS to your mobile phone number.

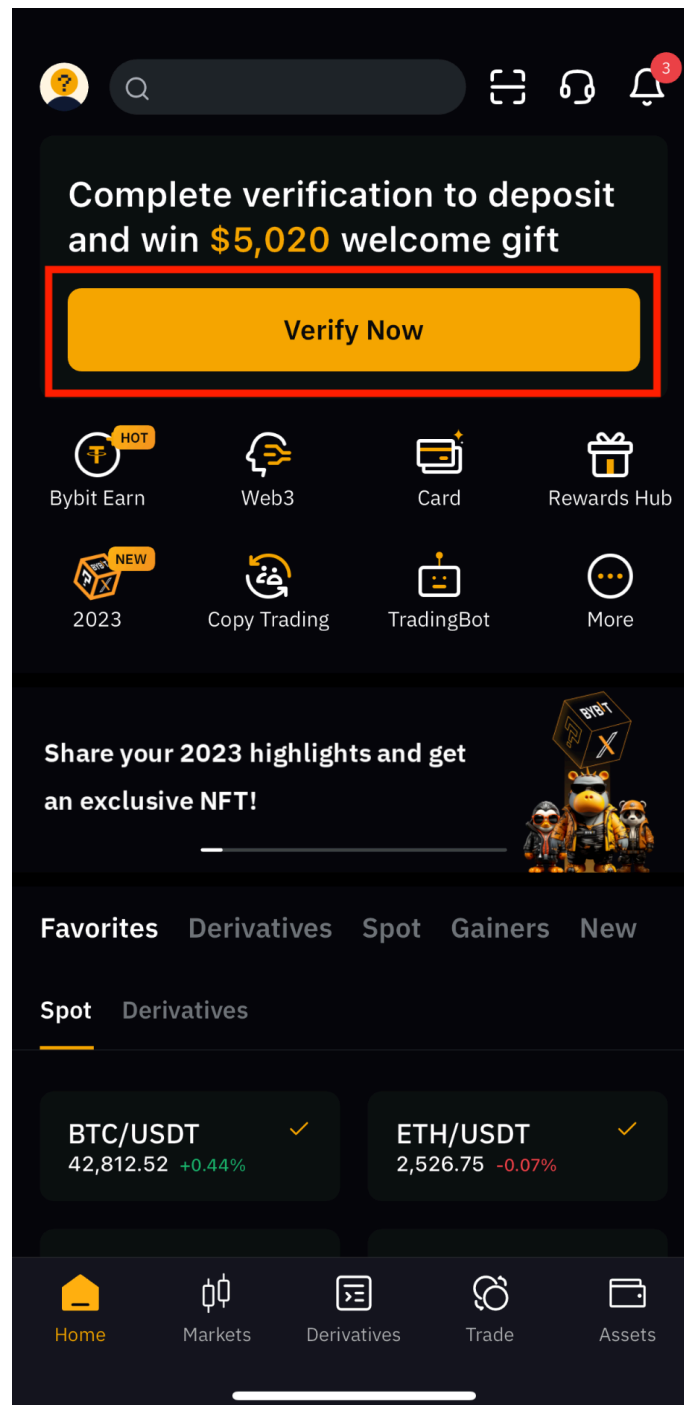

Verification Using a Mobile Phone

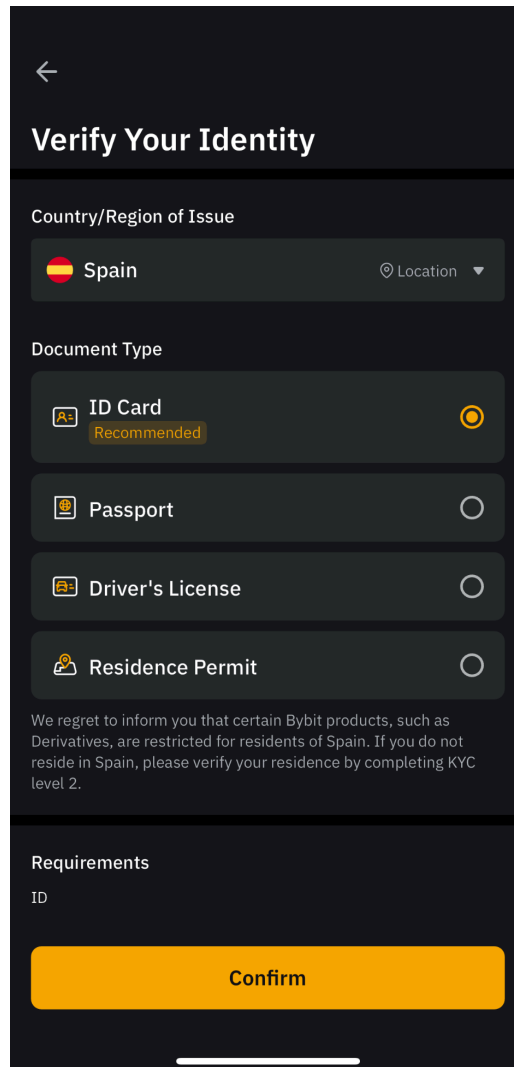

1. After successful registration, you will see the '**Verify Now**' button. Click it on this screen and the next.

If you accidentally clicked '**Skip**' and returned to the main menu, you can still find a button to proceed with verification here.

2. Select the country or region where your document was issued, as well as the type of identity document. Then, click the '**Confirm**' button.

The screenshot shows a mobile application interface for verifying identity. At the top, there is a back arrow and the title 'Verify Your Identity'. Below this, the 'Country/Region of Issue' section has a dropdown menu currently showing 'Spain' with a location pin icon and a 'Location' label. The 'Document Type' section lists four options: 'ID Card' (marked as 'Recommended' with a yellow badge and a selected radio button), 'Passport', 'Driver's License', and 'Residence Permit', each with an unselected radio button. A disclaimer text is present below the document type options. At the bottom, under the 'Requirements' section, the text 'ID' is visible above a large yellow 'Confirm' button.

Purchasing GTAI with a One-Click Credit Card Purchase

Using a Computer

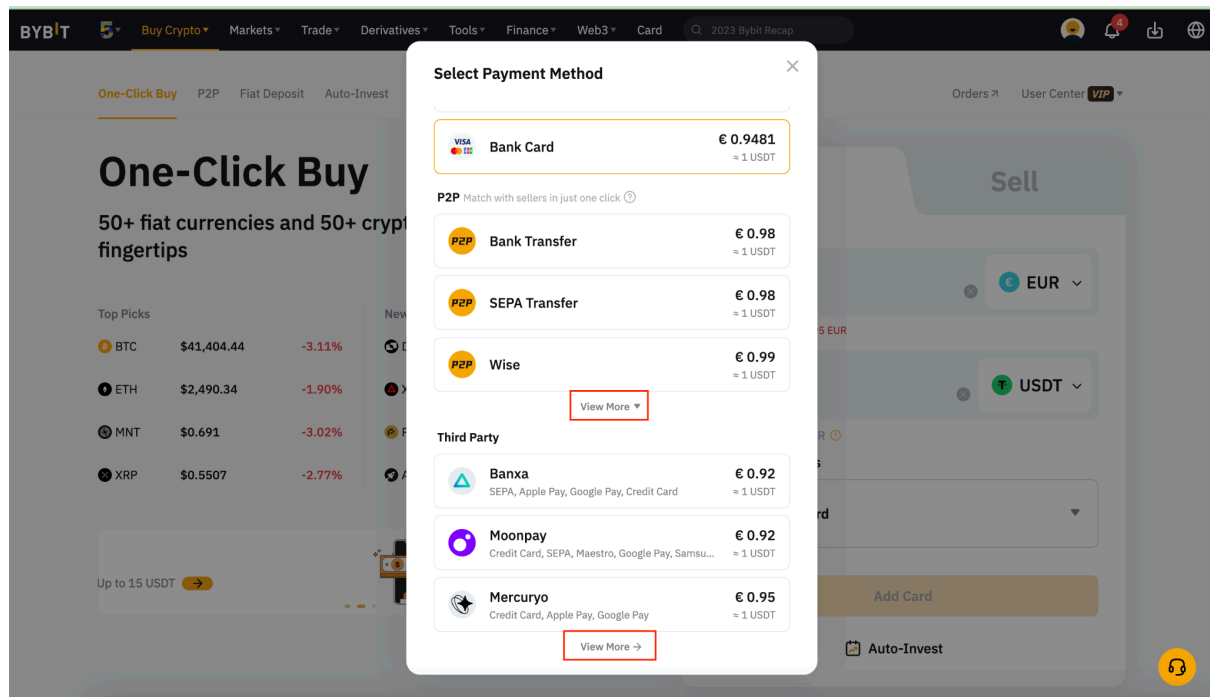

1. In the top left corner of the navigation panel, click on 'Buy Crypto' → 'One-Click Buy'.

2. On the right side of the website, you will see a window for purchasing **GTAI**. In the first line, select the currency you will use for payment ⁽¹⁾. In the second line, choose the **GTAI** token ⁽²⁾.

Select the payment method that suits you by clicking on the third line 'Bank Card' ⁽³⁾.

Please note that by clicking on '**View More**,' you will see even more available options.

3. In this guide, we will proceed with the purchase using a bank card, so click on '**Bank Card**' (or simply close the window for selecting a payment method if card payment is already chosen by default).

In the first line, specify the amount you want to purchase in **GTAI** tokens, and after that, the '**Add Card**' button will become active (you can also first specify the **GTAI** amount and see the equivalent amount in your selected currency that needs to be paid).

Congratulations on your successful purchase!

Buying GTAI through P2P

P2P transfers (**peer-to-peer** or **person-to-person**) are money transfers from one user to another without intermediaries.

Using a computer

1. To get started, we need to buy **USDT** cryptocurrency, which we can later exchange for **GTAI** tokens. Click on '**Buy Crypto**' -> '**P2P Trading**' in the top left corner of the navigation panel to access the P2P trading page.

2. On the '**Buy**' page, you can filter users who have placed advertisements by entering specific criteria for the amount, currency, or payment methods based on your transaction needs.

trade in 2 minu 103 Order(s) 98 % 1 hour ago	0.92 EUR	Available 530.9326 USDT Limits 2.00 ~ 5.00 EUR	EUR Balance	Buy USDT

Note:

- In the first column **'Advertiser'** the user's nickname who placed the advertisement is displayed. The columns **'Order(s)'** and **'%'** show:
 - The number of orders made in the last 30 days.
 - The percentage of completed orders in the last 30 days.
- In the **'Limits'** column, users who have placed advertisements specify the minimum and maximum limits in fiat currency for each advertisement.
- In the **'Payment Method'** column, you can see all supported payment methods for the advertisement you've selected.

Choose your preferred advertisement and click **'Buy USDT'**.

3. Once more, please double-check the information before placing your order ⁽¹⁾ and read the terms of the transaction with the seller ⁽²⁾. Enter the amount you want to pay for the purchase of **USDT** ⁽³⁾ (which will be exchanged for **GTAI** later). You will see the amount in **USDT** currency that you will receive in the next line ⁽⁴⁾. Click **'BUY'** ⁽⁵⁾ to proceed.

You will be redirected to the order page where you will have 15 minutes to transfer the money to the seller's bank account. Before proceeding, ensure that all the order details are correct.

Note:

- The name on the bank account must match your registered name on Bybit. Otherwise, the user who placed the advertisement may cancel the order and refund the money.

- Bybit's P2P does not charge transaction fees to buyers or sellers. However, depending on the chosen payment method, the payment service provider may charge a fee.

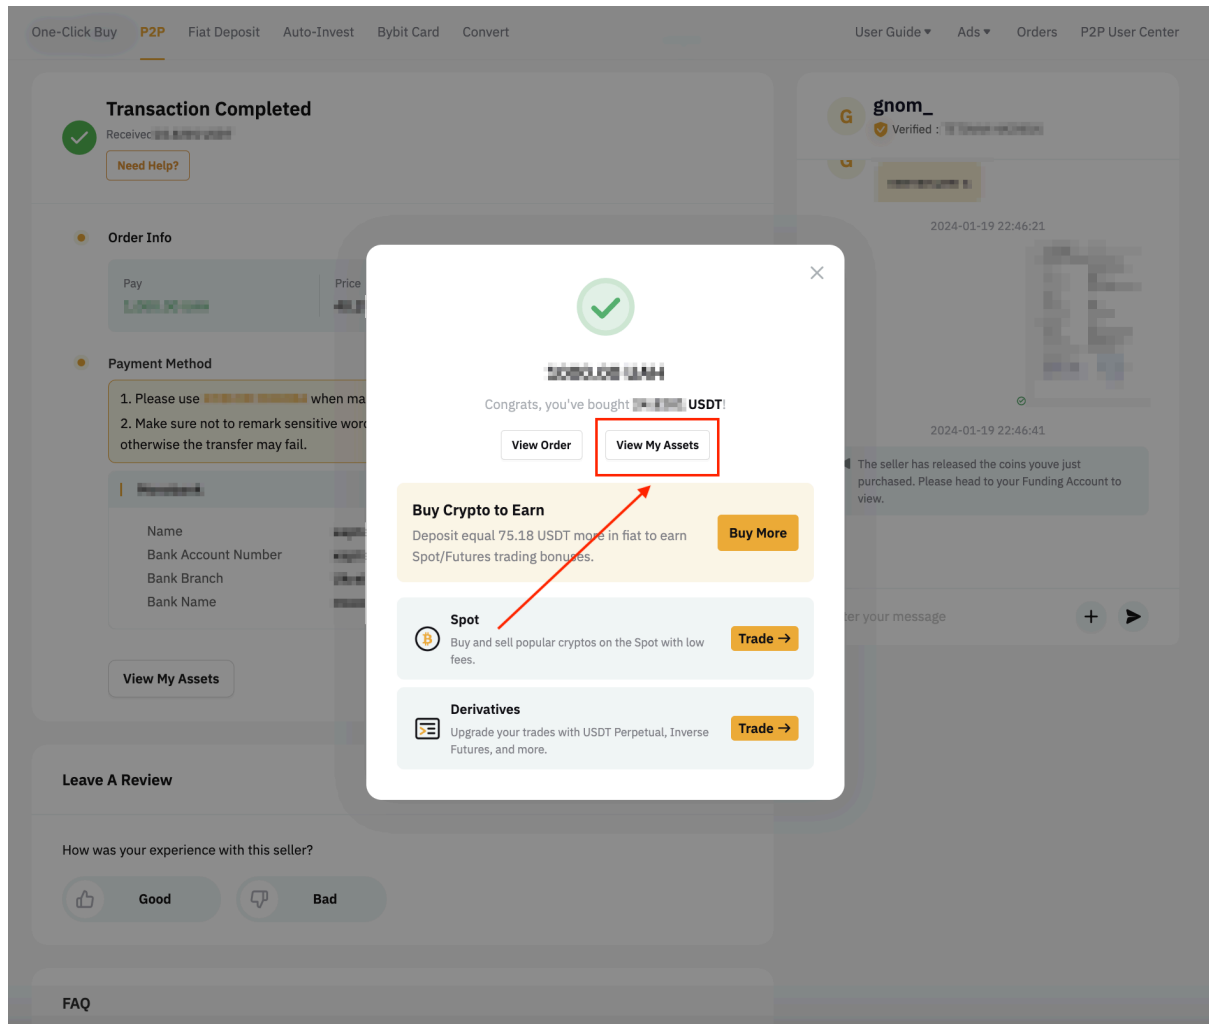

4. If the seller supports multiple payment methods, choose one of them ⁽¹⁾, copy the payment details ⁽²⁾, and make the payment through your bank's app. Please note that there is a timer at the top showing the remaining time.

The screenshot displays the Bybit P2P trading interface. At the top, a navigation bar includes 'One-Click Buy', 'P2P', 'Fiat Deposit', 'Auto-Invest', 'Bybit Card', and 'Convert'. On the right, there are links for 'User Guide', 'Ads', 'Orders', and 'P2P User Center'. The main section is titled 'Complete Your Payment Within:' with a countdown timer showing 13 minutes and 12 seconds. Below this, there are instructions and a progress bar with three steps: '1 Complete Your Payment', '2 Coin Release in Progress', and '3 Transaction Completed'. The 'Order Info' section shows 'Pay', 'Price', and 'Total Quantity'. The 'Payment Methods Accepted by the Seller' section provides instructions and a list of payment methods. A red box labeled '1' highlights the first payment method. A red box labeled '2' highlights the 'Copy' icon next to the bank details. A red box labeled '3' highlights the 'Copy' icon next to the total quantity. A red box labeled '4' highlights the 'Payment Completed' button. On the right, a live chat window is open with the seller 'gnom_'. The chat shows two green status messages: 'The assets of the seller have been locked. You can make the transfer with confidence.' and 'The seller has passed the identity, email and mobile number verifications.' Below these, there is a red warning message: 'The other party may be suspected of fraud, please do not contact the other party outside the platform, if you have any questions, please click "Need help?" File an appeal. Our P2P experts will provide further assistance via P2P order chat.' At the bottom of the chat window, there is a text input field labeled 'Enter your message' and a send button.

If you have any questions, you can use the live chat window ⁽³⁾ to communicate with the seller in real-time.

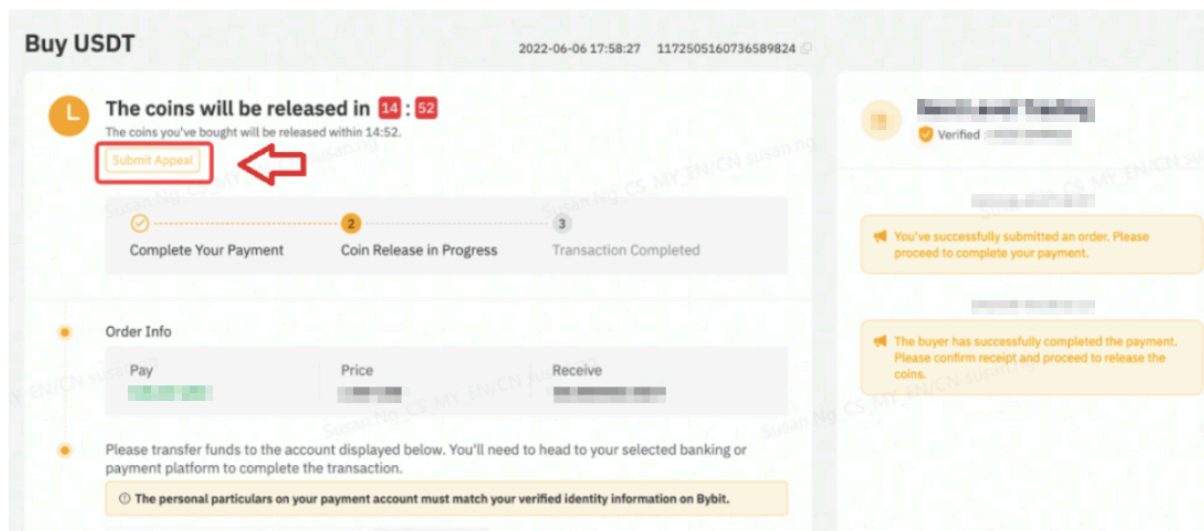

Click on '**Payment Completed**' ⁽⁴⁾ after completing the payment.

5. After the USDT you purchased has been successfully sent by the seller, you can click **'View My Assets'** to view them along with your transaction history.

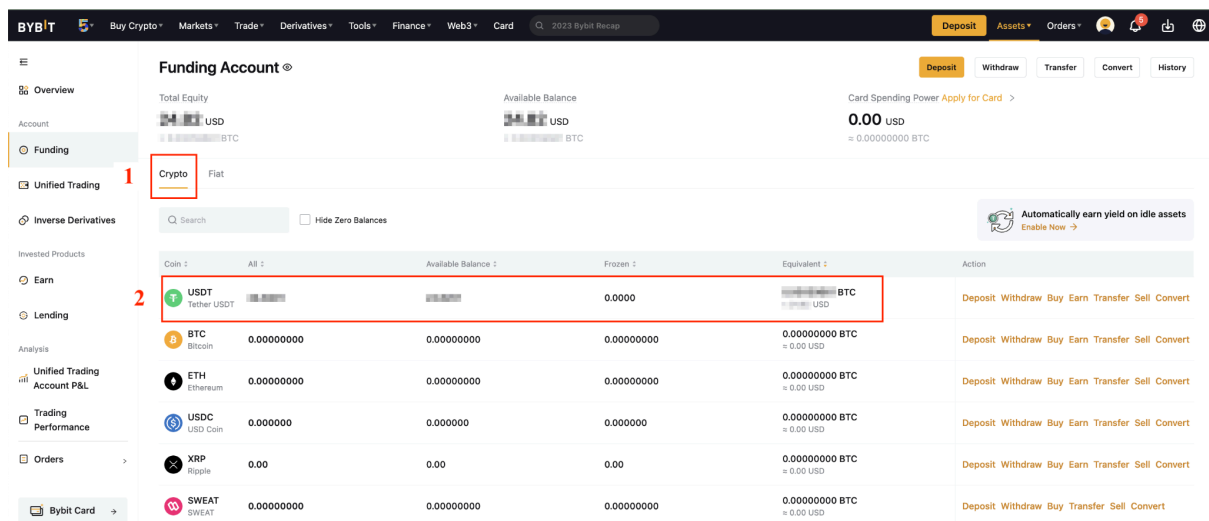

Note:

If the seller doesn't send the coins within 10 minutes, you can click on **'Submit Appeal.'** Bybit's support team will contact you. During this period, please do not cancel the order until you receive a refund from the seller.

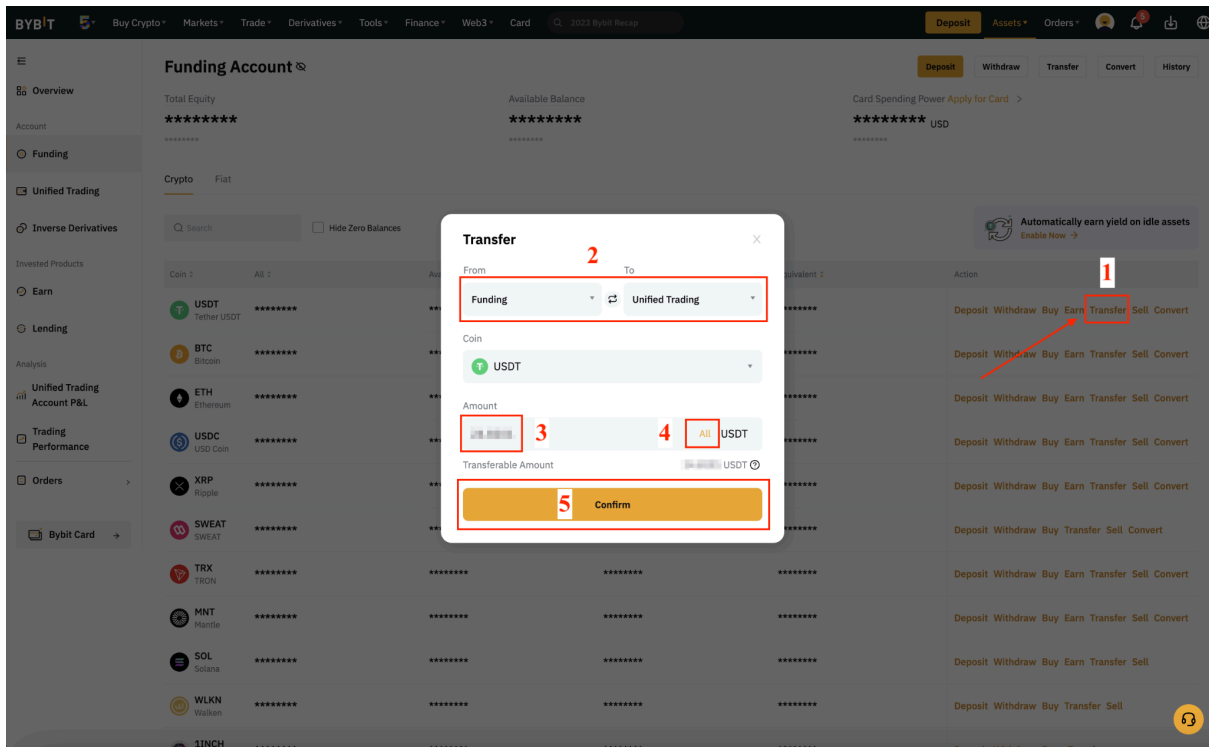

6. Switch to the '**Crypto**' tab ⁽¹⁾, and you will see that **USDT** ⁽²⁾ has been successfully credited!

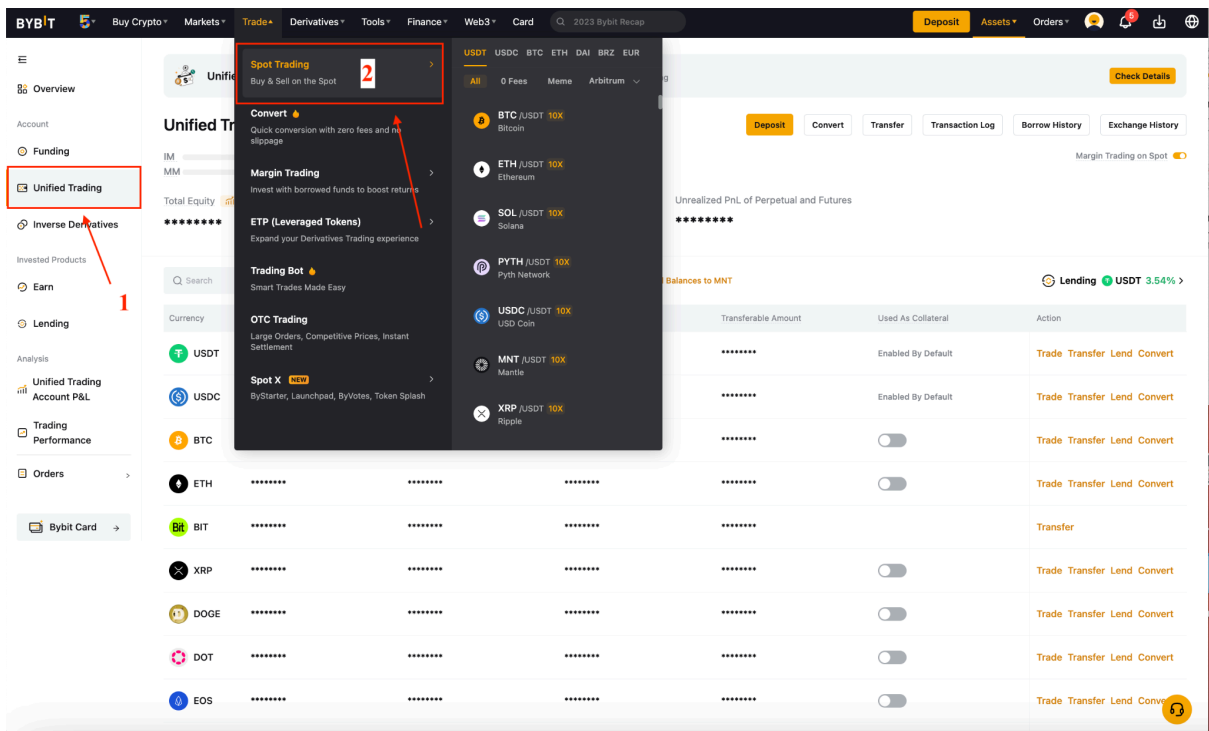

7. To prepare for your purchase, first transfer your **USDT** from your '**Funding**' account to your '**Unified Trading**' account.

To do this, in the **USDT** currency row on the right, click on '**Transfer**' ⁽¹⁾. Choose to send from '**Funding**' to '**Unified Trading**' ⁽²⁾, as shown in the screenshot. Enter the transfer amount ⁽³⁾ or select the entire amount ⁽⁴⁾. Confirm the transfer with the '**Confirm**' button ⁽⁵⁾.

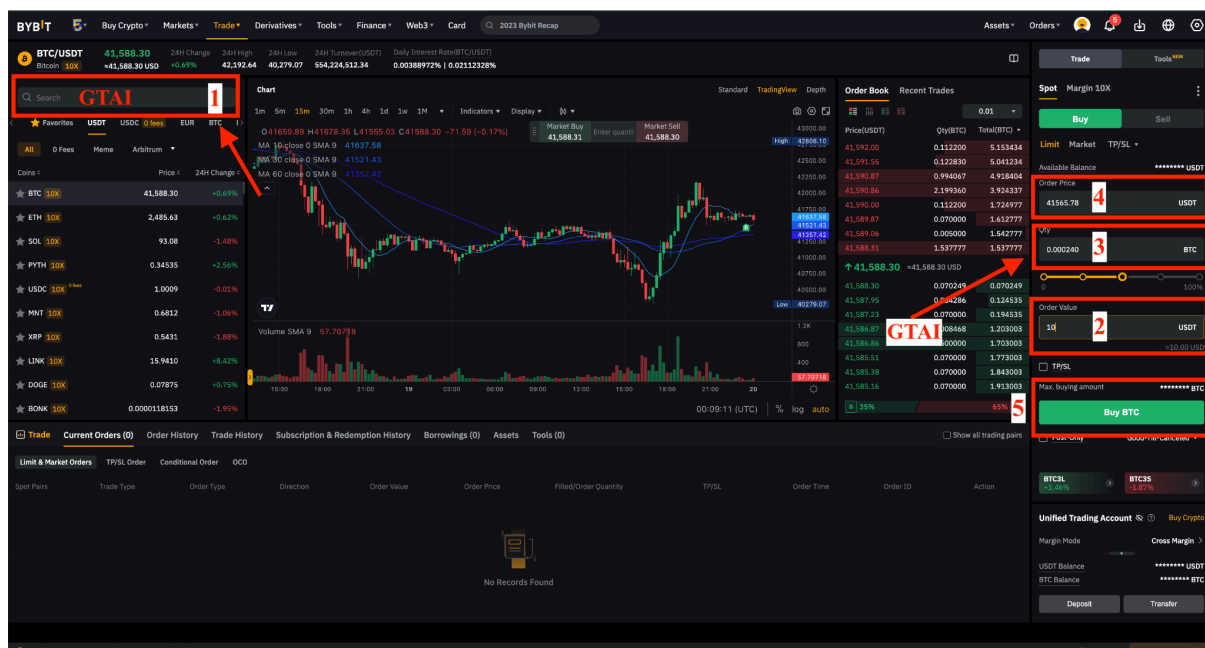

8. After this, you will be able to see your **USDT** in the '**Unified Trading**' section ⁽¹⁾. On the top panel, select the '**Trade**' section and click on '**Spot Trading**' ⁽²⁾.

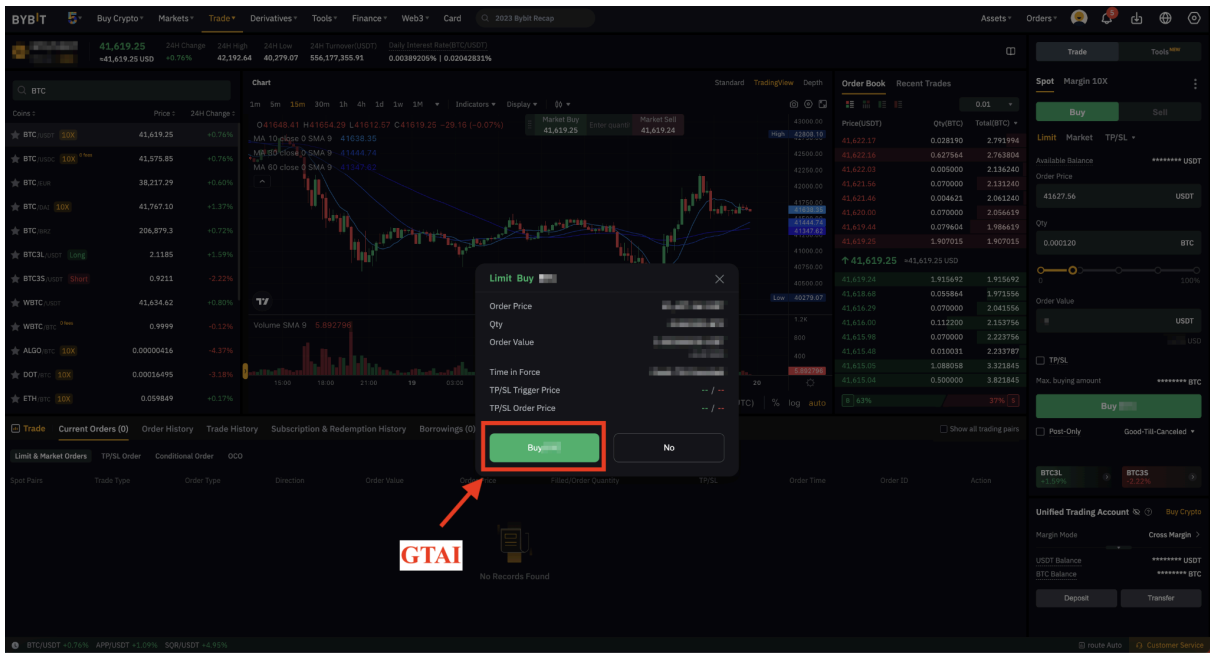

9. Find **'GTAI'** in the cryptocurrency search bar ⁽¹⁾. Enter the amount in **USDT** that you want to buy **GTAI** tokens for ⁽²⁾. In the **'Qty'** row ⁽³⁾, you will see the amount of **GTAI** tokens you will receive after purchasing the selected amount (you can also first specify the desired amount of **GTAI** and see the **USDT** amount you will need to pay).

In the **'Order price'** ⁽⁴⁾, you can see the current token price.

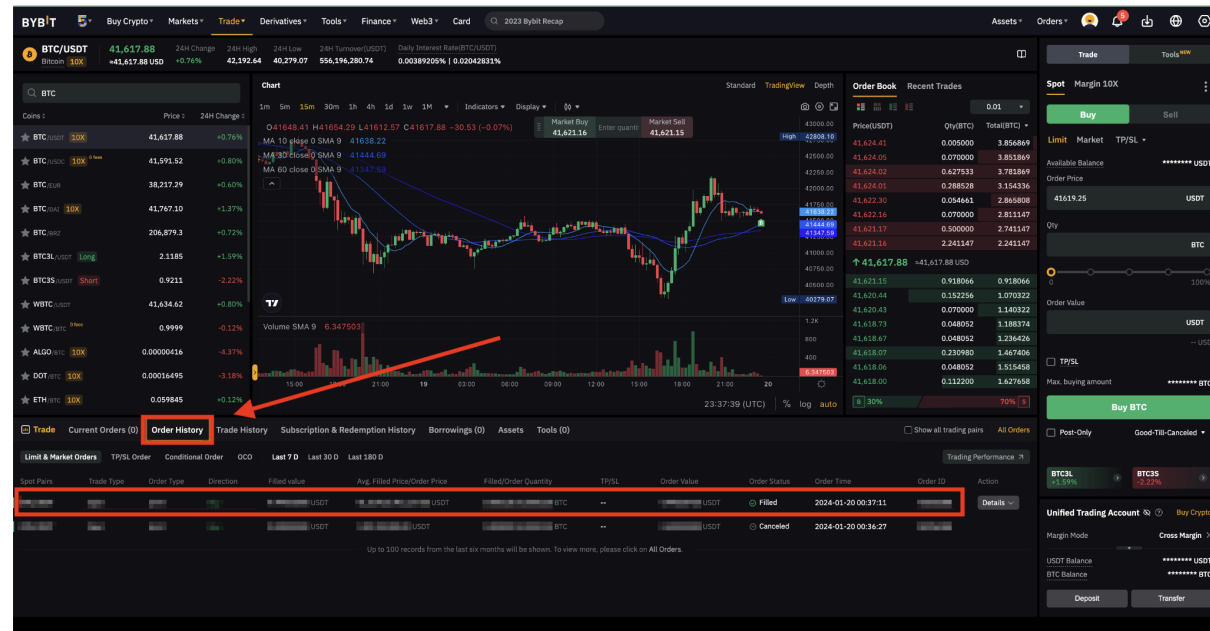

Double-check all the entered information and click the green **'Buy GTA'** ⁽⁵⁾ button.

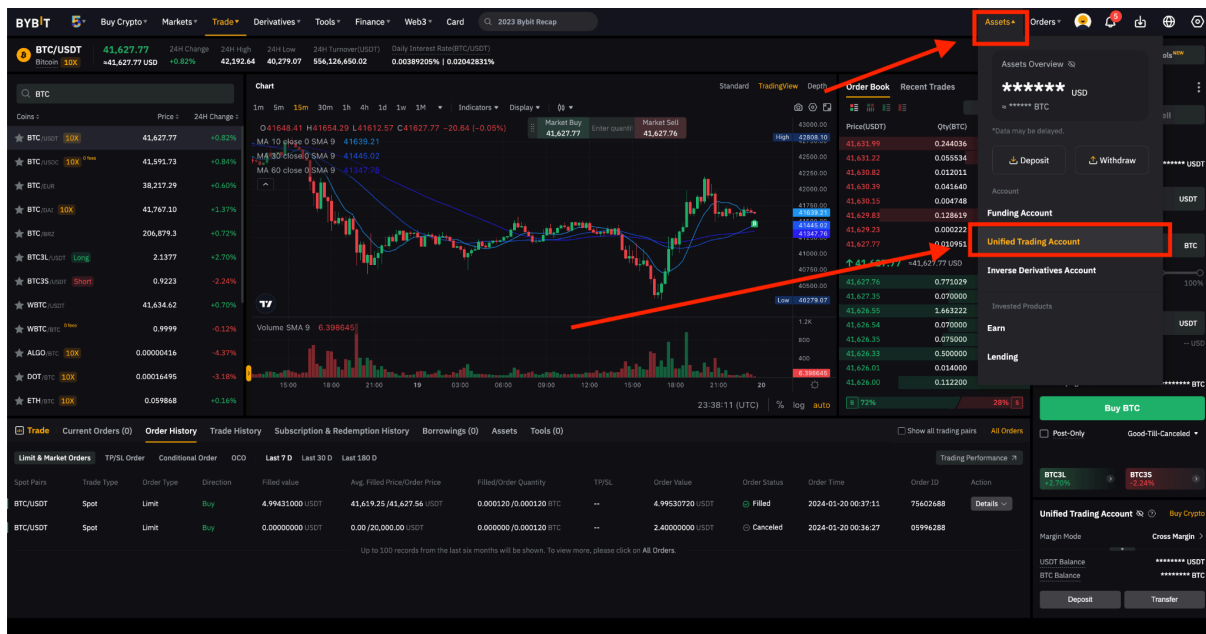

10. Next, a popup window will appear. Verify the details and click the **'Buy GTA'** button.

11. To see the details of your purchase, click on the 'Order history' button.

12. To check your account, go to the 'Assets' section and select 'Unified Trading Account.'

13. In this section, you will see all the available cryptocurrencies, including the recently purchased **GTAI**.

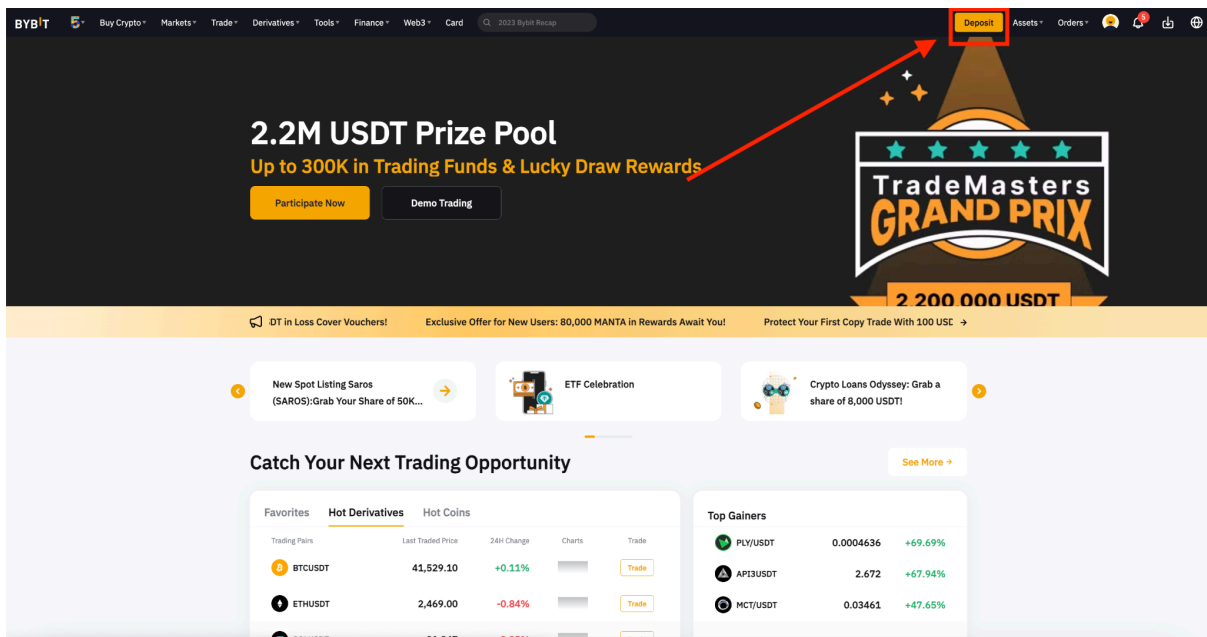

The screenshot shows the BYBIT Unified Trading Account Guide. The table lists available cryptocurrencies with columns for Currency, Equity, Wallet Balance, Borrowed Amount, Transferable Amount, Used As Collateral, and Action. The table includes entries for USDT, USDC, BTC, ETH, BIT, XRP, DOGE, DOT, and EOS. A red arrow points to the 'Unified Trading Account' section in the sidebar.

Currency	Equity	Wallet Balance (Bonus Inclusive)	Borrowed Amount	Transferable Amount	Used As Collateral	Action

How to Make a Deposit (for Those Who Have Cryptocurrency on Other Exchanges/Crypto Wallets) and Buy GTAI

Using a computer

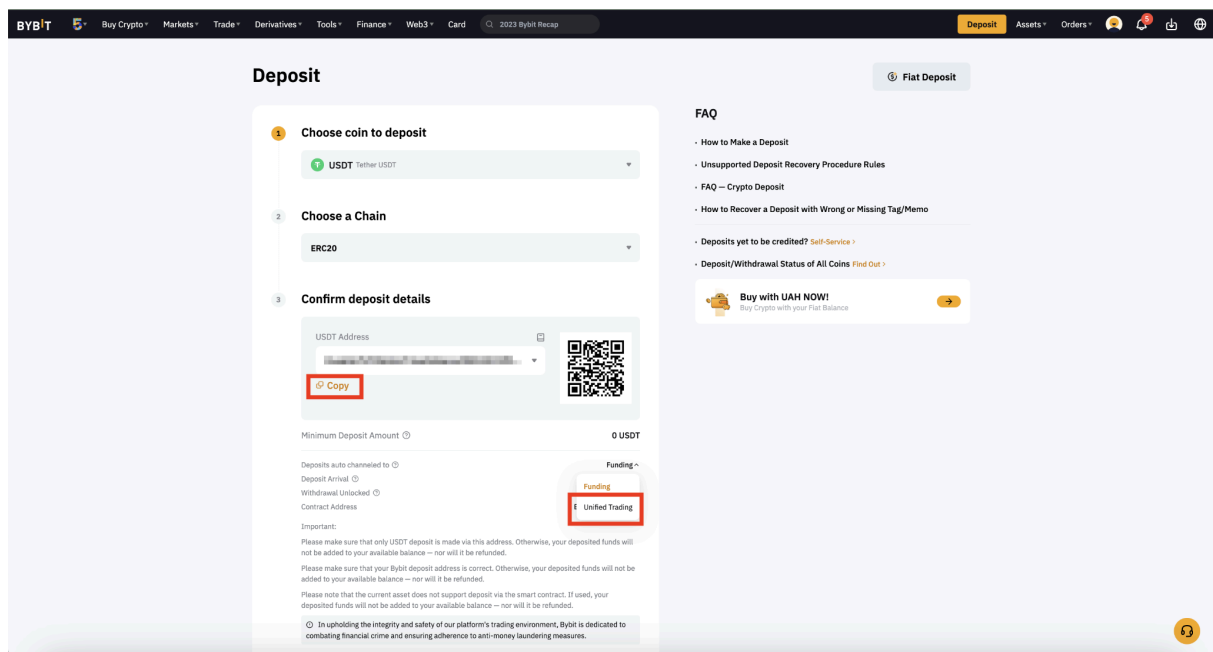

1. Click on the '**Deposit**' section.

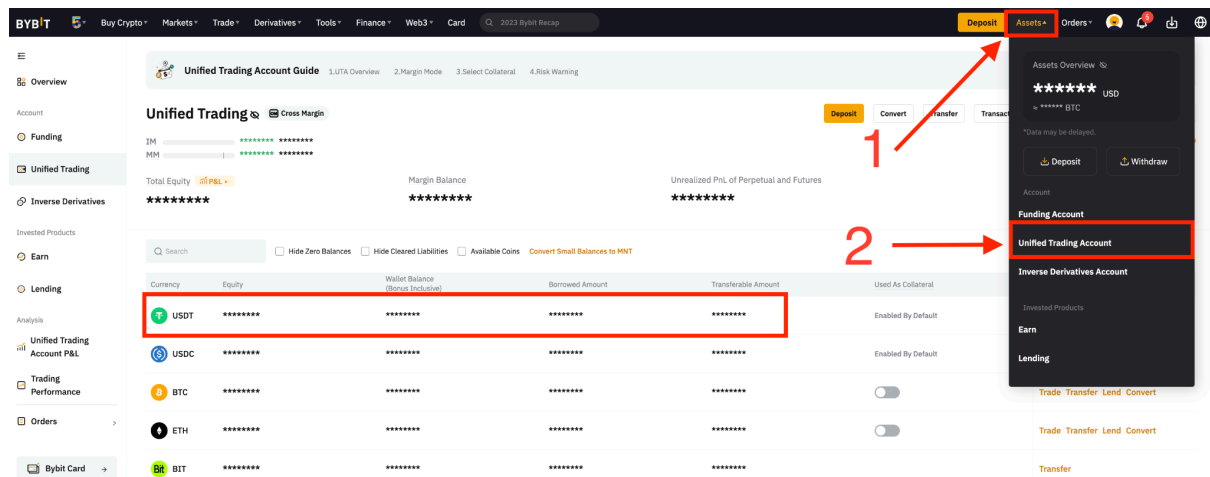

2. Choose the cryptocurrency you want to deposit (in our example, **USDT**) and the corresponding network (select the network supported by your exchange or wallet from which you plan to send cryptocurrency). Please be careful when choosing the correct network. Click on the 'Acknowledge' button to view the wallet address.

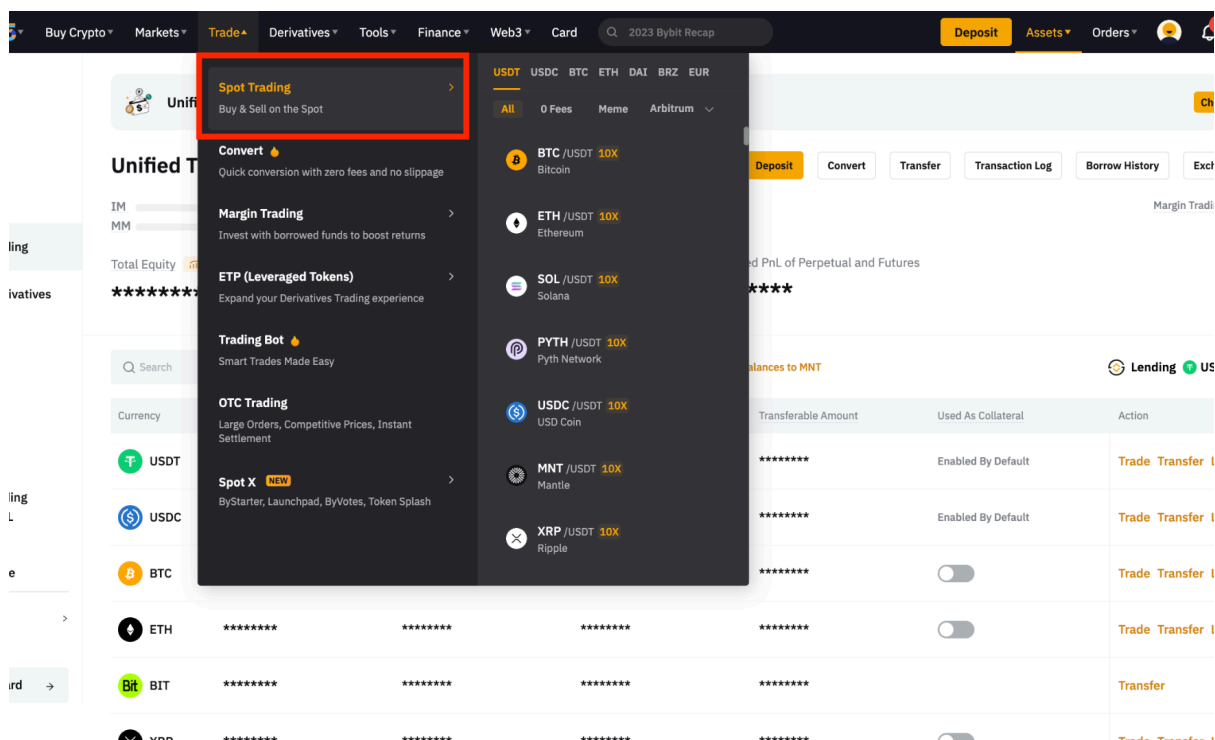

3. In the '**Deposits auto channeled to**' section, choose '**Unified Trading**' and click the '**Copy**' button below your wallet address. Make a transfer of the chosen cryptocurrency (in the correct network) to the copied crypto wallet address.

4. After the cryptocurrency is credited to the Bybit exchange, you will be able to find it in the '**Assets**' section under '**Unified Trading Account**'.

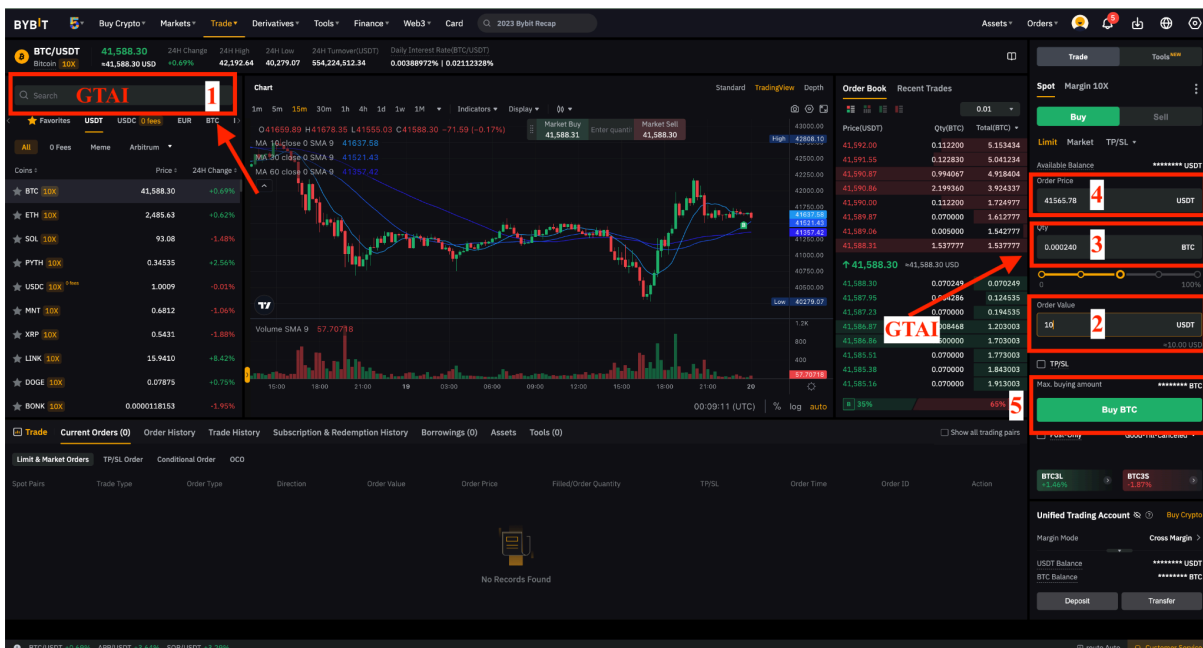

5. On the top panel, select the 'Trade' section and click on 'Spot Trading.'

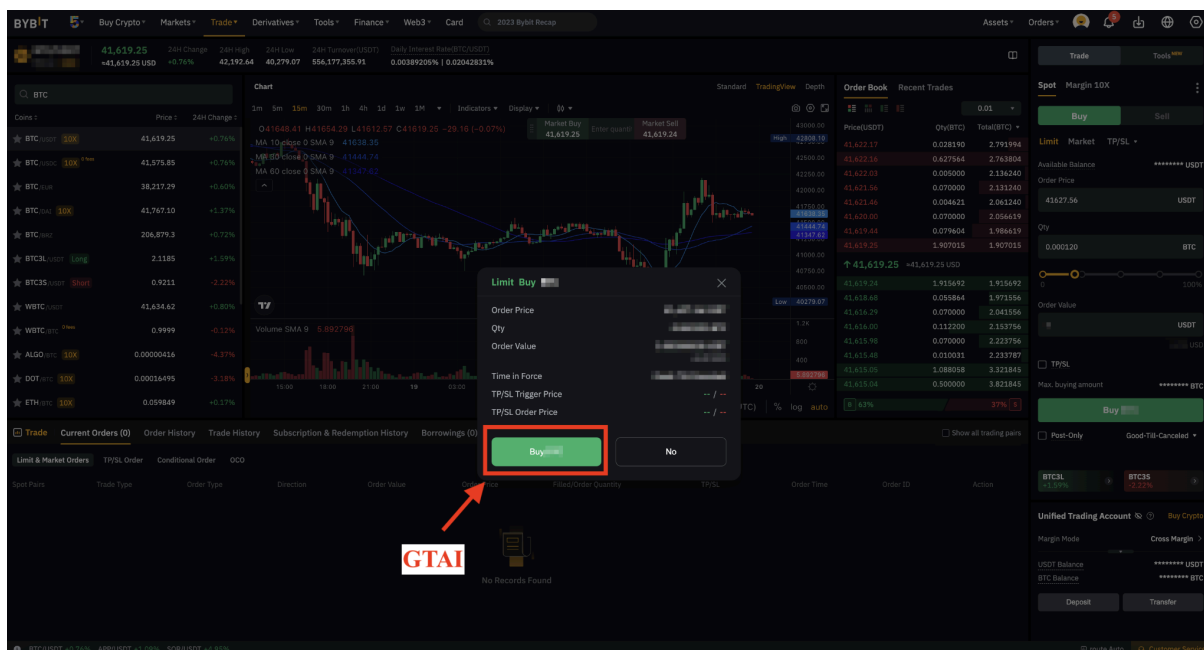

6. Find **GTAI** in the cryptocurrency search bar ⁽¹⁾. Enter the amount in **USDT** that you want to buy GTAI tokens for ⁽²⁾. In the '**Qty**' row ⁽³⁾, you will see the amount of **GTAI** tokens you will receive after purchasing the selected amount (you can also first specify the desired amount of **GTAI** and see the **USDT** amount you will need to pay).

In the '**Order price**' row ⁽⁴⁾, you can see the current token price.

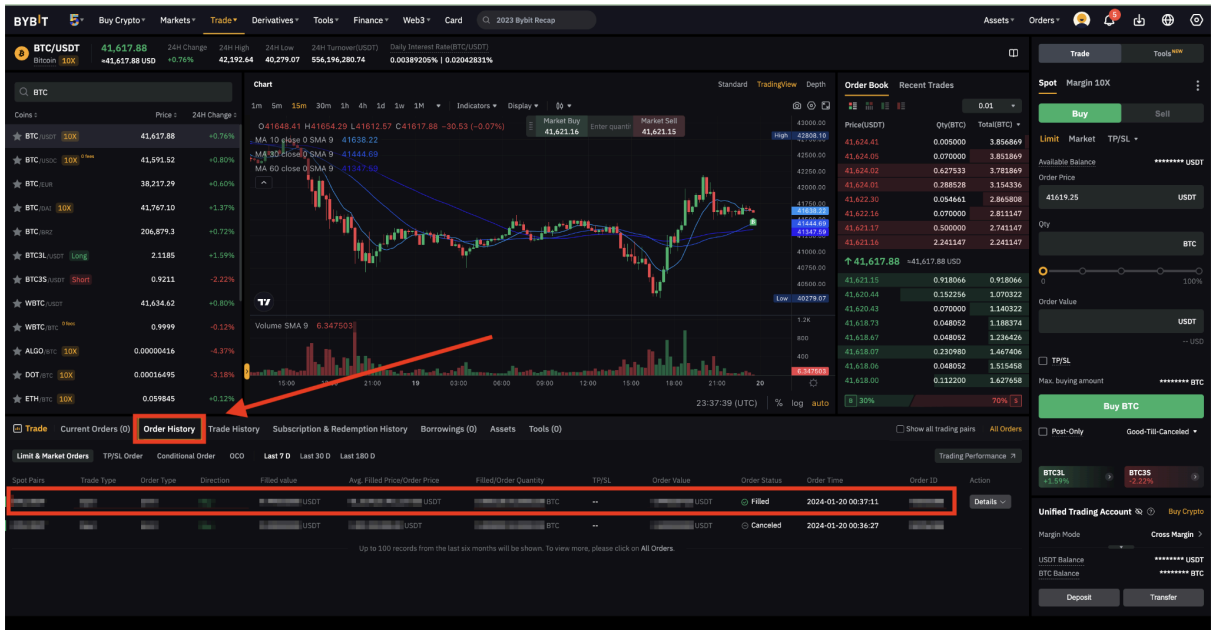

Double-check all the entered information and click the green '**Buy GTAI**' button ⁽⁵⁾.

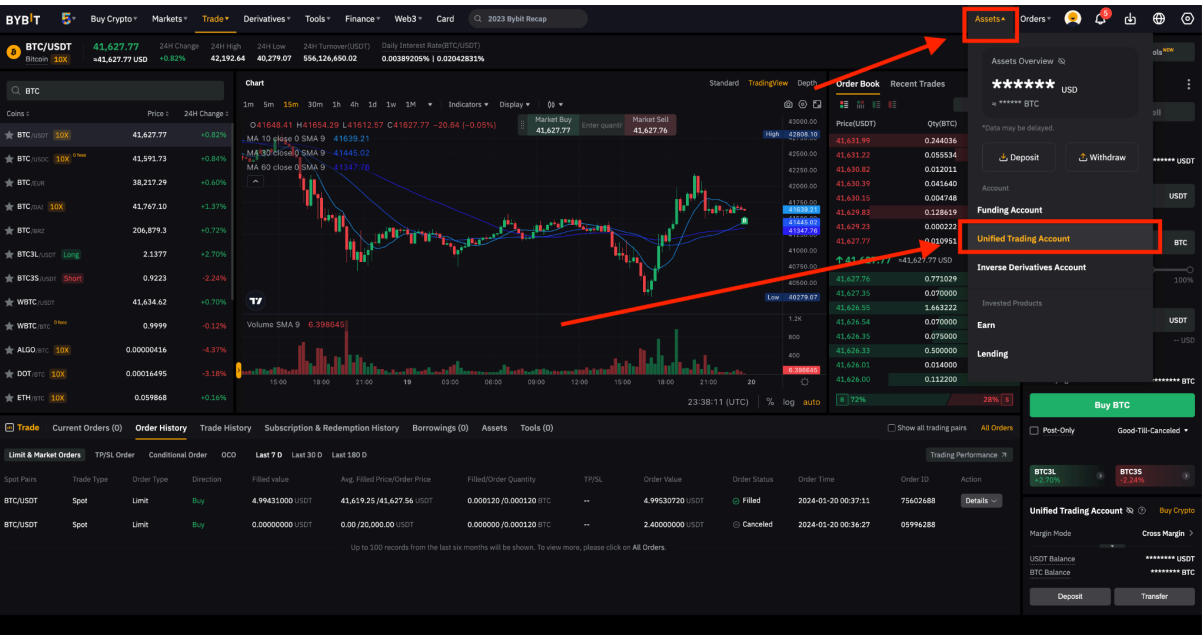

7. Next, a popup window will appear. Verify the details and click the 'Buy GTAI' button.

8. To view the details of your purchase, click on the 'Order history' button.

9. To check your account, go to the 'Assets' section and select 'Unified Trading Account'.

10. In this section, you will see all the available cryptocurrencies, including the recently purchased **GTAI**.
