Your daily horoscope

Aries

Today's the day to sort things out, starting with your home. Is there anything that you have been meaning to purchase but you haven't got round to it? Act on your impulse and head to the shops. This is the moment to be brave and generous and get your wallet out!

Taurus

You're looking and feeling on top of the world today. There may be love in the air. Keep smiling throughout the day and speak to lots of people. The love of your life may be round the corner, in your office, at lunch. They may be someone you've already met ...

Gemini

If you've been having arguments with someone close to you, be careful today. You have a negative energy today and you may say something that you will regret. Discuss any serious issues later in the week. In the meantime, stay calm and collected.

Cancer

You are in a good mood today, and you're thinking about other people. Do something to help someone at work or in your family, or a neighbour – it won't cost you anything. This is your day to shine and you'll be rewarded for your kindness.

Virgo

New changes at work will soon become apparent, and they may not please you. This is a good time for you to be quiet and reflect. If you feel too emotional to react to the situation, wait for a few days. Why not try confiding in a friend or relative?

Libra

You feel crazy today, so change all your plans immediately! Feel free to take a risk but don't forget to keep your loved ones happy. It's time to show a friend or partner how much you love them. Perhaps you could invite them to something special this evening like a romantic dinner or a fun night out?
