

## Chromebook Tips and Tricks Part 2

Do you hate using the touchpad? Do you miss all the bells and whistles of your old laptop? Well I am here to tell you that your Chromebook can do all those things, just in a smaller version! (gasp, shock, horror) Here are 6 more tips for you!. You are more than welcome to share these new tricks with your friends and students!

1. Ctrl + Shift + L = Will lock your Chromebook so that you don't have to close it if you need to get up for just a moment.
2. Ctrl + Tab = Lets you jump to the next tab in your browser screen.
3. Ctrl + Shift + Tab = Lets you toggle to the previous tab in your browser screen. (works on windows and macs too!)
4. Ctrl + Shift + Q = This will quickly log you out of your Chromebook.
5. Alt + E = Will open the Chromebooks menu for you.
6. Alt + 1-8 = This will launch applications located on your Quick Launch Bar.
  - a. Example: Alt + 1 = Launch Chrome Browser.
  - b. Alt + 2 = Opens your gmail.
  - c. ect.
