

Module Description: Management in Nursing (Professional Nurse; Elective Course)

Module designation	Course Module
Semester(s) in which the module is taught	IX
Person responsible for the module	Rini Rachmawaty, S.Kep., Ns., MN, PhD Indra Gaffar, S.Kep.,Ns.,M.Kep Andi Baso Tombong, S.Kep.,Ns.,M.ANP
Language	Mixed, Indonesian and English
Relation to Curriculum	This course is a compulsory course and offered in the 10 th semester.
Teaching Methods	<p>Teaching methods used in this course are:</p> <ul style="list-style-type: none"> - Bed side teaching - Pre-post conference - Reflective study - Nursing Round - One-Minute Preceptorship (OMP) - Case Based Discussion <p>The class size for lecture is approximately 100 students, therefore there are 7-11 students for each lecturer</p> <p>Clinical fieldwork is 93,33 hours.</p>
Workload (incl. contact hours, self-study hours)	For this course, students are required to meet a minimum of 93,33 hours for clinical fieldwork.
Credit points	2 credit points (equivalent with 3,73 ECTS)
Requirements according to the examination regulations	Students must have graduated with Bachelor Science in Nursing (BSN) and must have passed the Fundamental of Nursing Practice, Medical-Surgical Nursing Practice, Pediatric Nursing Practice, Maternity Nursing Practice and Psychiatric and Mental Health Nursing Practice
Module objectives/intended learning outcomes	<p>At the end of the professional program, students are expected to:</p> <p>Attitude CLO1: Demonstrate professionalism towards patients and nurses in providing nursing care and services. (A1)</p> <p>Competence CLO2: Identify patients who fall under the high volume, high risk, and high-cost categories from the emergency department, and conduct therapeutic communication and build trust with patients and families to initiate the nursing care process and observe the implementation of the ICP by other healthcare professionals. (C2) CLO3: Provide comprehensive nursing care—from assessment, diagnosis, planning, implementation, to evaluation—following SDKI, SIKI, and SLKI guidelines and applying the Professional Nursing Practice Model (MPKP). (C3)</p>

	<p>CLO4: Use leadership and nursing management skills to manage a group of patients within the high volume, high risk, and high-cost categories, and resolve patient health issues using a scientific, evidence-based approach while applying MPKP. (C4)</p> <p>CLO5: Evaluate the congruence between nursing care and other care practices provided to patients and the achievement of patient outcome criteria based on the predetermined length of stay in the ICP for five selected diseases. (C4)</p> <p>CLO6: Disseminate findings to nurse managers, primary nurses, and practice nurses in the associated hospital to continuously improve the quality of nursing services. (C4)</p>
Content	<p>Students will learn about:</p> <ul style="list-style-type: none"> - Application of Management Functions in Nursing Services, which includes: planning, organizing, directing, and supervising/controlling at the inpatient ward level using research findings (evidence-based nursing practice). - Management of Nursing Care, which includes: Assessment, Establishment of Nursing Diagnosis, Planning of Nursing Interventions, Implementation of Nursing Actions, and Evaluation of Nursing Actions using research findings (evidence-based nursing practice).
Examination forms	<ul style="list-style-type: none"> - Clinical Performance Evaluation (Weekly) - Initial Seminar Assessment - Final Seminar Assessment - Clinical Supervision
Study and examination requirements	<p>Study and examination requirements:</p> <ul style="list-style-type: none"> - Students must be present 15 minutes before the activity begins, if students are late, they are required to report to the supervisor. - The presence of students during management Nursing Practice must be 100% - Students are not allowed to leave practice site except with the permission of the supervisor - All the assignments and log book must be collected maximum of 1 week after the nursing management practice takes place. The score of late assignments will be reduced by 5% per day. - Students must switch off all electronic devices when shifting. - Students must inform the clinical preceptor and institutional preceptor if they will not attend the shift due to sickness, etc. - Students must submit all class assignments before the deadline. - Students must attend the exam to get final grade.
