Effective date: May 13, 2026

1. Overview

Maxfiy raqamni aniqlash is an app that helps users open mobile carrier websites and a YouTube channel inside the app using a full-screen WebView.

This app does not require registration and does not collect, store, or share personal data directly.

2. Information We Collect

The app itself does not collect or store any personal information.

We do not collect:

- Name
- Phone number
- Email address
- Location
- Contacts
- Photos or videos
- Messages
- Device files
- Payment information

3. Permissions Used

The app uses only the following permission:

Internet Permission

The Internet permission is required to open mobile carrier websites, YouTube links, and other web content inside the app.

The app does not use this permission to collect personal data.

4. WebView and Third-Party Websites

The app opens mobile carrier websites inside a full-screen WebView.

These websites are operated by third parties, such as mobile carriers. We do not control the content, privacy practices, cookies, forms, login pages, or data collection practices of those websites.

When you use a third-party website inside the app, the privacy policy of that website applies.

Users should review the privacy policies of the mobile carrier websites they visit.

5. YouTube Channel

The app may open a YouTube channel or YouTube content.

YouTube is operated by Google. When you use YouTube, Google's own privacy policy and terms apply.

6. Advertising

The app may use Google AdMob to show advertisements.

AdMob may collect certain data automatically, such as device information, advertising ID, app interaction data, approximate location, and ad performance data. This data is collected and processed by Google according to Google's privacy policy.

You can learn more about how Google uses data here:

<https://policies.google.com/technologies/ads>

At the time of publishing, ads may not yet be active, but they may be added in a future app update.

7. Analytics and Crash Reporting

The app does not use Firebase Analytics, Firebase Crashlytics, or other analytics or crash reporting tools.

8. Data Sharing

Since the app itself does not collect personal data directly, we do not sell, rent, or share users' personal data.

Third-party services, such as mobile carrier websites, YouTube, and AdMob, may process data according to their own privacy policies.

9. Children's Privacy

This app is not specifically directed to children.

We do not knowingly collect personal data from children. If you believe that a child has provided personal information through a third-party website opened in the app, please contact the relevant third-party service directly.

10. Data Security

The app does not store personal data on our servers.

Since the app opens third-party websites, users should be careful when entering personal information on external websites. We are not responsible for the security practices of third-party websites.

11. Changes to This Privacy Policy

We may update this Privacy Policy from time to time.

Any changes will be posted on this page. Users are encouraged to review this Privacy Policy periodically.

12. Contact Us
