## INTRUCTION

What is in the east of the caribbean in one of the islands? I will give you a hint, it's on the island line. Not Cuba, not British Virgin Islands. It's a place where pina colada is made. Its...Puerto rico! This book will teach you about this island.

### **CHAPTER 1**

Puerto Rico was an **island** in the Caribbean where I was on. Well today I am going to teach you what to do there. Puerto Rico is famous for making pina colada cocktails. Pina colada has now become a worldwide famous drink that I tried actually but without **alcohol**.

The island is also famous for 3rd best beach worldwide. There is an island which is Puerto Rico but there is also an island named Vieques and Culebra and exactly Culebra is the island. You could drive one hour to Ceiba and use boat service to Culebra about 45 minutes to the island and there is a beach called **Flamenco** and there are very big waves there.

Also it has really cool restaurants there and the food is delicious like duck for appetizer and creme brulee for dessert. I really like the food. One of the restaurants and in west San Juan (Puerto Rico's Capital).

When you go around Puerto Rico you could find a lot of other famous things like Luquillo Beach and others.

Also there is a big **jungle** with hiking to the top of the mountain which has a big view and you enjoy looking from about 378 meters high up. When you go hiking in Puerto Rico there might appear at least two waterfalls that are beautiful.

There are abandoned log houses around the jungle to explore! What is also cool is a bunch of rocks lying down by the **reservoir** and you could take a break and eat all your snacks while you see the whole Puerto Rico main island. Sometimes there are waves that might splash against the rocks. Leaving logs falling down the cliff of the mountain and there are a lot of palm trees to sit down and cool down.

This is a picture of a waterfall.

There are a lot of hills as you can see in the picture. That is the island Vieques which I have not been on but is the

same as Culebra you travel by boat 30 minutes and a funny joke is the island Vieques has a city named Vieques. But there are famous things like the island reached the world record of highest hiking trail in Puerto Rico which is 684

meters high. When you climb up you get to see the ocean and the boats running along the water to islands. Another fun fact is Vieques has a lot of explore tours, for example.

The cave leads to a view for a route 128 boat that crashed and the best is you can see the mountain, **but don't fall!**

A way back out the cave is more interesting because you could see **fruit bats** and **wolf spiders** so get out faster if you are scared of those animals!

## Chapter 2:What are the activities

You may wonder what to do there?Well this chapter will tell you!

First is hiking because there are cave tours that walk by bats that are **nocturnal**. The word nocturnal means it sleeps at day time and wakes up at night. Hiking is scary because they tell stories and make jokes.

Beaches! They are popular because there is a 3rd best beach in the world. It's name is Flamenco Beach on the island Culebra next to main island Puerto Rico.

Stay at your hotel because you can cool down, go to the pool, stand on your balcony, and relax. Remember it's not just the outside. It's the inside.

You see, there is a lot to explore hiking, beaches, and your hotel and lots others. You should

Picture of a cave view  
on 128 route.

Maybe you like to go and try a 24 hour **island** and spend your day surviving on it. You could go to the beach or climb trees but the main idea is to survive. To start off, you can place your chairs. Then you could go explore some caves and come back to your chairs and make a tent and a fire. Sleep and if you want more days, Repeat. You should go to Puerto Rico...you should.

Here are other activities you can do.

Exploring Old San Juan is cool. It's located in the middle north of San Juan. You could see towers because Puerto Rico wanted to defend themselves.

Foods! I really like what they cook! Creme Brulee is one of my favorites. Also they have souffle which is almost like Creme brulee but like a cupcake.

There are a lot of cool murals especially Teddy Bear. It's basically ad's but drawings. It's funny to look at them because they are attractive.

Those were some "something to do" things in Puerto Rico.

Now here are some explore things to do.

A lot of people live in the wild. So you can find a lot of campsites in the jungle, woods, forest. Camping is my favorite thing to do because of the fire. Well I didn't camp there but always remember nobody stops you. It's also cool because you can explore the wild by going near a flow or building a treehouse. I mean you might not want to do it but I just feel like a builder..

## Chapter 3: Life History

Puerto Rico is not just an island. It's a historical island that had a tsunami and destroyed homes in 2017. Not too long

ago there were pilgrims existing in 2006. The hole was also historical. The hole is a big big dug out circle that has an electrical radio station on it but the big thing is you are about 5 feet tall and the hole is 168 feet across and 78 feet down. Many people you will see homeless and sleep outside stores and that's because a long time ago as I early said there was a war and towers protected the land and many of those guys who attacked stole money and people were homeless and fought by attackers.

## Conclusion

**Puerto rico** is a great place for vacation and homes. To visit flying is a choice or on a boat and helicopter. It's a nice place for gardens and world records of beaches and tsunamis.

Glossary:	
Nocturnal	Something that sleeps at day time and wakes up at night.
jungle	A place almost like woods but is much bigger and has tall trees.
Puerto rico	An island in the caribbean.
Island	A piece of land surrounded by water.

Homeless	A person who doesn't have a home or apartment and that lives on the streets outside.
