Preface:

"The following information was obtained primarily from records in the Davie County Register of Deeds Office. Every effort was made to insure the accuracy of the material...For the most part, spellings of names have been left as written in the original document. As most people spelled phonetically as they heard the name pronounced, some interesting combinations were written down for posterity to interpret. So, when looking for a name of an individual, use your imagination and look in areas other than the current, accepted, spelling of a name would typically lead you. Without the aid of others, this book could not have been completed. I especially want to thank Doris Frye and Glenna Lagle for their assistance--their many hours spent helping me proofread the material were invaluable."
