

How to remove VM by PowerCli

Jing, mqjing@gmail.com

google doc ([view](#))

Command

remove-vm -vm [your vm]

Example

```
# remove all vm
$node_array=@('master', 'node1', 'node2', 'node3', 'node4', 'node5', 'node6')
foreach ($node_name in $node_array) {
    Remove-VM -vm $node_name -DeletePermanently:$true -confirm:$false
}
```

Enjoy!
