

SL: Why can't you look like others?
SL: Why you can't look like others!
SL: Why you, WHY!"
SL: Why can't you shine like others!

When you look at yourself in the mirror, who do you honestly see staring back at you?

Is it a young Woman with the body of a fitness model, perfect face posture but with sensitive face skin?

Someone that women obsess over in the gym.

But...

In the club men don't.

And you're still asking yourself why.

Even when you know the answer.

It's because of your sensitive face skin.

No matter what kind product you use, it'll irritate your skin.

Always asking yourself...

"Why when I find a good product, glitter dries down to basically nothing and it burns my eyes so bad that they become watered"

"If only there is a single product that isn't irritating my skin plus gives great highlights for the next 12 hours".

With this Shimmer you can have a better look than any woman in just a single drop for one use.
