

From the Office of US Representative Tucket1911

Recently Supreme Court Justice wildorca was left in a terrible accident, my thoughts and prayers to his family in this terrible time. I do hope to see his soon recovery, and I do want to see wildorca back in United States Judiciary soon. However, in the occasion a vacancy occurs, our President needs to appoint a new Supreme Court Justice. While I might only be a Representative this vacancy means so much to the future of judicial precedent and the future of this country. Again, while I have no say in who President GuiltyAir nominates, and the confirmation of such nominee. I want to state my opinions on the matter.

Inevitably, the President will nominate someone to the left of the political spectrum. Such as Chief Justice of Sierra Dewey Cheatem. However, I would love to see the Senate shoot down that nomination immediately (if such nomination came into existence). If I were to be asked to make a suggestion, I would suggest someone like IAmATinman (although I don't know if he wants to be a Justice, either way I don't get

to make an appointment). I don't think many understand the importance of this nomination, like every nomination to the Supreme Court. The future of our rights, the future of this country depends on the right person being nominated and consented to this seat.

The fate of unborn children, the fate of tyrannical and absurd actions in Sierra, lay on this Supreme Court nomination. I hope our leftist President makes the right decision (for once) and nominates someone worth nominating. Along with that I hope the Senate uphold their duties and stops any leftist nomination right in its tracks.
